Bisbee, AZ 85603

**Subject: Support for Special Use Proposal – APNs 202-29-023A, 202-29-017C, 202-29-017D, and 202-29-017A**

To Whom It May Concern,

I am writing in support of the proposed special use request for the properties located at 1270/1282 N. Fort Grant Road (APNs 202-29-023A, 202-29-017C, 202-29-017D, and 202-29-017A), totaling approximately 15.5 acres.

As the owner of the neighboring property identified as APN 202-29-041, I fully support this

proposal. I believe the special use designation will not only benefit the applicants, who have demonstrated hard work and strong community involvement, but it will also promote positive economic and infrastructural growth in our area. Allowing this type of contract construction business operation encourages responsible development and paves the way for future commercial opportunities in the surrounding parcels.

I appreciate your attention to this matter and urge your consideration in approving this special use request.

Sincerely,

**Heath and Michelle Bowen**

Yes, if there is an agreement to a special use permit. That is followed and checked, and all rules, regulations and codes are met. Also, if there is a 7 foot cinder block continuous wall built along the south and west border of Wortman's land. 7 foot wall to withhold the Willcox winds, to have less devastation to our home and property due to the blow sand. Also, have the wall to have less sight of the business and activities that are all devaluating our property. Also, to have 2 inches of industrial standard gravel put down on all the acreage (14 acres) that was cleared 4 years ago to withhold blow sand and business traffic.

No, we will not approve of any of this if none of these requirements are met. We have endured a tremendous amount and just want to have their business addressed for its size, expansion in the future, safety, its use and the impact on us and our property. If a special use permit is not required, we will still say no unless the 2 inch industrial standard gravel is put down on all of the acreage cleared in 2021 of 14 plus acres.

---

I have pictures I want to go through as I explain our situation. My husband bought our acreage 10 yrs ago and I have been here for 9. We put \$85,000 into construction on the outside by clearing our land, building our entry, installing 218 isolated pipes cemented a foot and half into the ground for fencing around our property built a barn, pig pens, a workshop, gardens and trees. If you look at picture (1) you will see my son in the field where we planted grass. In picture (2) you can see behind him where there is a large pile of mesquite where the Wortman's were clearing their land. This picture was taken August 21 2021. Nothing was ever put down or done to the exposed land that was cleared 4yrs ago. Jennifer did have gravel put down gravel behind the office. Picture (3) and (4) are what it looks like now. They did do some graveling on April 2025 which I will explain. It has been choked out due to sand blowing over from Wortman's. Picture (5) shows where our house is located in an L shape. We are in a corner and are affected by their business. Picture (6) shows what our island looks like as picture (7) shows what it looks like doing the winds in Willcox and the blowing sand from the Wortman's. Willcox can have winds up to 50 mph and nearly every day through March, April and May. Picture (8) is a different day but please note my weeping willow center left and as the day goes on in picture (9) it is not in sight. Picture (10) is the view from the side of my house from Wortman's property. I had gone to Chris Wortman about this. I explained that it is unbearable for my husband who has terrible Asma, that it is sand blasting our house and windows we had to have our air conditioner services twice in a month and a half and it was destroying our land. I counted 6 times as we spoke that he said he should have taken care of this 4 years ago. He said he would get on it and gravel was delivered the next day April 2025. But unfortunately, it was not enough. We had more windy days shown in picture (11,12,13 is one storm, (14,15) another and (16,17,18 another) (19,20,21,22 is another (23,24,25 is another) and (26,27 another). All these are after Chris had graveled. I thought as more storms came to go out and take pictures of the ground where it was coming from the Wortman's. Picture (28,29) are the same day as picture (30,31,32,33,34) are all different days I txd Chris to see if they were going to do more graveling because this was not enough. Jennifer called and said no and that we were "unappreciative" neighbors for the gravel they had already laid. We wanted them to come see the damage and effect it was having on us. In picture (35) you can see the depth of the sand as well in picture (36). My husband made a "run" walkway that goes all the way around our 5 acres. He made it all one level because I wear braces on both ankles, and my son has cerebral palsy. Because of the sand blowing over from the Wortman it is now like walking on the beach. Note picture (37,38,39) show that as well as the "hill of sand" against the fence that was never there and now is 14 inches deep in some areas. Picture (40) also explains that. Picture (41) through 48) show how winds have blown it deep across our land and in the run. In picture (49 though 52) it shows how sand is and continually creeps through our acreage like foam. The sand will just

