Factors in Favor and Against Approving the Rezoning:

Factors in Favor of Approval

1. Allowing the request would be in keeping with the character of development in the area;
2. The Babocomari Area Plan and Comprehensive Plan policies prescribe a low density of residential development in this area to protect the current character of the neighborhood, and the request would facilitate such a density;
3. The request would remove the conditional zoning and permit the owner to develop the property; and
4. One letter in support.

Factors Against Approval

None
