The Purpose of a Special Use

Special Uses include uses or activities with a greater potential for impacts on neighboring properties than the permitted uses in a Zoning District. Examples of Special Uses are manufacturing, RV Parks, guest ranches, hospitals and schools. These more intense uses must be carefully reviewed to decide if they could make good neighbors to the existing uses. For this reason, a Special Use Permit requires a public hearing and approval by the Planning and Zoning Commission before it is allowed.

What is the Process?

1. Pre-application meeting with County planning staff.
2. Citizen Review Process – the applicant must send notice to all property owners within a radius of no less than 300 feet of the subject parcel(s), as shown on the most recent available records of the last property tax assessment. The County Zoning Inspector may expand the mailed notification area to greater than a 300-foot radius at time of application acceptance if there are compatibility concerns associated with the request.
3. Application Submittal
4. Technical review by relevant internal staff and external agencies
5. Public Hearing – Planning and Zoning Commission (Approval/Denial)

Appeals

The Commission action can be appealed to the Board of Supervisors by anyone who disagrees with the outcome. Appeals must be filed within fifteen (15) calendar days of the Commission action. The applications are available online "Appeal: Board of Supervisors."

Required Submittals

1. This application
2. Citizen Review Report
3. Site plan -drawn to scale showing the existing and proposed District boundaries and an accurate legal description of the area being petitioned for amendment. See "concept plan instructions for special uses" (included in this application). Please see our website for an example plan: <https://www.cochise.az.gov/development-services/special-uses>
4. Letter of Authorization (for authorized agents, if applicable)
5. Hazardous or polluting materials attachment (only if hazardous materials are proposed, if applicable)
6. Deed restrictions (if applicable)
7. Outdoor lighting, manufacturers specifications (if applicable)
8. Processing Fee

Concept Plan Instructions for Special Uses

Sometimes, an applicant will seek approval for a particular special use or uses on a piece of property well ahead of actual construction or operation of that use. Often the exact dimensions of structures or configuration of uses on the property are not known yet until the uses have been approved and the applicant has invested resources into site planning. The Zoning Regulations allow for the submittal of a "Concept Plan" in lieu of a site plan in the case of phased special uses on one property or a special use where construction is not anticipated within one year. However, if the use(s) are approved by the Planning and Zoning Commission, then a detailed site plan meeting the requirements of the Zoning Regulations will be required for each use or phase and shall be in substantial conformance with the approved special use. If the site plan is not within substantial conformance with the approved use and concept plan, then the special use will need to be reviewed, in a public hearing, by the Commission once again to modify the original proposal. **Note: any**

anticipated waivers of site development standards such as setbacks, screening, landscaping or parking spaces must be requested, justified, and approved by the Commission prior to the issuance of a building permit.

In order to adequately review the proposed special use(s) on a piece of property, a Concept Plan must include at a minimum the following information:

- Parcel boundaries and adjacent roads;
- The general location, size and height of all structures and uses (existing and proposed), including minimum setbacks from parcel boundaries, washes and roads;
- The general location and minimum number of parking spaces to be provided, including proposed surface and width of driveways;
- Proposed screening and landscaping;
- Any significant topographical features (washes, hills, rock outcroppings, wetlands) and cultural features of the property and adjacent parcels;
- If applicable, project phasing (approximate schedule of uses and construction) and any other information deemed necessary to effectively review the Special Use.

Please state the reason for this request and why it should be supported.

