The Purpose of Re-Zoning

The purpose of zoning is to guide the development of land in accordance with the County's Comprehensive Plan, and to promote the public health, safety and general welfare of the County's residents. Zoning districts specify permitted land uses, minimum lot sizes, and certain site development standards such as setbacks and screening. Because Cochise County encompasses a large and diverse area, there are 34 individual zoning districts, ranging from rural and residential districts to business and industrial districts. When property is rezoned, all uses permitted within the new district can be permitted on the rezoned parcel.

What is the Process?

1. Pre-application meeting with County planning staff.
2. Citizen Review Process – the applicant must send notice to all property owners within a radius of no less than 300 feet of the subject parcel(s), as shown on the most recent available records of the last property tax assessment. The County Zoning Inspector may expand the mailed notification area to greater than a 300-foot radius at time of application acceptance if there are compatibility concerns associated with the request. Note: this step is not required for rezonings to less intensive districts.
3. Application Submittal
4. Technical review by relevant internal staff and external agencies
5. Public Hearing – Planning and Zoning Commission (Recommendation to the Board of Supervisors)
6. Public Hearing – Board of Supervisors (Approval or Denial)

We are planning on building a 2700 sq ft home.

Which streets or easements will be used for traffic entering or exiting the property? (Please label on the accompanying plan)

The street we will be using is Valley Vista Dr.

What impact will this have on the traffic volume of roads serving this subject property?

This will have very little impact on the traffic volume as we would be using this property for our own personal use and home.

How many driveway cuts are proposed along streets or easements to allow site access? State whether this is an increase/decrease and whether any existing cuts will need relocation.

There will be one driveway cut to allow street access. The driveway access will be a relocation from the current gated access. We are just moving the access further east and will remove the current access.

Will this rezoning encourage/result in the use of any residential street for through traffic to and from the proposed District? Note: this only applies to rezonings to GB, LI, or HI. Rezonings to any other district should select "not applicable."
