

**AMENDMENT NO. 1 TO CITY OF CHANDLER COMMUNICATION SERVICES
LICENSE (CLASS 5) ISSUED TO BICENTEL, LLC FOR JOINT USE AND
CONSTRUCTION OF TELECOMMUNICATION FACILITIES**

RECITALS

- A. On December 16, 2024, the City of Chandler ("City") and Bicentel LLC ("Bicentel") (City and Bicentel may be individually referred to as a "Party" or collectively as "Parties") entered a Communication Services License (Class 5) Agreement (the "License Agreement") which, in part, permits the installation and use of telecommunication services facilities within City right-of-way; and
- B. City owns and operates telecommunication services facilities within City right-of-way; and
- C. Bicentel or Bicentel causes others to install and construct telecommunication services facilities including, but not limited to, underground conduit and fiber optic cables to permit Bicentel to provide telecommunication services; and
- D. Bicentel desires to expand its telecommunication services facilities in City and City desires to expand City's telecommunication services facilities; and
- E. The Parties wish to enter this Amendment No. 1 ("Amendment No. 1") to coordinate and cooperate for the expansion of their respective telecommunication services facilities under the terms and conditions of this Amendment No. 1.

AGREEMENT

NOW, THEREFORE, for good and valuable consideration, the Parties hereby agree to the following terms and conditions that amend the License Agreement through this Amendment No.1 for Joint Use and Construction of Telecommunications Facilities.

1. DEFINITIONS.

The terms, phrases, words, and their derivatives used in this Amendment No. 1 will have the meanings given in Chapter 46 of the Chandler City Code as amended. Additionally, "Conduit" means a pipe-like structure that may consist of polyvinyl chloride (PVC), high density polyethylene (HOPE), or other materials placed underground to create a continuous raceway for Fiber Optic Cables as part of a telecommunications network.

"City Conduit Segments" mean portions of City Conduit and related Facilities.

"Duct" means a single enclosed raceway for one or more Conduits. The term Duct may include micro-duct, inner duct, or other industry standard duct-like materials.

"Facility" and "Facilities" means the various elements or components of an underground telecommunications network, including without limitation Conduit, Ducts, Fiber Optic Cable, Handholes, Manholes, and other ancillary materials, items, equipment, splice cases, pull rope, mule tape, buried locate tape, markers and structures (e.g., pedestals and vaults).

"Fiber Optic Cable" means fiber optic telecommunications cable.

"Handhole" means a structure placed in the ground and accessible from the surface that is used to provide access to Conduits, Ducts, or Fiber Optic Cables to install, operate, maintain, and repair Facilities.

"Manhole" means a structure that allows a person to access to Conduits, Ducts, or Fiber Optic Cables to install, operate, maintain, and repair Facilities.

"Requirements and Standards" means laws, rules, regulations, codes, ordinances, permit conditions, the National Electric Code, the National Electrical Safety Code, and the Blue Book, that govern, address, or apply to construction of underground telecommunication facilities in City public rights of way.

"Vaults" means No. 7 or No. 9 vaults in accordance with City of Chandler standard detail C-103.

"Bicentel Conduit Segments" means portions of Bicentel Conduit and related Facilities.

2. INCORPORATION OF LICENSE AGREEMENT; AMENDMENT NO. 1 TERM.

a) License Agreement. The terms and conditions of the License Agreement and all exhibits and schedules attached to the License Agreement are hereby incorporated into and made a part of this Amendment No. 1 by this reference.

b) Term. This Amendment No. 1 is effective as of the last date signed by the Parties (the "Effective Date"). This Amendment No. 1 will remain in effect until the first to occur: (i) the License Agreement expires; (ii) termination of the License Agreement; or (iii) termination of this Amendment No. 1.

