Re: SFY 2025 Emergency Response Fund (ERF) Award

Thank you for participating in the ERF program. We are happy to announce the award for State Fiscal Year 2025 of the Emergency Response Fund.

All awarded items are based upon the relative importance and maximum benefit/impact that will enable the recipient to protect responders and/or the public from Hazardous Materials incidents/accidents. Those items that were not awarded, either did not meet the established criteria or may have exceeded the overall Emergency Response Funds available for SFY 2025.

Once all the awarded equipment has been received by ADEQ, we will coordinate pickup and in some cases delivery with your County Emergency Manager, LEPC Chairperson or at your next LEPC meeting. The point of contact that is listed on the request form will be notified prior to delivery.

Sincerely,

DocuSigned by:
