APPLICATION FOR A SPECIAL USE

Applicant's Name: Albert Armenta

Name of All Property Owner(s): Albert And Troy Armenta

Applicant Mailing Address:

8876E.Hawthorn Lane Hereford AZ 85615
Street # Town State Zip code

Subject Property Address (if different than mailing address):

8191E. Barataira Blvd Sierra Vista AZ 85650
Street # Town State Zip code

Email Address: al1armenta@live.com

Phone Number: 520-227-1659

Tax Parcel Number: 107-62-009A

Current Zoning Designation: RU-4

Comprehensive Plan Land Use Category/Growth Area: D

Comprehensive Plan Land Use Designation: Rural Residential

Area Plan Designation (if applicable): _____

Size of Property (in acreage or square feet): 20 Acres 10 to be developed

How many acres will be cleared and developed? Less Than 1 Acre

Describe your relationship to this application. (Select one)

I am the property owner

I am an authorized agent for the property owner

Bisbee Office
1415 Melody Lane, Building F
Bisbee, Arizona 85603
520-432-9300
520-432-9278 fax
planningandzoning@cochise.az.gov

If the applicant is not the property owner, please attach a notarized letter of authorization to this application.

The Purpose of a Special Use

Special Uses include uses or activities with a greater potential for impacts on neighboring properties than the permitted uses in a Zoning District. Examples of Special Uses are manufacturing, RV Parks, guest ranches, hospitals and schools. These more intense uses must be carefully reviewed to decide if they could make good neighbors to the existing uses. For this reason, a Special Use Permit requires a public hearing and approval by the Planning and Zoning Commission before it is allowed.

What is the Process?

1. Pre-application meeting with County planning staff.
2. Citizen Review Process – the applicant must send notice to all property owners within a radius of no less than 300 feet of the subject parcel(s), as shown on the most recent available records of the last property tax assessment. The County Zoning Inspector may expand the mailed notification area to greater than a 300-foot radius at time of application acceptance if there are compatibility concerns associated with the request.
3. Application Submittal
4. Technical review by relevant internal staff and external agencies
5. Public Hearing – Planning and Zoning Commission (Approval/Denial)

Appeals

The Commission action can be appealed to the Board of Supervisors by anyone who disagrees with the outcome. Appeals must be filed within fifteen (15) calendar days of the Commission action. The applications are available online "Appeal: Board of Supervisors."

Required Submittals

1. This application
2. Citizen Review Report
3. Site plan -drawn to scale showing the existing and proposed District boundaries and an accurate legal description of the area being petitioned for amendment. See "concept plan instructions for special uses" (included in this application). Please see our website for an example plan: <https://www.cochise.az.gov/development-services/special-uses>
4. Letter of Authorization (for authorized agents, if applicable)
5. Hazardous or polluting materials attachment (only if hazardous materials are proposed, if applicable)
6. Deed restrictions (if applicable)
7. Outdoor lighting, manufacturers specifications (if applicable)
8. Processing Fee

Concept Plan Instructions for Special Uses

Sometimes, an applicant will seek approval for a particular special use or uses on a piece of property well ahead of actual construction or operation of that use. Often the exact dimensions of structures or configuration of uses on the property are not known yet until the uses have been approved and the applicant has invested resources into site planning. The Zoning Regulations allow for the submittal of a "Concept Plan" in lieu of a site plan in the case of phased special uses on one property or a special use where construction is not anticipated within one year. However, if the use(s) are approved by the Planning and Zoning Commission, then a detailed site plan meeting the requirements of the Zoning Regulations will be required for each use or phase and shall be in substantial conformance with the approved special use. If the site plan is not within substantial conformance with the approved use and concept plan, then the special use will need to be reviewed, in a public hearing, by the Commission once again to modify the original proposal. **Note: any**

anticipated waivers of site development standards such as setbacks, screening, landscaping or parking spaces must be requested, justified, and approved by the Commission prior to the issuance of a building permit.