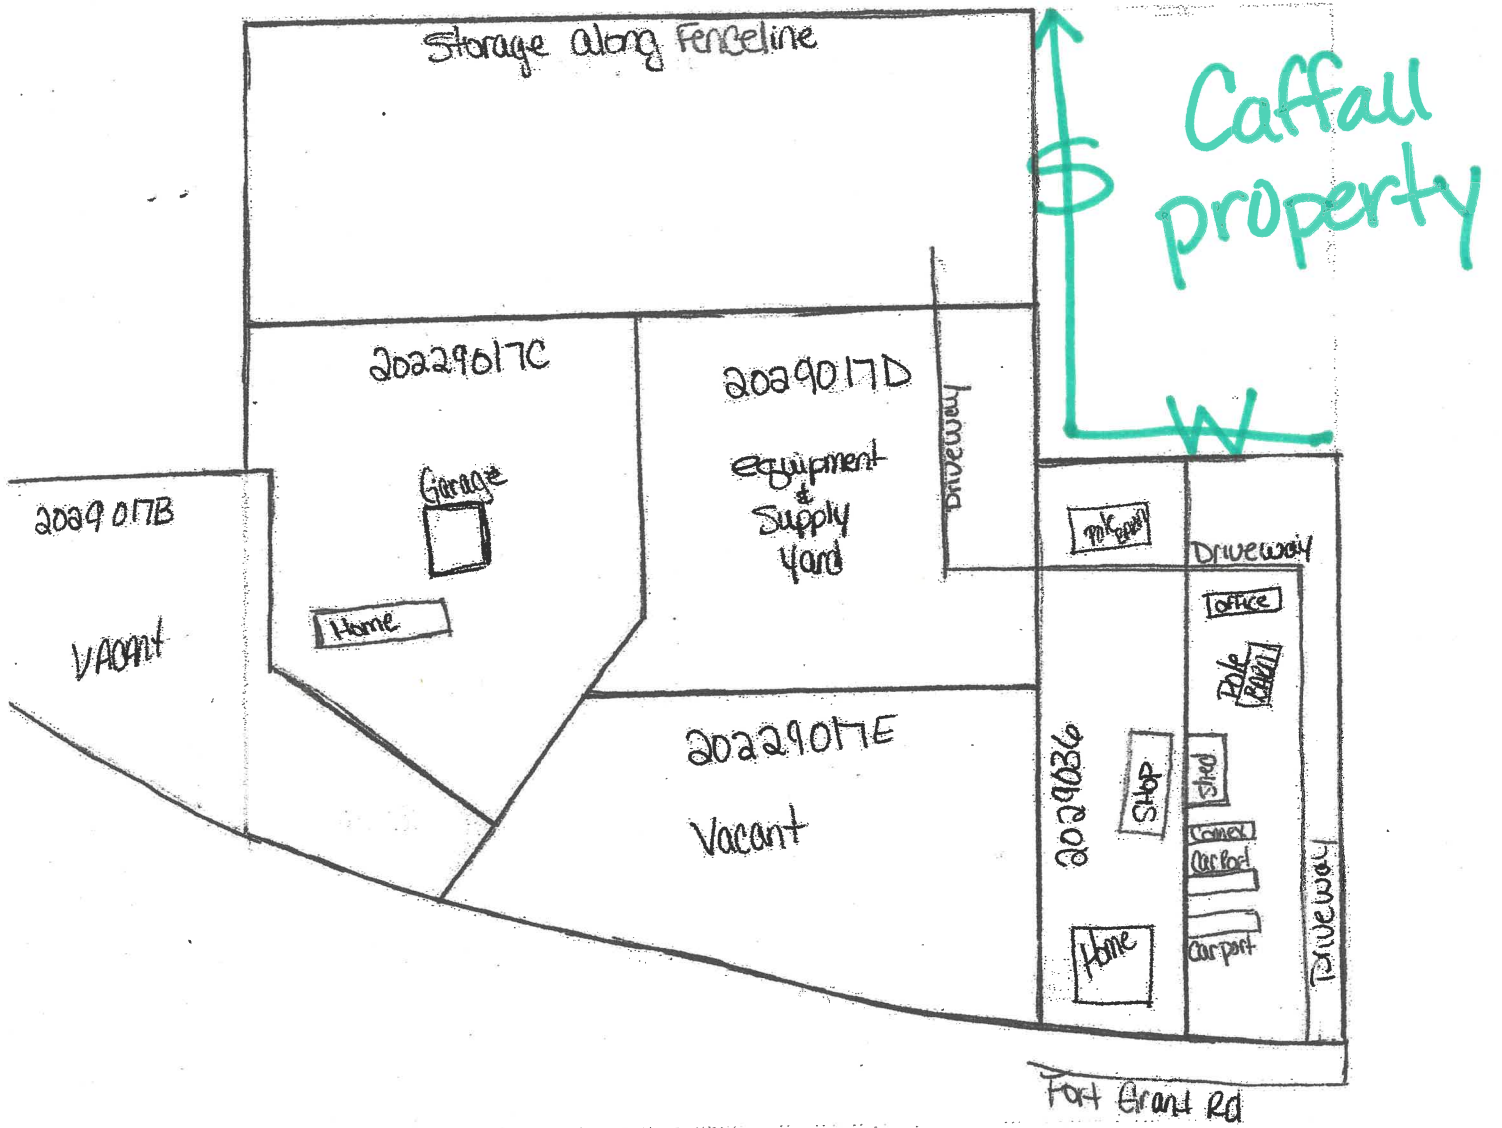

keep blowing across our land and causing issues and even more for my husband's Asma on his own land. We have had an estimate done on how much sand needs to be removed on just the run itself. There is 110yds of sand. We did not have any estimate done on the removal of all the sand. It is just 110yards for half of the south side of the run and 3/4s of the run on the west side! To do this is very expensive. Going back to picture (5) and where we sit are in full view and all actions of their well business. We bought this property in a residential area and now we are in a corner of a large well business. This has devalued our property. Picture (52) shows their office along with some of their work trucks on both left and right of the picture. They do come to work a but there is always action of them coming and going to retrieve supplies, get tailors, change vehicles at any time of the day. Picture (53 and 54) shows the office and where they come in and out through the day. Picture (55) shows how the workers come and go from the office, pass a tractor picture (56) around the fence corner picture (57) and to the truck lot. Please note that the gravel is not feasible for as much traffic that comes through there. This is the same way many semis come through to drop off pipes and supplies. The fence in the picture is ours and explains the closeness to all this activity. Picture (59 through 62) show how large their truck inventory is. Please note again how sparingly the gravel is for this size of business and use. Also, that in picture (61) shows that the gravel was not put under any vehicle to prevent sand blowing. Picture (61a and 61 b shows a closeup). Picture (62,63 and through pictures 67) show how equipment and around it also has no gravel and is not