3. JOINT ROUTE AND USE.

a) Joint Route. Consistent with the recitals of this Amendment No.1, which are incorporated into and made a part of this Amendment No. 1 by this reference, the Parties have identified a route whereby each Party may cooperate and coordinate use and construction to expand their respective Facilities ("Joint Route"). The Joint Route will be generally identified during the permit phase for any Bicentel's construction work under the License Agreement and prior to the start of construction by Bicentel.

b) Joint Use Request. To execute the Joint Route, the Parties agree to complete and sign a form substantially similar to Schedule 1 ("Joint Use Memo"). In the Joint Use Memo, the Parties will identify and generally describe the terms and conditions for their joint construction and use through one or more of the following: (i) Bicentel's use and occupancy of City Conduit; (ii) City's use and occupancy of Bicentel Conduit; (iii) Bicentel's construction of City Facilities in a joint trench; or (iv) City's concurrent construction of Facilities in a joint trench (collectively "Joint Use").

c) Joint Use Permit and Completion. Each permit required for the construction of the Joint Use agreed to by the Parties, when completed, will be submitted through the City of Chandler's as-built review process. A permit will be deemed completed and ready for as- built drawing submissions when the Joint Use receives an approved final inspection.

4. BICENTEL'S USE AND OCCUPANCY OF CITY'S CONDUIT.

a) Bicentel's Use and Occupancy of City's Conduit Segments. Pursuant to the terms and conditions described in this Amendment No. 1, City permits Bicentel to use the City's Conduit for installation of Bicentel's Facilities. Bicentel's use of City's Conduit will be limited to uses permitted in the License Agreement.

b) Handholes and Manholes. Bicentel may place handholes and manholes for Bicentel's sole use for slack loops and splicing enclosures. No Bicentel slack loops or splicing enclosures will be placed within City owned vaults. Bicentel may install breakouts in City handholes and manholes to interconnect and access Bicentel's duct and fiber optic cable in City Conduit Segments. Bicentel must clearly tag and label as "Bicentel fiber optic cable" all Bicentel fiber optic cable placed in City handholes and manholes.

c) Location. Bicentel must submit a depiction and description to show the location of the City's Conduit Segments to be licensed by Bicentel during the permit process for City's review and approval before installation.

d) Modifications to City's Conduit. Bicentel may modify the applicable City Conduit Segments as follows: (i) City will provide record drawings for the applicable City Conduit Segments to Bicentel, as available, for Bicentel's own investigations and use. City does not represent that the record drawings provided to Bicentel are accurate or complete; (ii) Bicentel may perform make-ready work on the City's existing Facilities where such City existing Facilities are incomplete or inadequate in order to install, operate, and maintain Bicentel's Facilities in the Licensed Conduit; (iii) Portions of the City's Conduit that are occupied with existing fiber or innerducts must be protected in place during any installation, construction, or maintenance performed by Bicentel. Any pull tape or tracer wire removed from City conduit during the installation of Bicentel fiber optic cabling must be replaced at the time of the fiber optic cable installation; and (iv) Bicentel will submit plans for any make-ready repairs or modifications that Bicentel plans to make to the City's Conduit during the permitting process for City's review and approval before commencing any repairs, modifications, installations or construction.

e) City Inspection. During the term of this Amendment No. 1, the City reserves the right, interest, and privilege to inspect the City's Facilities modified, occupied, or used by Bicentel under this Amendment No.1. The City's inspection or the lack of a City inspection does not relieve Bicentel of any responsibility, obligation, or liability under this Amendment No. 1.

f) No Warranty. Bicentel accepts the City's Conduit Segments in an "as is" and "where is" condition. City does not warrant or represent the City's Conduit Segments are adequate or sufficient for Bicentel's use or occupancy. Where City has a 4-inch sleeve Bicentel wishes to occupy that does not have three (3) existing innerducts, Bicentel will install, if space allows, two (2) 1.5-inch and one (1) 1-inch innerducts within the conduit segment(s) Bicentel wishes to occupy prior to placing Bicentel's fiber optic cable within the 4-inch sleeve.