In order to adequately review the proposed special use(s) on a piece of property, a Concept Plan must include at a minimum the following information:

- Parcel boundaries and adjacent roads;
- The general location, size and height of all structures and uses (existing and proposed), including minimum setbacks from parcel boundaries, washes and roads;
- The general location and minimum number of parking spaces to be provided, including proposed surface and width of driveways;
- Proposed screening and landscaping;
- Any significant topographical features (washes, hills, rock outcroppings, wetlands) and cultural features of the property and adjacent parcels;
- If applicable, project phasing (approximate schedule of uses and construction) and any other information deemed necessary to effectively review the Special Use.

Please state the reason for this request and why it should be supported.

To Support the rural Community with products for pets and livestock

Identify the utility company/service provider for each of the following services and state if additional provisions or future connections are required in the space below.

Service Provider	Service Provider	Additional Provisions Required
Water/Well	Privet Well	
Sewer/Septic	Port a Pot Maintained by weekly by same company	
Electricity	SSVEC	
Natural Gas		
Telephone	Verizon	
Fire Protection	Fry Fire	
Waste Disposal	Waste Disposal	

Is this request consistent with all deed restrictions or private covenants in effect for this property? If applicable, please include a copy of these restrictions/covenants with this application.

- Yes
 No
 Not applicable (no deed restrictions or covenants)

Describe all **existing** structures/uses present on the subject parcel. Note: the size and location of existing structures must be shown on the accompanying site plan.

Well House , Very Small Rock Building

Describe all **proposed** structures/uses on the parcel that to be placed on the parcel. Note: the size and location of proposed structures must be shown on the accompanying site plan.

See Site Plan And See Attached

Is the proposed special use consistent with stated purpose of the current zoning district? Explain.

I will be providing services for rural living

Describe all intermediate and final products/services that will be produced/offered/sold, if applicable.

I will be providing feed for all live stock and pets as well as supplies for livestock And pets

What materials will be used to construct the new building(s)? (Note, for an existing building(s), please also list the construction type(s), i.e., factory-built building, wood, block, metal).

Phase 1 See Attached

Phase 2 Metal Building

Will the project be constructed/completed within one year or phased?

One year

Phased

If this is a phased project, describe the phases here and physically depict them on the site plan.

Phase 1 Hay and feed Storage building , Phase 2 Feed store See site plan

What are the days and hours of operation (if applicable)?

Days of the week: 7 Days A Week

7 AM to 6 PM

Number of employees (if applicable):

Initially 3 Future: 8

Total average daily traffic generated (non-residential uses):

How many vehicles will be entering and leaving the site (per day)? 10

Total trucks (e.g., by type, number of wheels, or weight)? 3 Per week

Estimate which direction(s) and on which road(s) the traffic will travel from the site.

Traffic from the west heading east from Moson to Barataira to property

If more than one direction, estimate the percentage that travel in each direction.

90+% as discribed above

At what time of day, day of week and season (if applicable) is traffic the heaviest?

Not Applicable

Will your property be served by a private well? If private well, show the location on the site plan. Also, please answer the following:

Estimated total gallons of water used: per day 1 Gallon per year 365 Galk

Will your property be served by a septic system? Yes No To be installed, not present

If yes, show the septic tank, leach field and 100% expansion area on the site plan, and indicate whether the system is existing or proposed.

Does your parcel have permanent legal access*? If no, what steps are you taking to obtain such access? (*Our Zoning Regulations state that no building permit for a nonresidential use shall be issued unless a site has permanent and direct access to a publicly maintained street or street where a private maintenance agreement is in place. Said access shall be not less than twenty (20) feet wide throughout its entire length and shall adjoin the site for a minimum distance of twenty (20) feet. If access is from a private road or easement provide documentation of your right to use this road or easement and a private maintenance agreement.)

Yes

Which streets or easements will be used for traffic entering or exiting the property? (Please label on the accompanying plan)

Barataria

What impact will this have on the traffic volume of roads serving this subject property?

