

Agenda Item: 7715 - HLT – 6/4/2024

Recommendation:

Approve CTR070113, formerly known as CTR063847, CDC Overdose Data to Action (OD2A), between the Arizona Department of Health Services and Cochise Health & Social Services in the amount of \$80,000 for the period of 9/1/2023 – 9/31/2024.

Background (Brief):

The original Overdose Prevention IGA, CTR063847, was combined with the State Opioid Response program. This fiscal year ADHS split the 2 programs into 2 separate IGAs. The SOR/Overdose Prevention IGA was recently approved on May 21, 2024.

The approval and funding from this CDC grant will assist CCHSS to address the opioid issues through prevention-based strategies; increase access to overdose prevention tools such as Naloxone, and coordinate post-release transportation services, and increase awareness of local service providers.

Fiscal Impact & Funding Sources:

This is a grant-funded cost reimbursement program through the Arizona Department of Health Services in the amount of \$80,000. Funds are 100% federally funded. This IGA currently funds (1) full-time employees.

Next Steps/Action Items Follow-Up:

Your approvals are respectfully requested. Program will continue to distribute Naloxone, provide overdose recognition and response trainings.

Send signed IGA to CCHSS, Suzanne Hagle, Prevention Services Division Director.

Impact of Not Approving:

Not approving this IGA would eliminate the ability to provide prevention-based strategies around opioid use and connect the residents of Cochise County to treatment resources to aid in a person's recovery.
