Hello,

I have recently been informed that the Rex Allen Museum is in need of a new roof.

As a member of the Rex Allen family, and as a museum curator myself, I am quite concerned about the complications & expense this bad news brings. The building and the collection it contains are valuable, irreplaceable treasures to both the family, the city of Willcox, Cochise County & the fans of Rex Allen & history.

Any help you can offer us to aid in the restoration of this historical building would be greatly appreciated. An added concern is the fact that monsoon season is fastly approaching.

Thank you for your consideration in this matter,

Sincerely,

Julie Ann Ream
