Briefly explain why you would like to serve on the board / commission

I am deeply passionate about holistic community health and wellbeing, which I believe are the result of systems that facilitate community members relating to one another in healthy, mutually-supportive, values-conscious ways. I have a wealth of experience promoting equity and justice within organizations and across community settings through innovative strategic solutions. From what I can tell, even as a newer community member, Chandler seems to be seeing real, tangible dividends from its efforts to generate a shared identity defined by a respect for and appreciation of diversity through the celebration of cultural unifiers (e.g., arts, food, history) and thoughtful community planning. I hope to be able to contribute my skills, experience, and insights toward that success, while also gaining a better understanding of my community.
