### **The Purpose of Re-Zoning**

The purpose of zoning is to guide the development of land in accordance with the County's Comprehensive Plan, and to promote the public health, safety and general welfare of the County's residents. Zoning districts specify permitted land uses, minimum lot sizes, and certain site development standards such as setbacks and screening. Because Cochise County encompasses a large and diverse area, there are 34 individual zoning districts, ranging from rural and residential districts to business and industrial districts. When property is rezoned, all uses permitted within the new district can be permitted on the rezoned parcel.

### **What is the Process?**

1. Pre-application meeting with County planning staff.
2. Citizen Review Process – the applicant must send notice to all property owners within a radius of no less than 300 feet of the subject parcel(s), as shown on the most recent available records of the last property tax assessment. The County Zoning Inspector may expand the mailed notification area to greater than a 300-foot radius at time of application acceptance if there are compatibility concerns associated with the request. Note: this step is not required for rezonings to less intensive districts.
3. Application Submittal
4. Technical review by relevant internal staff and external agencies
5. Public Hearing – Planning and Zoning Commission (Recommendation to the Board of Supervisors)
6. Public Hearing – Board of Supervisors (Approval or Denial)

### **Required Submittals**

1. This application
2. Citizen Review Report
3. Land use/concept plan -drawn to scale showing the existing and proposed District boundaries and an accurate legal description of the area being petitioned for amendment. See our website for an example plan: <https://www.cochise.az.gov/development-services/rezoning>
4. Letter of Authorization (for authorized agents, if applicable)
5. Copy of survey with an associated legal description (if more than one zoning district is requested on a single parcel, if applicable)
6. Processing Fee

Please state the reason for this request and why it should be supported.

Is this request consistent with all deed restrictions or private covenants in effect for this property?

Yes

No

Not applicable (no deed restrictions or covenants)

Describe all **existing** structures/uses present on the subject parcel. Note: the size and location of existing structures must be shown on the accompanying site plan.

No structures, vacant land

Describe all **proposed** structures/uses on the parcel that to be placed on the parcel. Note: the size and location of proposed structures must be shown on the accompanying site plan.

Proposed structures are single family residential home with 2 bedrooms and outbuilding to be used as garage/workshop.

Which streets or easements will be used for traffic entering or exiting the property? (Please label on the accompanying plan)

Legal access is via Ute Street and Walapai Street ( both undeveloped/ not maintained)

What impact will this have on the traffic volume of roads serving this subject property?

Outside of the initial construction, which will involve some traffic from heavy equipment for digging, pouring concrete etc, impact is extremely minimal. I am 1 person with 1 car.

How many driveway cuts are proposed along streets or easements to allow site access? State whether this is an increase/decrease and whether any existing cuts will need relocation.

1 driveway cut will be made to give access from Ute st to the West. No existing cuts need relocating and Ute st. is currently undeveloped/ impassable

Will this rezoning encourage/result in the use of any residential street for through traffic to and from the proposed District? Note: this only applies to rezonings to GB, LI, or HI. Rezonings to any other district should select "not applicable."

Yes     No     Not applicable

Does the subject parcel have site access onto a major road?

Yes     No

Please indicate whether the subject property occurs within the following:

- Within the Sierra Vista Sub-Watershed Overlay Zone
- Within two miles of the San Pedro Riparian National Conservation Area
- Within one mile of the Babocomari River
- None of the Above

If the subject property is within one of the previously mentioned zones, are you interested in a voluntary retirement of development rights in exchange for a concomitant density increases elsewhere in the County?

Yes     No

Please describe your citizen review process (if applicable). Specifically, state whether you received any responses to your mailed notice or public meeting. Explain how your rezoning application has incorporated the feedback you received.

I have made attempts to initiate a citizen review

Identify the utility company/service provider for each of the following services and state if additional provisions or future connections are required in the space below.

<b>Service Provider</b>	<b>Service Provider</b>	<b>Additional Provisions Required</b>
Water/Well	No	
Sewer/Septic	In Progress	
Electricity	No	Will be solar
Natural Gas	No	
Telephone	No	
Fire Protection	No	
Waste Disposal		

Can the subject parcel accommodate typical uses within the proposed zoning district in full compliance with all applicable site development standards? Explain.

Definitely. Property is already RU zoned and exceeds the 4 acre size necessary for RU 4 zoning. There is plenty space for a small jhome and very few immediate neighbors.

Will any adjacent parcels be reduced in size or altered in shape as a result of this amendment? If so, will they remain capable of reasonable future development in full compliance with the Zoning Regulations?

Adjacent parcels will not be reduced in size or reconfigured by this proposal.

Is there a significant amount of nonconforming uses in the area currently? Will this amendment result in additional nonconforming lots or uses in the area?

No and no

Is the proposed zoning adjacent to, or near, other parcels with the same zoning designation? Explain.

The nearby lots are also zoned RU 2

Is the proposed zoning district more intense than the one in place currently? Please select one of the following statements:

- The proposed District is buffered by an intermediate District of sufficient size to provide a reasonable transition of intensity from the existing area.
- The proposed District is a reasonable extension of a similar density District within the area;
- The proposed District provides a transition between an existing less intense District and a more intensive District or an arterial street; or
- The proposed District is designed to provide adequate protection to the adjacent less intense development in the form of enhanced screening, landscaping, setbacks, large lot size, building orientation, or other design measures.
- Not applicable, this is a request to a LESS intense zoning district.

Are there any areas of unstable soils, steep slopes, severe washes, floodplains on the subject parcel? If so, please indicate their location on the concept plan. Indicate how these areas will be protected from future development.

None of these conditions exist on the parcel in question

Water Use:

Estimate the total gallons of water needed for the proposed use: per day 20 per year 7000

Please indicate your water source. Cistern

If your property is served by a private well, show the existing or proposed location on the site plan.
