Taylor,
Good afternoon. My name is Denise Kotarinos and I live in the Windmill Villa homes located at Ray and McClintock.

I am writing to you with concerns installing another tower in the vicinity of our homes. We already have one directly across from us about the same distance. I'm not sure why we need an additional one. I do plan on attending the meeting but would like to know what we need to do to stop the build.

I am not sure how we address our concerns at the meeting; if we need signatures, etc. I'm also concerned this is a done deal and we have no say.

Thank you for your assistance.

Sincerely
Denisse Kotarinos

Hello,

I am responding to you concerning another communication tower to be located at the southeast strip mall on McClintock and Ray Rd.

There is a tower at that location already. I believe it is Verizon. I am not in favor of having another tower that will be viewed from my community. There are other locations on other strip malls.

Thank you,
Diana Brasfield

Linda,

I am a homeowner in the Golden Keyes community on McClintock and Ray. I am adamant that this project should not be placed near our community. This is not a plan that would benefit our neighborhood because of the high rate of RF radiation. Peer reviewed research documents a range of biological and health effects linking RF to increased cancer risk, cellular stress, genetic damage, hormonal changes, and neurological effects. These documents go back over 4 decades. Please do not put this near our neighborhood.

Best regards,

Katherine Stover

This petition is in reference to the proposed 65 ft tower to be located at 3875 W Ray Rd.

These towers are known for noise that can be debilitating, plus RF radiation waves which is a carcinogenic to humans.

We homeowners in the Golden Keys East community which is directly behind the proposed location oppose the installation of this tower. There is a Verizon tower at the same location, and that is one too many. The owner of this strip mall is greedy. The other strip mall owners at Albertsons and Chase Bank refused to have it at their locations.
