Factors in Favor of Approval

1. The request complies with all the applicable rezoning factors used to analyze rezoning requests;
2. The current zoning (R-9) would allow over 40 single family homes, which would be a strain on utilities and infrastructure;
3. Approximately 3 acres of the property is within the floodplain, the less intense RU-4 designation limits future development potential;
4. The request is an expansion of RU-4 zoning to the south, immediately adjacent; and
5. The proposed RU-4 designation is a permitted designation in D-Rural land use, while the current R-9 designation is not.

Factors Against Approval

1. Rural zoning allows a greater range of uses not permitted within residential zoning; and
2. It breaks the existing zoning pattern of R-9 north of Davis Rd, west of Wynn Drive.