g) City Reserves All Rights and Interests. Except to the extent the City permits Bicentel to use, occupy, maintain, modify, and repair City's Facilities, the City's use, occupancy, rights, and interests in City's Facilities must not be restricted or compromised in any way. City expressly reserves all rights, interests, and privileges in City Facilities to permit City or third parties to use, occupy, maintain, modify, and repair the City's Facilities, provided that the City will provide Bicentel with prior notice, as specified in this Amendment No. 1, of the City's activity that may impact or disrupt Bicentel's Facilities in City Conduit.

h) Bicentel's Payment for Use and Occupancy. Bicentel will pay the per linear foot fee as set forth and escalated in the Citywide Fee Schedule (\$2.72 per linear foot for calendar year 2025) for Bicentel's use and occupancy of City's Conduit Segment(s). For City owned Facilities used and occupied by Bicentel, this per linear foot fee must be paid as part of the annual fees stated in Notice of Payment Due under the License Agreement and cannot be included as part of the set off of 2% gross revenues.

5. CITY'S USE AND OCCUPANCY OF BICENTEL'S CONDUIT.

a) Grant for City's Use and Occupancy of Bicentel's Conduit Segments. Pursuant to the terms and conditions set forth in this Amendment No. 1 and the applicable Joint Use Memo, Bicentel permits City to use and occupy Bicentel's Conduit Segment(s) to install, use, operate, maintain, and repair City's Facilities for the term of this Amendment No. 1.

b) City's Use of Bicentel Conduit Segments. Effective upon Parties' execution of an applicable Joint Use Memo, City will be granted the rights, interests, and privileges to: (i) place City fiber optic cable in the Bicentel Conduit Segments specified by City and agreed to by Bicentel; and (ii) to interconnect City's Conduit System to Bicentel's handholes and manholes to access City's fiber optic cable in Bicentel's Conduit Segments. Alternatively, City may request Bicentel to place and splice City fiber optic cable on behalf of the City in Bicentel Conduit Segments, in which case Bicentel will provide a proposal to City for these costs. City will provide the necessary splicing diagrams for Bicentel to accomplish the work. The installation and testing of all city Facilities will be accomplished in accordance with City of Chandler Standards and Specifications. All City fiber optic cable placed in Bicentel handholes and manholes will be clearly tagged and labelled as "CoC Fiber Optic Cable". No City slack loops or splice enclosures will be placed within Bicentel handholes or manholes.

- c) Bicentel Reserves All Rights and Interests. No use of the Bicentel Conduit Segment(s) by the City will vest in the City or any third party any easement or any other ownership interest or other form of real property right in such Bicentel Facilities, nor will any easement or any other ownership interest or real property right in the City Facilities vest in Bicentel.
- d) City's Payment for Use and Occupancy of the Bicentel's Conduit. The rate for the City's use and occupancy of Bicentel's Conduit Segments is the same per linear foot fee set forth and escalated in the Citywide Fee Schedule (\$2.72 per linear foot for calendar year 2025). The City will pay Bicentel for use and occupancy of Bicentel Conduit Segments in the form of a set off or credit against any fees or costs assessed Bicentel under the License Agreement. For Bicentel owned Facilities occupied and used by the City, this per linear foot fee can be used as a set off against the 2% gross revenues under the License Agreement. If this amount is greater than the License fees due for the particular year, this amount may be applied as a credit to future fees due under the License Agreement. Bicentel and City will jointly maintain an annual record of all linear footage used and occupied by the City and the corresponding set off or credit value. This record will be reviewed and reconciled annually in conjunction with the Notice of Payment Due under the License Agreement.
- e) City's Indemnity Under this Section 5. To the extent permitted by law, the City will indemnify, defend, and hold harmless Bicentel, its officers, directors, employees, and contractors from and against third-party claims, demands, damages, liabilities, losses, costs, and expenses, including reasonable attorneys' fees, caused by the negligence or willful misconduct of the City or its contractors in connection with the installation, operation, or maintenance of City's Facilities within Bicentel's Conduit Segments. The indemnity obligations set forth in this Section 5(e) solely apply to the City's Use and Occupancy of Bicentel's Conduit Segments. The indemnity obligations set forth in this Section 5(e) do not apply to any other term, condition, duty, or obligation under the License Agreement or this Amendment No. 1, in which case the terms and conditions of the indemnity obligations set forth in the License Agreement apply, prevail, and control.

