RE: Hubbard Access off Dorothy

Teresa,

The purpose of this letter is to confirm that Mescal-J6 Fire District will no longer require an all-weather access road from N. Dorothy Avenue, leading into Mr. Hubbard's storage shed sales facility.

The requirement for that access road was made over a year ago, when the property use was going to include a new commercial building, with access to it off of Meadowlark Lane. Considering the property is instead being used as a storage shed sales facility, we no longer require the AWA.

Please contact me with any questions or concerns you may have.

Respectfully,

A handwritten signature in black ink that reads "John Moran".

John Moran
Fire Chief
