

Supervisor Call-

I was recently contact by Mike Rutherford and Mike Izzo to gauge my level of interest in joining the Building Code Advisory and Appeals Board. I think this position would be a good match for my professional qualifications and interests and would be happy to serve in the role. I've learned a great deal in my 17-1/2 years at the City of Sierra Vista, including a "common sense" approach to engineering. Standards are established to protect public health and welfare, but since they cannot cover every possible scenario, professional engineering judgment is an important part of the decision making process. I think I can strike that balance and be a positive asset to the team. Thank you for your consideration, and if you have any questions, please feel free to give me a call or email at any time.