6. BICENTEL'S CONSTRUCTION AND INSTALLATION OF CITY'S FACILITIES

- a) Bicentel's Concurrent Construction of City Facilities. City may request Bicentel to place, splice, construct and install City Facilities on behalf of the City and according to City Standards and Requirements, in which case Bicentel will provide a proposal to City for these costs. City will provide to Bicentel the information the City possesses to accomplish the work. All City Facilities materials and testing will be accomplished in accordance with City of Chandler Standards and Specifications. All City Fiber Optic Cable placed in Bicentel Handholes and Manholes will be clearly tagged and labelled as "Coe Fiber Optic Cable". No City slack loops or splice enclosures will be placed within Bicentel Handholes or Manholes.
- b) City Conduit Segments. As part of its construction plan, City may request Bicentel to place additional Conduit Segments as required by City of Chandler Standard Detail C- 104, as set forth in the Joint Use Memo. The Conduit quantities requested by City may be reduced or increased as determined by the City. During the permitting process, City will indicate stations and offsets for City's vaults to be provided and placed during construction by Bicentel (collectively "City Conduit Segments"). City shall take ownership of and title to City Conduit

Segments constructed by Bicentel upon City's approval of the applicable as-built submittal.

c) Compliance with Title 34. For construction and installation of City Facilities in City right of way, Bicentel must comply, or cause Bicentel's contractor to comply, with Arizona Revised Statutes (A.R.S.) Title 34, as amended, as applicable.

7. CITY'S CONCURRENT CONSTRUCTION OF CITY'S FACILITIES.

a) City's Concurrent Construction of City Facilities. The Parties agree to cooperate and coordinate the concurrent construction of City Facilities in a joint trench when the City works with another contractor or telecommunications services provider to install City Facilities: (i) in the same trench with Bicentel Facilities; or (ii) within Bicentel Conduit Segments. Each Party will designate a project contact to coordinate the work and project schedule for the work.

b) City Payment Under This Section. As set forth in this section, City will pay the costs of concurrent construction of City Facilities in the same trench as Bicentel Facilities or when the City installs City Facilities within Bicentel Conduit Segments. City's construction costs under this subsection will be calculated based on the difference between an estimate for construction of all Facilities and an estimate for the construction of Bicentel's Facilities.

8. OTHER FEES.

a) Other Fees. This Amendment No. 1 does not exempt Bicentel from payment of permit fees and other fees normally assessed for use of the right-of-way, including any transaction privilege, sales, excise, or other taxes (except income taxes) imposed now or hereinafter imposed by any governmental authority pursuant to the law, and the exchanged use referenced above solely applies to the annual per linear foot fee for occupation of conduit listed in the City's fee schedule.

b) Freeway Crossing. If Bicentel determines that it will occupy one (1) 1.25-inch innerduct within one (1) four-inch (4") conduit owned by the City within the duct bank that crosses under a freeway within Chandler and which City has available conduit (collectively "Freeway Crossing"), Bicentel will pay to City Ten Thousand Dollars (\$10,000) per year for the duration of occupancy of the conduit for this freeway crossing use ("Freeway Crossing Fee"). Bicentel is limited to use this conduit solely for installation and operation of Bicentel fiber optic cable as described in and in accordance with the terms of this Amendment No. 1. Payment will be due along with the annual right of way use fees for each calendar year under the License Agreement. City agrees that upon any extension, renewal, or replacement of this Amendment No. 1, Bicentel may be granted the same right to occupy and use this described conduit for the same fee. The provisions of the preceding sentence will survive any expiration or termination of this Amendment No. 1. Section 4 of this Amendment No. 1 applies to the installation and use of Bicentel's Facilities within a Freeway Crossing.

