Rezoning Application

The purpose of zoning is to guide the development of land in accordance with the County’s Comprehensive Plan, and to promote the public health, safety and general welfare of the County’s residents. Zoning districts specify permitted land uses, minimum lot sizes, and certain site development standards such as setbacks and screening. Because Cochise County encompasses a large and diverse area, there are 34 individual zoning districts, ranging from rural and residential districts to business and industrial districts. When property is rezoned, all uses permitted within the new district can be permitted on the rezoned parcel.
