### Letter of Support

At the August 28, 2024 regular meeting of the Cochise County Fire Association, it was unanimously voted to support the Cochise County grant application to establish two firefighting foam caches. An award would improve the ability of our region's departments to quickly and completely extinguish larger hazardous materials fires on Interstate 10 and our railroads.

Sincerely,

A handwritten signature in cursive script that reads "David M. Newton".

David Newton  
Secretary, Cochise County Fire Association.