9. MAINTENANCE AND REPAIR OF CONDUIT SEGMENTS.

a) Maintenance of Occupied Conduit. Each Party will maintain and repair its Conduit and

Facilities at no charge to the other Party and keep them in good working order according to applicable Requirements and Standards. Each Party will employ best industry practices to provide no less than 48- hour prior written notice of all maintenance and repair activity by sending notice to the other Party's contact listed in Schedule 2. Emergency repair activity may be undertaken without prior notice, if necessary, provided that the Party will notify the other Party as soon as practicable under the circumstances. Each Party will provide the name and contact information in Schedule 2 of a responsible person who is always available (24 hours a day for 365 days a year) for purposes of this Amendment No. 1. If the contact person and information listed on Schedule 2 changes for either Party, the Party shall notify the other Party within 48 hours of the change.

b) Notice. Bicentel must maintain Annual Routine Maintenance and Annual Emergency Repair Blanket Encroachment Permits as required by Chapter 46 of Chandler City Code and follow the notification provisions for such work in accordance with the language identified on those permits.

c) Damage. Each Party will be responsible for any damages it causes to the other Party's Conduit and Facilities when maintaining or repairing its Facilities.

d) No Interference. Each Party will comply with all applicable Requirements and Standards with respect to its use and occupation of Conduit and Facilities under this Amendment No. 1 and cooperate with the Conduit or Facilities owner in good faith to address any interference or other such issues. Each Party will require all other authorized users of its Conduit and Facilities to comply with all applicable Requirements and Standards with respect to their use and occupation of such Conduit or Facilities and to cooperate with all other occupants in good faith to address any interference or other such issues.

10. NETWORK RELOCATION.

a) Without waiving any rights to reimbursement that the Parties may have under any other agreement or applicable law, each Party will be responsible for all of costs to relocate their own Conduit Segments and each Party will be responsible for costs to relocate their own fiber optic cable, unless the relocation is requested by Bicentel, in which case Bicentel must reimburse the City for the City's costs incurred (or perform the work for the City) to relocate City Facilities.

11. ADMINISTRATION.

a) Representative. Each Party will appoint a representative to serve as a single point of contact for that Party to implement and manage this Amendment No. 1. Each Party will devote all resources reasonably necessary to ensure that this Amendment No. 1 may be implemented in good faith, to the mutual benefit of both Parties, consistent with their respective independent obligations. Both Parties commit themselves to act promptly in the administration of this Amendment No. 1 and to aggressively seek to eliminate duplicative, wasteful or inefficient process steps, requirements, and other activities. Should the appointed single point of contact representative described in this paragraph change for either Party, that

Party will notify the other Party within 48 hours of the change.

b) Share Information. Each Party will cooperate in good faith to exchange information, such as network maps, capacities, survey and audit results, future requirements, and other information intended to aid and assist each Party in the efficient and expeditious identification and implementation of conduit occupancy and network construction opportunities.

12. CONFIDENTIAL INFORMATION.

a) Definition. Confidential Information means Bicentel or City materials, Bicentel trade secrets, and other Bicentel or City proprietary information provided to the other Party that is clearly labeled, marked or otherwise identified as "confidential" or "proprietary information." Confidential Information may not include information that was in the public domain at the time of disclosure; becomes generally known or available through no act or omission on the part of the party owning the Confidential Information; is known, or becomes known, from a source other than the Party owning the Confidential Information or its representatives; or is independently developed without violating any of its obligations under this Amendment No. 1.

b) Disclosure of Confidential Information. City and Bicentel agree to only disclose Confidential Information to employees, elected officials, agents and contractors with a need to know the Confidential Information or as otherwise required by code, statute, rule or regulation.

