Good morning, Christine,

I have an application to abandon a portion of Jacobo Place in Naco. The application is from Renee Reed and was received with the application fee of \$75 on November 13, 2024. Please review the abandonment and send me your concerns/ comments.

- In 2008 the southern portion of Jacobo Pl was abandoned and combined, it is a portion of Camp Naco.
- Jacobo Place does not lie on a section line or mid-section line and does not provide sole legal access to any current parcel. The total abandonment area is 1.24 acres.
- Renee Reed owns the adjacent parcels and plans to combine all of the parcels into one if the abandonment is granted.
- A site review of the proposed abandonment confirmed that the road is not open for vehicle travel and is currently native desert with some vegetation. Steve called Arizona 811 per we wanted to be sure what utilities could be in the proposed abandonment area. There are no current conflicts. I will conduct another field review to take more pictures and check utilities markings along Jacobo Pl tomorrow.

Thank you,

Lisa Enriquez