enough for heavy traffic. Picture (65 through 67) also show where they stopped with the graveling, this land has been exposed with nothing on it for over 4 ½ years. The Wortman's and their employees do drive on this land with their trucks, tailers and semis. As shown in picture (70) where there is no gravel and workers are depositing used tires. Picture (71) shows where they had rented out for over 2 ½ years to a fiber optic company from out of town. This company had trucks and trailers and would often drive down along our fence line to where they rented. This area has no gravel. They worked daily, weekends and often holidays. With special use, will Wortman's be able to rent land again? Picture (72) shows them less than 2 months ago burning insolated wire. Picture (73) shows how they have done this before. This is extremely toxic. My husband knows the smell as well as my firefighter son. Picture (74) shows tanks that I'm wondering if they are code compliance. Things like this are concerning. All in all, I realize this company will expand with the two Wortman sons taking over and I am concerned on the growth and issues that may come with it. I will be leaving this property of ours to my disabled son and his caretaker and don't want them with concerns. Selling this land with a large company next door could be complicated. The Wortman boys will continue to prosper and grow as we are still left with the sand issue and the growth of their business. Our request is to have the special use permit check on as they are scheduled. We would like to have them install a 7ft solid, continuous metal fence all the south and west side. This will help with sand issues and seeing the job site. Being that we are in the corner of the L of our property, we are able to see and hear all activity of their job