See Above

How many driveway cuts are proposed along streets or easements to allow site access? State whether this is an increase/decrease and whether any existing cuts will need relocation.

One Drive way cut exsiting

Does the subject parcel have site access onto a major road?

Yes

No

Are you requesting any modifications or waivers from site development standards? Please explain.

no

Is the subject property within Sierra Vista Sub-Watershed Overlay Zone? If so, please indicate this, and that you understand that it will be subject to additional plan reviews and inspections whenever a building permit is required.

Yes, and I understand the permitting requirements No, it's outside the boundaries

Please describe your citizen review process (if applicable). Specifically, state whether you received any responses to your mailed notice or public meeting. Explain how your special use application has incorporated the feedback you received.

All required letters have been sent out and i have not recived any responcees.

Describe any outdoor activity associated with your special use proposal, if applicable.

Selling Feed and pet supplies

Will outdoor storage of equipment, materials or products be needed? If yes, show the location on the site plan. Describe any measures to be taken to screen this storage from neighboring properties.

None

Will any noise or vibrations be produced that can be heard or felt on neighboring properties on a regular basis? if yes; describe the level and duration of this noise. What measures are you proposing to prevent this noise from being heard on neighboring properties?

NO

Will odors be created? If yes, what measures will be taken to prevent these odors from escaping onto neighboring properties?

No

Will any on-site activities attract pests, such as flies or mice? If yes, what measures will be taken to prevent a nuisance on neighboring properties?

Mice will be present and pest control will provided as needed

Will additional dust be created on a regular basis? If yes, what measures will be taken to prevent this dust from escaping onto neighboring properties or roadways?

none

Is outdoor lighting proposed? If yes, show the location(s) on the site plan. Indicate how neighboring properties and roadways will be shielded from light spillover. Please submit manufacturer's specifications for all light fixtures.

Yes No

Will you be performing any off-site construction (e.g., access aprons, driveways, and culverts)? If yes, show details on the site plan. Note: The County may require off-site improvements reasonably related to the impacts of the use such as road or drainage improvements.

Yes No

Show on-site drainage flow on the site plan. Will drainage patterns on site be changed? If so, please indicate on the site plan and describe below.

See Site Plan

If more than one acre is to be cleared, describe the proposed dust and erosion control measures to be used and show on site plan, if appropriate.

N/A

If the developed portion of the site is one acre or larger, specific measures to conserve water on-site must be provided. Specifically, design features that will be incorporated into the development to reduce water use, provide for detention and conserve and enhance natural recharge areas must be described. What specific water conservation measures are proposed (for applicable site 1+ acres)? Describe here and/or show on the site plan submitted with this application.

Non Proposed

Do you anticipate the use of any hazardous or dangerous materials? If yes, please complete a "Hazardous or Polluting Materials Attachment" and attach it to this application.

Yes No

I hereby certify that I am the owner or duly authorized owner's agent and all information in this questionnaire, in the Joint Permit Application and on the site plan is accurate. I understand that if any information is false, it may be grounds for revocation of the Commercial Use/ Building/ Special Use Permit. In addition, I hereby request all inspections necessary to process this application, and if the permit is issued, I request all inspections necessary to monitor progress, and document completion, at all stages of the work related to this permit. Failure to obtain permits may result in fines or other penalties.

PHASE 1

- Exact floor footprint: 50'4" (W) x 79'7" (L)
- Width: 50'4" (outer), 47'5" (inner)
- Truss spacing: 8'
- Peak ceiling height: 23' (outer), 21' (inner)
- Side-wall height: 9'
- Truss tubes: 2-1/2" - 14 GA (approx.)
- Purlin tubes: 2-1/2" - 14 GA (approx.)
- Man Doors: 3' x 6'6" (W x H)
- Winch roll-up door on both ends with drive through clearance: 15' (W) x 15' (H)
- Cover material: 32 oz PVC fabric (white color)
- Air vents on both ends
- Footplates with pre-drilled holes (anchor bolts not included)
- Foundation required: Concrete slabs or equivalent

Shipping Information

The order will ship FREE from our main warehouse in Richmond, British Columbia. Under normal circumstances it will take us 2 to 3 business days to process the order and ship it. It will take up to 10 to 15 business days for the order to get to you based on where you are located and how accessible the location is.

