Subject: The divide road

Dear Supervisor English,
I will not be able to attend tomorrow's meeting in which you will be discussing the repair and possible opening of the divide road outside of Bisbee.

I am a senior with arthritis and the divide road offers me a safe place to walk with a gradual uphill climb. There are so many people who enjoy the road on a daily basis. It would be most helpful if we did not have to navigate around the barriers in place along the washed out parts of the road.

That said, I also think it is most crucial that the repairs be made for the safety of the entire community. With the monsoon season we just experienced, one does not have to stretch the imagination very far to realize that the tunnel that we use daily and rely on could have a failure some day. I feel strongly that the divide road needs to be repaired to offer our community an alternate route into town. We need to have the road opened for vehicular traffic.

I respectfully ask that you take my request into consideration.

Thank you,
Barbara Jones