site. Jennifer had suggested trees they will install at some point. We cannot endure any more sandstorms caused by their property. We would also like to ask to have them place 2 inches of gravel (industry standard) on all exposed land from the office to our fence, through the pole barn, all 2029017d. All of the area exposed up to the fence line to storage along the fence line meeting area 20229017c and 2029017d to the son's garage. Under all vehicles in 20229017e as well and pathways that may have any exposed areas. I wish Wortman's would have considered any land that is always up for sale and would be only minutes from where they are now therefore we might have been able to keep our neighborly friendship. When this is done and a decision is made, we still have damage from the sand and devalue of our home.

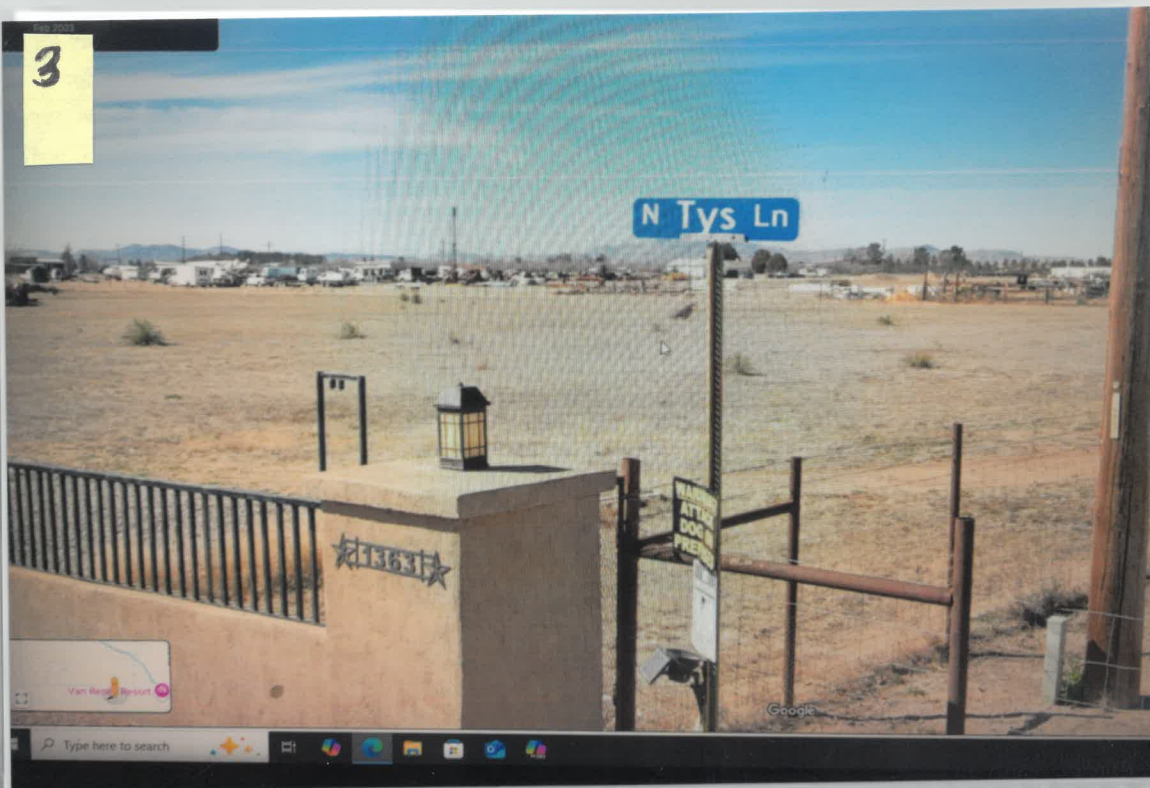

Thank you.