B&B's help experience the local culture wherever located, offer the homeliest atmosphere, and bring revenue and limited customers to help support the local businesses. Concept Plan

Parcel# 40315005A

3846 W Gleeson Rd., Elfrida, AZ 85610

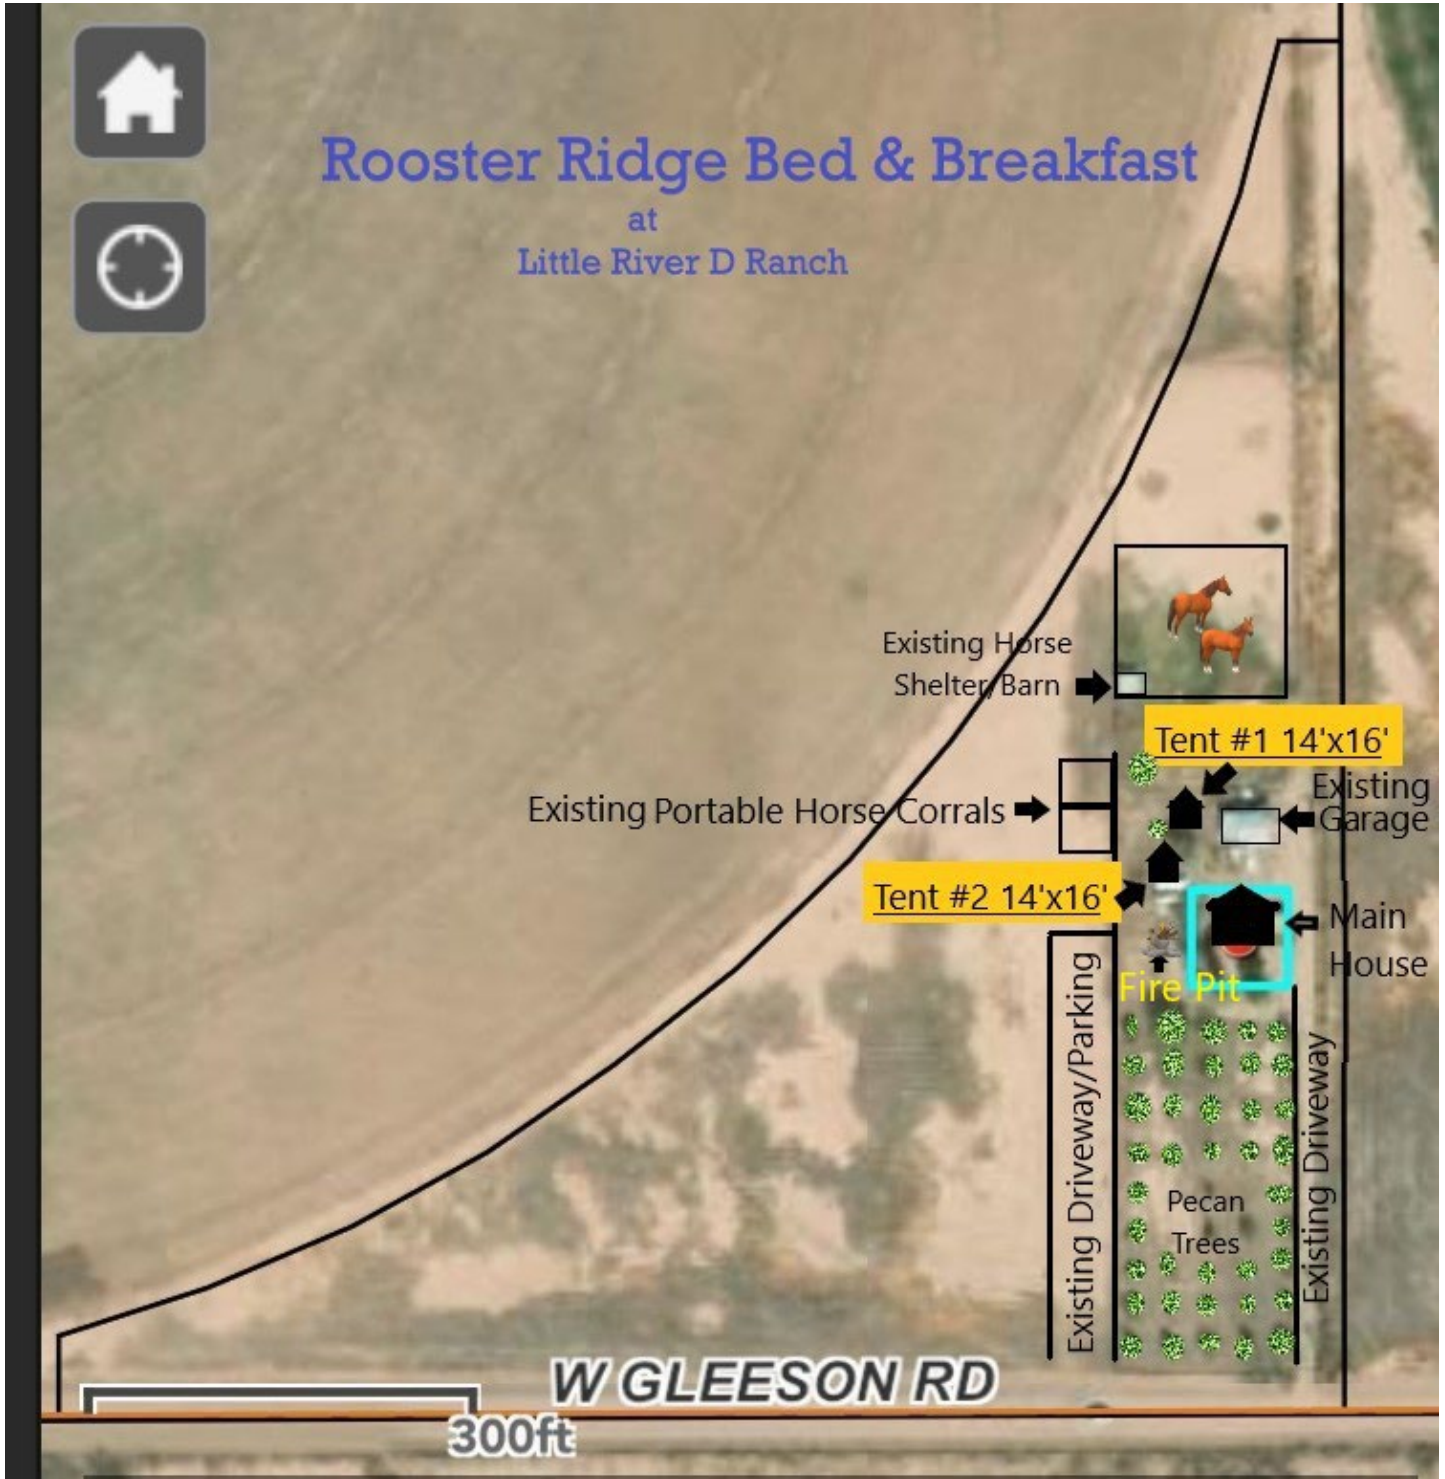

8.9 Acres – Gleeson Rd + Mormon Rd

Pictured below is an areal view of the property indicating the main crossroads associated with the property; Gleeson Road and Mormon Road.

Concept Plan

Pictured below is a synopsis of the area/site plan. The picture depicts 2 proposed tents. Each tent is approximately 16'(l)x14'(w)x9'(h). The tent will be the sleeping quarters and sitting area for guests of the BNB. The existing buildings consist of the main house, 54'x25', the garage, 24'x20', and the horse shelter/barn, 16'x16'. The main house will be used for the breakfast prepared, a sitting area, and one restroom. The picture shows the area(s) for parking; which is existing parking/driveway areas, as well as the landscaping for the property.

Concept Plan

Pictured below is a synopsis of the proposed area for phased plans. These plans may or may not be completed within one year. This project may take up to 2-3 years due to affordability of products/tents off monies produced by the Bed & Breakfast. Once tents are purchased it does not take long to assemble. The picture depicts 5 proposed tents total (to include the 2 initial startup tents). Each tent might be approximately 10'(l)x8'(w) up to 16'(l)x14'(w)x9'(h) and will sleep 2 each. The tent will be the sleeping quarters and sitting areas for guests of the BNB. The church is a 14'x16' portable building that is wood frame with siding on skids.

Concept Plan

Pictured below is displaying the location of the private well, please note that the well is pictured above the garage.
