

RESOLUTION 22-__

A RESOLUTION AMENDING THE DEVELOPMENT SERVICES DEPARTMENT FEE SCHEDULE FOR DEVELOPMENT SERVICES PROVIDED BY COCHISE COUNTY

WHEREAS, the County may adopt fee schedules for any specific products and services the County provides to the public, pursuant to A.R.S. § 11-251.08; and

WHEREAS, the Board of Supervisors for the County of Cochise desires to amend fees for services that are attributed to building permit applications for rural-residential owner/builder, multi-use plans, accessory living quarters, home occupation, zoning compliance letter, agricultural exemption request, and special event permits; and

WHEREAS, it is also appropriate for the Board of Supervisors for the County of Cochise to revise fees for public services and products provided by the County's Development Services Department to recuperate costs attributable to development services and products; and

WHEREAS, the Board of Supervisors for the County of Cochise desires to amend the Development Service Department Fee Schedule, pursuant to its authority under A.R.S. § 11-251.08; and

WHEREAS, notification of the proposed action was provided on the County's website, pursuant to the requirements of A.R.S. § 11-251.13; and

WHEREAS, the Board of Supervisors for the County of Cochise held a Work Session on March 22, 2022, where it determined that these proposed amendments to the Development Services Department Fee Schedule are necessary and appropriate and directed staff to proceed with the proposed amendments.

NOW, THEREFOR, BE IT RESOLVED, that the Board of Supervisors for the County of Cochise adopts the following amendment to the Development Services Department Fee Schedule (as set forth in **Exhibit A**, attached hereto), effective July 1, 2022; and

BE IT FURTHER RESOLVED, that any and all prior fee schedules adopted for the Development Services Department are hereby rescinded, effective July 1, 2022.

PASSED AND ADOPTED by the Board of Supervisors for the County of Cochise, Arizona this ____ day of _____, 2022.

Residential Building Code Fees

Permit and Plan Review

~~There is a four-step process to determine the Total Project Fee amount.~~

~~**First:** The total valuation of the proposed construction work needs to be established. For New Structures and Additions this is determined by the square foot size of the structure (measured from the exterior). In the case of Remodeling Work, it would be based on the documented material and labor costs of the project.~~

~~**Second:** A Building Permit Fee is then applied to the valuation of the construction work, obtained in Step One. The only exceptions would be when a permit is using previously approved plans.~~

~~**Third:** A Plan Review Fee (a percentage of the Building Permit Fee) is added when a project requires Plan Review. This will be the Total Building Permit Fee.~~

~~**Fourth:** Apply Residential and other applicable fees to Total Building Permit Fee to determine the Total Project Fee.~~

~~(Step 1) – Determination of Construction Values~~

~~New Residential One and Two-Family Homes and Additions – Valuation Rates:~~

Residential Structures Valuation Rate (includes conditioned Arizona Rooms)	\$91.56 per square foot
Garages, Sheds, Outbuildings, and Accessory Structures	\$39.28 per square foot
Basements, Decks, Patios, Porches, Carports	\$15.00 per square foot

~~Residential Remodel Work and Phased Construction - Valuation:~~

Residential Remodel, Phased Construction, Repairs, Alterations, Renovations, Restorations, Shell Only Structures & Foundation Only	Use Contract Value *
* Projects shall have values determined by proven actual project cost documents (copy of signed Contracts and/or Material & Labor estimates based on fair market retail value). These Material and Labor values should include all trade costs (e.g. Carpentry, Electrical, Plumbing and Mechanical).	
The Residential Construction Values listed for new complete structures & additions include the permit fees for the entire project, including miscellaneous trades (e.g. Electrical, Plumbing and Mechanical).	

~~(Step 2) – Determination of Building Permit Fee to Be Applied~~

~~After Valuation of the proposed construction work has been determined, a Building Permit Fee is then determined from the Fee Schedule below. Be sure to apply the Fees that are listed below the table when applicable.~~

For Construction Begun Without a Permit	Additional Permit Fee Minus Plan Review*
--	---

Continued: Section 7 – Residential Permits

Continued: Determination of Building Permit Fee to Be Applied

* Whenever any work for which a permit is required by the building code has been commenced without first obtaining ~~said~~ a permit, a Work without Permit fee is required for the amount equal to the Building Permit Fee, in addition to the normal required permit fee, with a minimum penalty of \$100.00 and a maximum of \$2500.00.

Residential Building Permit Fee Rate Schedule

Total Valuation of Work	Fee Amount
\$1 to \$500	\$24.00
\$501 to \$5,000	\$30.00 for the first \$500; plus \$1.00 for each additional \$100 or fraction thereof, up to and including \$5,000
\$5,001 to \$40,000	\$69.00 for the first \$2,000; plus \$11.00 for each additional \$1,000 or fraction thereof, up to and including \$40,000
\$40,001 to \$100,000	\$487.00 for the first \$40,000; plus \$9.00 for each additional \$1,000 or fraction thereof, up to and including \$100,000
\$100,001 to \$500,000	\$1,027 for the first \$100,000; plus \$7.00 for each additional \$1,000 or fraction thereof, up to and including \$500,000
\$500,001 to \$1,000,000	\$3,827.00 for the first \$500,000 plus \$5.00 for each additional \$1,000 or fraction thereof, up to and including \$1,000,000
\$1,000,001 to \$5,000,000	\$6,327.00 for the first \$1,000,000; plus \$3.00 for each additional \$1,000 or fraction thereof, up to and including \$5,000,000
\$5,000,001 and over	\$18,327 for the first \$5,000,000; plus \$1.00 for each additional \$1,000 or fraction thereof

~~(Step 3)– Plan Review Fee~~

~~Plan Review Fees are in addition to Permit Fees and are based on a percentage of the Building Permit Fee charged. The review fee charged reflects the time spent in the review of construction plans and submittal information. The Plan Review Fee entitles the applicant to three submissions and reviews of the documents submitted. If the applicant is unable to obtain approval of his application with these three attempts, an additional plan review fee rate of \$50.00 per hour (1-hour min) will be assessed as noted below.~~

Residential Plan Review Fee (Three submissions)	65% of the Building Permit Fee (Up to and including four-plex)
---	---

Continued: Section 7 – Residential Permits

Additional Plan Review Fees: Required by changes, additions or revisions to plans as requested by the applicant; or for those required reviews in addition to the three reviews allowed under the Plan Review Fee listed above.	\$50.00 per hour (1-hour minimum)
---	-----------------------------------

Continued: Section 7 – Residential Permits

Building Permit and Plan Review Notes:

- | |
|---|
| {1} No subsequent step in the permit process shall be undertaken without all fees being paid. |
| {2} Whenever any work for which a permit is required by the building code has been commenced without first obtaining said a permit, a special investigation shall be made before a permit may be issued for such work. A Work without Permit Fee shall be collected whether or not a permit is then or subsequently issued. The Work Without Permit Fee is an amount equal to the Building Permit Fee, in addition to the normal required permit fee, with a minimum penalty of \$100.00 and a maximum of \$2500.00. |
| {3} The square footage for a Residential 'Alternative Construction' type structure, with increased exterior wall thickness, shall be measured from an assumed 8" wall thickness. |
| {4} Complete Plans (all trades) need to be submitted for review. |

(Step 4) – Total Project Fee

- | |
|---|
| To determine the Total Project Fees, add any applicable miscellaneous fees such as Work without Permit Fee, as well as other departmental fees to the Total Building Permit Fee. |
| When the County's consulting engineer is utilized for plan reviews or meetings, the owner will pay the full cost charged to the County by the consulting engineer. |

Example

- | |
|--|
| 1. 2,000 square foot R-3 occupancy type VB construction Building @\$91.56 square foot = \$184,000.00 Valuation |
| 2. \$1027.00 + (\$7.00 x 84 = \$588) =\$1,615. (fee amount) |
| 3. Plan Review Fee (65% of fee amount) = \$1,615.00 + \$1,049.75 = \$2,664.75 Total Building Permit Fee |
| 4. Add on any additional or miscellaneous fees (e.g. residential septic \$235) + \$235 = \$2899.75 |
| 5. = \$2,899.75 Total Project Fee |

Section 8 – Non-Residential Permits

Miscellaneous Fees

Replacement of Job Permit / Sign-Off Card	\$75
Re-Inspection Fee	\$75
Building Permit Renewal Fee	\$50
Utility Compliance Fee	\$100
Inspections for which no Fee is specifically listed such as Courtesy or Investigation	\$104
Inspections outside normal business hours	\$170
Review of drainage reports, traffic analyses or other engineering reports	Same fee as listed under Subdivisions
Non-Residential Development Comment Resolution Meetings	\$150 each
However, if the County's consulting engineer commented on the Development Plan and participates in the meeting, the developer will pay the full costs charged to the County by the consulting engineer, typically an additional \$350 per meeting which includes travel expenses.	