- This product is packed in four metal crate shipping boxes
- Box A shipping dimension: 115" x 45" x 49"
- Box B shipping dimension: 115" x 45" x 49"
- Box C shipping dimension: 115" x 45" x 49"
- Box D shipping dimension: 115" x 45" x 49"
- Shipping weight: 10,700 lb

***This product is too large for tailgate delivery. A forklift or equivalent is required to accept delivery.

- Shipping from Richmond BC or Mississauga ON

Product Description

The TMG-DT5080-PRO PVC Fabric Peak Ceiling Storage Shelter provides an easy to assemble, durable outdoor storage solution or workshop for your farm, construction site, equipment dealership and more. Approximately 4000 square feet of covered space to stockpile materials, work on projects, park vehicles and accommodate all other needs big or small. Able to install on any concrete pad or equivalent for versatile useability whether you're working in remote, rural or industrial locations.

Made of strong, heavy-duty commercial grade polyvinyl chloride (PVC) fabric that is triple layered to prevent tearing and provide a long-lasting shelter covering for many years to come. This fabric is a natural flame retardant, commonly used in large commercial structures such as sports stadiums and event halls. The first 9 ft of each side is a straight wall which amplifies storage space along the edges. Double trusses with a reduced 8' truss spacing reinforce the entire DT Pro Series and give them all exceptional durability and stability.

Roughly 15' wide winch roll-up doors on both endwalls provide a huge opening to allow workflow coming in and out. The steel man doors provide a convenient, houselike entry that is more secure than standard fabric cut out openings. Our PVC fabric comes in a vibrant white colour that reflects UV rays but allows light to permeate through. This natural illuminating quality will help you save on utility costs and provide all day use even when it's cloudy.

We also carry other models of this storage shelter: [TMG-DT5055-PRO](#), [TMG-DT50100-PRO](#), [TMG-50150-PRO](#)

Additional Info

TMG Industrial is a proud supplier of storage sheds, shelters, garages, and other portable structures around North America. These units are all sold as DIY installations. Due to varying regulations required by individual municipalities, TMG Industrial is not able to provide engineered drawings, or any snow and wind load certifications. It is up to the purchaser to determine any local requirements before purchasing.

- Approx. 4000 sq-ft of covered storage or work space
- Double truss frame with solid bolted connections for superior strength
- Commercial grade, triple-layer ripstop polyvinyl chloride (PVC) tarpaulin cover
- Heavy-duty galvanized steel tubing for rigidity and corrosion resistance
- Approx. 15' wide winch roll up doors on both endwalls

Reviews

Features

- Double truss frame and solid bolted, U-shaped channel connection on all trusses to increase support strength and rigidity
- Commercial grade, 3-layer galvanized steel frame structure is long lasting, dependable and resistant to rust, wear and corrosion
- Easy to assemble and install while costing far less than a comparable commercial size building; 4000 sq-ft of covered storage space
- Commercial grade, triple-layer ripstop polyvinyl chloride (PVC) tarpaulin cover:
 - Stands strong against tearing, leaking, and chemical corrosion
 - Natural flame retardant, resistant to chemicals and oil
 - UV protected and waterproof
 - Fabric color: White
- DT Pro series is reinforced with a specially designed reduced truss spacing of 8' for maximum strength and stability
- Approx. 15' wide winch roll-up doors on both endwalls that allow for easy parking and dynamic workflow to run throughout
- Peaked roof design prevents snow build up and allows moisture to be guided off the sides, protecting you and your equipment from the elements
- Steel man doors offer convenient side entry, similar to the entrance of a house, that you can use instead of constantly opening the main doors
- PVC fabric is used in the construction of large commercial structures like sports stadiums and is known for its thickness and reliability
