III. NATURE OF REQUEST

The applicant is requesting to amend the zoning of their parcel from SR-12 to RU-2. Although the area is in subdivision the area remains very rural with minimum single-family homes built. Many parcels have been combined making larger properties. This particular property has had multiple lots combined making a 2.28-acre site.

The applicant is requesting the rezoning due to the size of the lot, rural nature of the area and the desire to install a manufactured home. The SR Zoning is restrictive, in that it only allows site-built homes. The change to RU will allow the installation of a manufactured home.

A downzoning will not have any negative impacts on the surrounding properties.

Mandatory Compliance

Section 2208.03 of the Zoning Regulations requires that the amendment of Zoning District boundaries take place in compliance with the Comprehensive or Area Plan Designation assigned to the area in question. In this case, the subject property lies within a Category "D" Rural Area. The Comprehensive Plan allows for downzoning's to RU-2.

Compliance with Rezoning Criteria

Section 2208.03 of the Zoning Regulations provides fifteen criteria used to evaluate rezoning requests.

1. Provides an Adequate Land Use/Concept Plan: Complies

The proposal is intended to facilitate standard, rural home site development, but the parcel would be eligible for the full range of allowed Principal, Accessory, and Special Uses per Article 6 of the Zoning Regulations. The Rezoning to RU-2 is to allow the applicant to be able to install a manufactured home.

2. Compliance with Applicable Site Development Standards: Complies

The proposed parcel exceeds 2 acres. The proposed home and accessory structures will be able to meet development standards.

3. Adjacent Districts Remain Capable of Development: Complies

Surrounding properties remain able to develop.

4. Limitation on Creation of Nonconforming Uses: Complies

If approved, the rezoning would not create any non-conforming land uses.

5. Compatibility with Existing Development: Complies

The parcel is located in a rural area with one nearby home. The downzone to larger lots will be compatible with current development patterns of the general area.

6. Rezoning to More Intense Districts: Not Applicable

As indicated, this request is for a downzoning, which will reduce the permitted density.

7. Adequate Services and Infrastructure: Complies

infrastructure. The applicant will be response for verifying legal and putting in physical access to the parcel. There is no County Maintenance of the area roads. This request will reduce the potential traffic on the area roads.

8. Traffic Circulation Criteria: Complies

As mentioned above the downzoning will reduce the permitted density to a more appropriate designation for that area. Rezoning from R-36 to RU-4 would decrease the permitted density,

9. Development Along Major Streets: Not Applicable

This parcel does not take access off a major roadway.

10. Infill: Not Applicable

This factor applies only to rezoning requests to General Business, Light Industry, or Heavy Industry.

11. Unique Topographic Features: Complies

No unique topographic features exist that will prevent the development of the property.

12. Water Conservation: Complies

As this proposed downzoning would reduce permitted maximum density, potential water usage could decrease.

13. Public Input: Complies

As a downzoning, the applicant was not required to complete a Citizen Review. Staff mailed notices to neighboring property owners within 300 feet of the subject property on May 10, 2022. Staff posted the property on May 10, 2022, and published a legal notice in the Herald/Review May 13, 2022. The Department received no responses.

14. Hazardous Materials: Not Applicable

No hazardous materials are proposed.

15. Compliance with Area Plan: Complies

The subject property is not located within an area plan; however, the Comprehensive Plan designates the area as Rural. RU-4 is consistent and compatible with the comprehensive plan and surrounding properties.

IV. SUMMARY AND CONCLUSION

The request is for a downzoning, from SR-12 (Single Household Residential, one dwelling per 12,000) to RU-2 (Rural; one dwelling per two acres) on a 2.28-acre site near Douglas. The area is characterized by open expanses and widely scattered residential development.

Factors in Favor of Approval

1. The request complies with eleven of the applicable rezoning factors used by Staff to analyze this request;
2. The request would be in keeping with the character of the existing development in the area.

Factors Against Approval

1. None identified.

V. RECOMMENDATION

Based on the factors in favor of approval, the Planning and Zoning Commission recommended **approval** of the rezoning request, from SR-12 (Single Household Residential, one dwelling per 12,000) to RU-2 (Rural; one dwelling per four acres) on a 2.28-acre parcel, subject to the following conditions:

1. The applicant shall provide the County with a signed Acceptance of Conditions and a Waiver of Claims form arising from ARS Section 12-1134 signed by the property owner of the subject property within thirty (30) days of Board of Supervisors approval of the rezoning; and
2. The applicant's responsibility is to obtain any additional permits or meet any additional conditions that may apply to the proposed use pursuant to other federal, state, or local laws or regulations.