Trade Permits

Cooler, Furnace, Air Conditioner, and Water Heater – Involving Utility Change	Per Construction Value
Service Entry (Electrical)	Per Construction Value
Miscellaneous Mechanical, Plumbing, and Electrical	Per Construction Value
Swimming Pool and/or Spa (Includes barrier)	Per Construction Value
Fireplace	Per Construction Value
Fire Sprinkler and Fire Alarms	Per Construction Value
Solar/PV Systems, Consulting Fees May Apply	At County Cost
Wind Generating Systems, Consulting Fees May Apply	Per Construction Value
Walls, Fences, and Retaining Walls	Per Construction Value

Sign Permits

Signs, Digital Signs, Billboards	Per Construction Value
----------------------------------	------------------------

Temporary Permits

Temporary Uses	\$75

Building Code Fees

Permit and Plan Review

~~There is a four-step process to determine the Total Project Fee amount.~~

~~**First:** The total valuation of the proposed construction work needs to be established. For New Structures and Additions this is determined by the square foot size and construction type of the structure (measured from the exterior) using the International Code Council's Building Valuation Data that follows. In the case of Remodeling Work it would be based on the documented material and labor costs of the project.~~

~~**Second:** A Building Permit Fee is then applied to the valuation of the construction work, obtained in Step One below from the Commercial Building Permit Fee Schedule listed.~~

~~**Third:** A Plan Review Fee (a percentage of the Building Permit Fee) is added when a project requires Plan Review.~~

~~**Fourth:** Apply Non-Residential and other applicable fees to the Total Building Permit Fee to determine the Total Project Fee.~~

~~(Step 1)~~ – Determination of Construction Values

New – Non-Residential and Other than One-and Two-Family Structures – Valuation Rates

All new Structures, other than those that are One-and Two-Family Residential Structures, shall have the square foot valuation applied that is listed on the most current published International Code Council's Building Valuation Data, released semi-annually, based on the type of construction.

Note: The Commercial Construction Values listed for new complete structures & additions include the permit fees for the entire project, including miscellaneous trades (e.g. Electrical, Plumbing and Mechanical).

Non-Residential Remodel Work and Phased Construction – Valuation:

Repairs, Alterations, Renovations, Restorations, Shell Only Structures and Tenant Fit-Ups	Use Contract Value *
---	----------------------

* Projects shall have values determined by proven actual project cost documents (copy of signed Contracts and/or Material and Labor estimates based on fair market retail value). These Material and Labor values should include all trade costs (e.g. Carpentry, Electrical, Plumbing, and Mechanical).

Continued: Section 8 – Non-Residential Permits

(Step 2)– Determination of Building Permit Fee to Be Applied

~~After the Valuation of the proposed construction work has been determined by one of the approved methods, a Building Permit Fee is then applied from the below Fee Schedule.~~

For Construction Begun Without a Permit.

Additional Permit Fee Minus Plan Review*

*Whenever any work for which a permit is required by the building code has been commenced without first obtaining said permit, a Work without Permit Fee is required for the amount equal to the Building Permit Fee, in addition to the normal required permit fee, with a minimum penalty of \$100.00 and a maximum of \$2500.00.

Building Permit Fee Rate Schedule

Total Valuation of Work	Fee Amount
\$1 to \$500	\$24.00
\$501 to \$2,000	\$24.00 for the first \$500; plus \$3.00 for each additional \$100 or fraction thereof, up to and including \$2,000
\$2,001 to \$40,000	\$69.00 for the first \$2,000; plus \$11.00 for each additional \$1,000 or fraction thereof, up to and including \$40,000
\$40,001 to \$100,000	\$487.00 for the first \$40,000; plus \$9.00 for each additional \$1,000 or fraction thereof, up to and including \$100,000
\$100,001 to \$500,000	\$1,027 for the first \$100,000; plus \$7.00 for each additional \$1,000 or fraction thereof, up to and including \$500,000
\$500,001 to \$1,000,000	\$3,827.00 for the first \$500,000 plus \$5.00 for each additional \$1,000 or fraction thereof, up to and including \$1,000,000
\$1,000,001 to \$5,000,000	\$6,327.00 for the first \$1,000,000; plus \$3.00 for each additional \$1,000 or fraction thereof, up to and including \$5,000,000
\$5,000,001 and over	\$18,327 for the first \$5,000,000; plus \$1.00 for each additional \$1,000 or fraction thereof

