## 1. BACKGROUND

- 1.1. The vision of the Arizona Department of Health Services (ADHS) is "Health and Wellness for all Arizonans." The ADHS conducts a five (5) year statewide needs assessment, the Arizona State Health Assessment (SHA), to 6-examine key health indicators and provide a comprehensive overview of the health of Arizonans. Annual updates to the SHA are also published. ADHS published the [Arizona State Health Assessment: 2022 Annual Update](#), which utilizes an evidence-based public health approach to improve the health and wellness of Arizona residents. Findings from the SHA inform the priorities outlined in the [2021-2025 Arizona Health Improvement Plan \(AzHIP\)](#) and guide programming within ADHS, including that under the Title V Maternal and Child Health Services Block Grant (hereafter Title V MCH Block Grant) and the Preventive Health and Health Services Block Grant. The AzHIP creates a roadmap to improve the health of Arizonans over the next five (5) years through the development of partnerships and resources to work collectively on shared health improvement goals and strategies. The Title V MCH Block Grant places a high emphasis on engaging with families, young adults, and communities in MCH programs funded by Title V Funds. This includes building capacity between counties, family/young adult advisors, and local communities to partner in decision-making regarding Title V Programs to help achieve the identified MCH priorities.
- 1.2. The mission of the Bureau of Women's and Children's Health (BWCH) is to "strengthen the family and community by promoting and improving the health status of women, infants, and children." The BWCH administers the federally funded Title V MCH Block Grant and Preventive Health and Health Services Block Grant, in addition to other federally funded, private, and state-supported programs.
- 1.3. This IGA was initiated in July 2020 and originally only included strategies and activities funded through the Title V MCH Block Grant. In July 2022, strategies and activities funded through the Preventive Health and Health Services Block Grant were added to the IGA.

### MCH Healthy Arizona Families Program:

- 1.4. The MCH Health Arizona Families Program is funded through the Title V MCH Block Grant.
- 1.5. BWCH is responsible for the implementation of the Health Resources and Services Administration (HRSA) funded Title V MCH Block Grant. Established in 1935, in Title V of the Social Security Act, the goal of the Title V MCH Block grant is to improve the health and well-being of America's mothers, children, and families including children with special health care needs by supporting and promoting the development and coordination of systems of care for the MCH population, which are family-centered, community-based and culturally appropriate. The Title V MCH Block Grant has five (5) population domains which include: Women/Maternal Health, Perinatal/Infant Health, Child Health, Children with Special Health Care Needs, and Adolescent Health. The sixth (6<sup>th</sup>) domain addresses Cross-Cutting and Systems Building.
- 1.6. The Title V MCH Block Grant also requires that a five (5) year statewide needs assessment be conducted and submitted as one (1) of the grant deliverables. The purpose of the Title V MCH statewide needs assessment is to identify the priority health needs and issues of Arizona's maternal and child health populations through a collaborative and systematic data collection and analytic process with stakeholder input. This needs assessment process is guided by eight (8) overarching principles and values that include:
  - 1.6.1. Listen to those who are not traditionally involved in statewide assessments.
  - 1.6.2. Centering the margins.
  - 1.6.3. Partner with community members and individuals with lived experience.
  - 1.6.4. Honor and respect the work others have done to assess the needs of Arizonans.
  - 1.6.5. Assess the root causes of health inequities.
  - 1.6.6. Use a life course development approach to understand health issues.

<b>CONTRACT NUMBER</b>	<b>INTERGOVERNMENTAL AGREEMENT SCOPE OF WORK</b>
<b>CTR076952</b>	

1.6.7. Take account of the impact on social determinants of health.

- 1.7. The Title V MCH Block Grant utilizes a [three-tiered national performance measure framework](#), based on an evaluation logic model framework, which includes National Outcome Measures (NOMs), National Performance Measures (NPMs), and state-initiated Evidence-based or -informed Strategy Measures (ESMs). The framework provides flexibility to a state in identifying the best combination of measures to address the MCH priority needs that were identified based on the findings of the [Five-Year Needs Assessment](#).
- 1.8. Key populations of interest for the MCH Healthy Arizona Families Program are infants; children and adolescents (inclusive of children and youth with special health care needs); and women of reproductive age.
- 1.9. The purpose of integrating family/young adult advisors is to create opportunities for the voices, wisdom, and experiences of individuals, families, and communities, who receive Title V services, to be included in the process and financially compensated for their time and effort dedicated to shaping grant-funded activities. The contributions of family and young adult advisors impact the design, delivery, and evaluation of programs and policies impacting systems of care in Arizona.

Public Health Improvement Program:

- 1.10. The Public Health Improvement (PHI) Program is funded through the Preventive Health and Health Services Block Grant (PHHS BG).
- 1.11. BWCH is responsible for the implementation of the Centers for Disease Control and Prevention (CDC) funded Preventive Health and Health Services Block Grant. The [Preventive Health and Health Services Block Grant Program](#) was established in 1981 through the consolidation of several previously categorical health and social service grants (e.g., emergency medical services, hypertension, home health services, health education and risk reduction, urban rodent control, and community water fluoridation). The Preventive Health and Health Services Block Grant Program provides federal funding for 61 recipients: all 50 states, the District of Columbia, 2 American Indian tribes, 5 US territories, and 3 freely associated states and is administered by CDC's Center for State, Tribal, Local, and Territorial Support.
- 1.12. The Preventive Health and Health Services Block Grant gives recipients the ability to address prioritized public health needs in their jurisdictions in collaboration with local and tribal public health agencies and organizations. Recipients set their own goals and program objectives and implement local strategies to address their prioritized public health needs related to [Healthy People 2030](#) objectives.
- 1.13. The [Preventive Health and Health Services Block Grant Measurement Framework](#) allows for standardized data collection and aggregation of the outputs, outcomes, and achievements of health departments using grant funds. The framework consists of four key measures:
  - 1.13.1. Improvement in the capacity to collect or enhance data that provide information of public health importance was improved or maintained.
  - 1.13.2. Improvement in the efficiency or effectiveness of operations, programs, or services.
  - 1.13.3. Emerging public health needs addressed.
  - 1.13.4. Evidence-based public health interventions implemented.
- 1.14. Key populations of interest for the PHI Program are "All Arizonans".

**2. OBJECTIVE**

  - 3.1.2.1. Counties are required to select NPMs identified by the State through the findings of the most recent five (5) year maternal and child health needs assessment. The most recent assessment can be found on the [ADHS website](#).
  - 3.1.2.2. If strategies selected by the Counties do not align with the State selected NPMs listed above, BWCH in partnership with Counties will develop State Performance Measures (SPMs) as needed to measure priority needs that have not been addressed through the selected NPMs.

PHI Program:

3.5. Under the PHI Program, the county health departments may use several strategies to support local initiatives to achieve healthy communities.