c) Public Records Request. When a third party ("Requestor") not otherwise authorized to access Confidential Information under this Agreement makes a public records request to City for access to Bicentel Confidential Information ("Request"), including the terms and conditions of this Amendment No. 1, City will promptly notify Bicentel of the Request before responding to the Requestor. Bicentel will have 10 days after notice from the City to take the steps Bicentel deems necessary to protect Bicentel Confidential Information. Bicentel will be responsible for all costs associated with its pursuit of such steps, including the pursuit of any legal remedies.

d) Return of Confidential Information. Upon termination or expiration of this Amendment No. 1, City and Bicentel will make reasonable efforts to either return or destroy all Confidential Information as permitted by law; provided, however, any Confidential Information in electronic format as part of City's off-site or on-site data archival process system will be held by City and kept subject to the terms of this provision or destroyed at City's option. The obligations of this provision will survive the termination or expiration of this Amendment No. 1.

13. GENERAL PROVISIONS.

a) Termination. This Amendment No. 1 may be terminated under the same terms and conditions as provided in the License Agreement.

b) Use and Occupancy Permissions Terminate Automatically. All Bicentel's permissions to use

and occupy City's Conduit Segments and all of City's permissions to use and occupy Bicentel's Conduit Segments will automatically terminate at the termination or expiration of this Amendment No. 1.

c) Removal of Fiber upon Agreement Expiration or Termination. Unless the Parties otherwise agree in writing, each Party will remove the fiber optic cable from the other Party's respective Conduit Segment within ninety (90) days after the expiration or termination of this Amendment No. 1. To the extent it is commercially reasonable, the Parties agree to coordinate and cooperate for the respective fiber optic cable removal to avoid service disruption and unnecessary damage to each Party's respective Facilities. If the Parties have not otherwise agreed or a Party's fiber optic cable has not been removed from the applicable Conduit Segment as set forth in this Section 13(c), a Party, in its sole discretion, may: (i) allow the other Party's fiber optic cable to remain in place and assume ownership of the other Party's fiber optic cable; or (ii) remove the other Party's fiber optic cable from the respective Conduit Segments without notice or liability of any kind.

d) Right-of-Way. This Amendment No. 1 is limited to placement and construction of underground facilities in public and private rights-of-way in the City. Placement or construction of Facilities in any other location may be undertaken only with the advance written consent of both Parties.

e) Notice. Any notice under this Amendment No. 1 must be given in writing and directed to the applicable Party below. Notice will be deemed to have been delivered: (i) on the delivery date if delivered personally; or (iii) one (1) business day after deposit with a commercial overnight carrier. Either Party may from time to time change its address for purposes of this paragraph by giving the other Party notice of the change in accordance with this paragraph.

f) Dispute Resolution. Except for disputes involving confidentiality, if a dispute arises between Bicentel and City related to this Amendment No. 1 ("Dispute"), prior to the initiation of legal action and within ten (10) days of receipt of a Notice of Dispute, representatives of the Parties will promptly meet in an attempt resolve the Dispute. If the Parties are unable to resolve the Dispute after this meeting, then the Parties may pursue any remedies available to them at law or equity.

g) Entire Agreement, Precedence of Documents. The License Agreement, Exhibit A Service Area, Exhibit B Standards for Letter of Credit, Annex A Payment Demand, this Amendment No.1, Schedule 1, and Schedule 2 constitute the complete agreement and understanding between the Parties with respect to the subject matter hereof and supersede all prior agreements and understandings between the Parties. If an ambiguity or conflict arises out of or results from these instruments and documents, the instruments and documents in the following order prevail and control: (1) License Agreement; (2) Exhibit A; (3) Exhibit B; (4) Annex A; (5) this Amendment No. 1, (6) Schedule 1, and (7) Schedule 2.

h) Survival. The following provisions survive termination or expiration of this Amendment No. 1: Sections 8 (Other Fees), 12 (Confidential Information), and 13(c) (Removal of Fiber), and any other provisions which by their nature are intended to survive.