Continued: Section 8 – Non-Residential Permits

(Step 3) – Plan Review Fee

Plan Review Fees are in addition to Permit Fees and are based on a percentage of the Building Permit Fee charged. ~~The review fee charged reflects the time spent in the review of construction plans and submittal information. The Plan Review Fee entitles the applicant to three submissions and reviews of the documents submitted. If the applicant is unable to obtain approval of his application with these three attempts, an additional plan review fee rate of \$50.00 per hour (1-hour min) will be assessed as noted below.~~

Non-Residential Plan Review Fee (Includes three reviews)	65% of the Building Permit Fee
Additional Plan Review Fees: Required by changes, additions or revisions to plans as requested by the applicant; or for those required reviews in addition to the three reviews allowed under the Plan Review Fee listed above.	\$50.00 per hour (1-hour minimum)

Building Permit and Plan Review Notes

- ~~1. No subsequent step in the permit process shall be undertaken without all fees being paid.~~
- ~~2. Whenever any work for which a permit is required by the building code has been commenced without first obtaining said permit, a special investigation shall be made before a permit may be issued for such work. A Work without Permit Fee shall be collected whether or not a permit is then or subsequently issued. The Work without Permit Fee is an amount equal to the Building Permit Fee, in addition to the normal required permit fee, with a minimum penalty of \$100.00 and a maximum of \$2500.00.~~
- ~~3. The square footage for a Residential 'Alternative Construction' type structure, with increased exterior wall thickness, shall be measured from an assumed 8" wall thickness.~~
- ~~4. Complete Plans (all trades) need to be submitted for review.~~

(Step 4) – Total Project Fee

~~To determine the Total Project Fees, add any applicable miscellaneous fees such as Work without Permit Fee, as well as any other departmental fees to the Total Building Permit Fee.~~

~~When the County's consulting engineer is utilized for plan reviews or meetings, the owner will pay the full cost charged to the County by the consulting engineer.~~

Example

1. 2,000 square foot B occupancy type VB construction Office Building @\$126.48 square foot = \$252,960 Valuation
2. \$1,027.00 + (\$7.00 x 153= \$1,071.00) = \$2,098.00 fee amount
3. Plan Review Fee (65% of fee amount) = \$1,363.70 + \$2,098.00 = \$3,461.70 Total Building Permit Fee
4. Add on any additional or miscellaneous fees (e.g. non-residential septic \$600) = \$600 + \$3,461.70 = \$4,061.70
5. = \$4,061.70 Total Project Fee

~~No charge if Improvement Plans are self-certified by a professional Civil Engineer registered to practice in the State of Arizona. If plans are submitted for County review, the fee would be \$126 per sheet if qualified County staff is available to review them. If necessary, the County will submit plans to the County's designated consulting engineer for their review and the full cost of this review will be paid by the subdivider, typically \$200 per sheet. The subdivider may elect to pay a fee for an "expedited review" of the plans by the County's consulting engineer; the cost for this review would be double the normal fee charged by the consultant, typically \$400 per sheet, and the timeframe for the consultant's expedited review would be half the normal time, typically, less than one week.~~

Final Plat Fee

\$650 + \$10 per lot (50% to Highway & Floodplain) (Covers 1st & 2nd review-\$150 for each additional review). Covers one Subdivision Committee meeting. However, if the County's designated consulting engineer commented on the plat and participates in the meetings, the subdivider will pay the full cost charged to the County by the consulting engineer, typically \$350 per meeting which includes travel expenses. See below if additional such meetings are required.

Drainage Report Review

\$350 for the 1st and 2nd review plus \$175 for each additional review of subsequent revised reports if the reports are reviewed by County staff. At the department's discretion, the County will submit the report to the County's designated consulting engineer and the full cost of their review will be paid by the subdivider/developer.

Subdivision Committee Meetings

~~No charge for pre-application review of basic or conceptual plats by County staff. The initial Tentative Plat and the Final Plat fee covers the costs of one required Subdivision Committee Meeting each. Any additional necessary Subdivision Committee meeting(s) will require an additional \$150 per meeting for County staff participation. If the County's consulting engineer commented on the plat and participates in the meeting, the subdivider will pay the full costs charged to the County by the consulting engineer, typically an additional \$350 which includes travel expenses.~~

Traffic Impact Analyses (TIA) or Traffic Study Review

\$350 for the 1st and 2nd review, plus \$175 for review of each subsequent revision if the report is reviewed by County staff. At the department's discretion, the County will submit the report to the County's designated consulting engineer and the full cost of their review will be paid by the subdivider/developer.