Danelle Caffall

**Re: Docket SU25-24 (Fort Grant Rd Contractor Yard)**

Dear Property Owner:

The **Cochise County Planning and Zoning Commission** hereby gives notice a public hearing will be held at or after 4:00 p.m., on **Wednesday, October 8, 2025**, at the Cochise County Board of Supervisors Hearing Room, at 1415 Melody Lane, Building G, in Bisbee, Arizona

Specific information how to attend meetings virtually via Microsoft Teams on desktop, mobile app, or by phone is provided on each agenda. The agenda will be accessible online using the QR code to the right approximately one week prior to the public hearing.

**Docket SU25-24 (Fort Grant Rd Contractor Yard)**

The county received a **Special Use Authorization** request from **Kyle Wortman and Jennifer Wortman** (applicants) to allow a contract construction service that provides well pump installation and repair. On-site activities include vehicle and equipment parking and maintenance, and outdoor storage of supplies. The property is located at 1270/1282 Fort Grant Road near Willcox (APNs 202-29-017A, 017D, 023A, and 36) and is zoned R-36 (Residential District, one dwelling per 36,000 square feet). The parcels total about 16 acres.

You are hereby notified of this request as an owner of property within 600' of the subject property. You may submit comments to the case planner by October 7, 2025, for forwarding to the Commission. Whether or not you choose to comment, you are encouraged to attend this public hearing to let your feelings be known concerning this docket. If you do not attend the public hearing but wish to know the Commission's action, contact the case planner below. If the Planning and Zoning Commission approves the Special Use Authorization, the applicant is required to comply with applicable site development standards identified in the Zoning Regulations and must obtain building/use permits to lawfully establish the use and build any new permanent structures. Proposed site improvements will be reviewed by County divisions including Building Safety, Planning and Zoning, Environmental Health, Engineering and Transportation, and Flood Control.

If you have any questions regarding this matter, contact me directly at 520-432-9256 or [mtaylor@cochise.az.gov](mailto:mtaylor@cochise.az.gov). Please note Dockets are occasionally removed from agendas prior to a public hearing. I recommend you contact me before the meeting to verify this item is still scheduled.

Sincerely,

*Matthew Taylor*

RE: Docket SU25-24  
Fort Grant Rd Contractor Yard  
Kyle and Jennifer Wortman, applicants

We are adjacent neighbors to the Wortman's, to the west of their property. Our interaction has been limited over the years as their residence is on a different road than our home. We communicate via Messenger, text or phone calls.

Jennifer brought it to our attention that there had been a complaint filed by another neighbor and that the county would be reviewing their case. Based on our interaction with the Wortman's, which I will elaborate on, we were happy to support the Special Use Authorization. Overall, they have been good neighbors: quiet, helpful, communicative, and willing to consider their neighbors. Their vehicle and equipment storage area is tidy and organized and not an eyesore from our perspective. They maintain the property, keeping grass and weeds mowed, making continued improvements to their home, carports and shop building. Though I have never used them personally for well service, I have heard nothing but good feedback. They appear to handle their property as they do their business.

A while back, the Wortman's had started to park some out-of-service vehicles on their property but in our line-of-sight of our mountain view to the east. The vehicles were 20 or 30 yards away from our property line, but still unsightly. Mike called Kyle to ask if they would be able to move the vehicles elsewhere on their property so we'd not see them so easily. Within hours, the vehicles were being moved further away. No questions asked, no retort that it's none of our business, but Kyle simply stated, "We want to be good neighbors." We were flabbergasted and impressed at their immediate response.

Within the community, the Wortman's, through their business, support/donate to many local non-profit entities. I've seen them at various fundraisers, generously giving back to the community financially. Again, being good neighbors.

In the past year, the Wortman's have planted and watered grass on a large part of their vacant property near Fort Grant Road to help keep the dust down. Ironically, right down the road is the City of Willcox Quail Park (rodeo grounds, large dirt parking lot, and an open-air event center) which is mostly dirt and blows dirt all around when it's windy. No dust remediation steps are taken unless the rodeo arena is watered down for events. The dust often impedes vision while driving past.

I would imagine that if the property was subdivided into 36,000 SF lots, as it is currently zoned to handle, there would be more noise, more dust, more vehicle traffic, and more difficult personalities to contend with. As a neighbor, that is much more concerning to me than the Wortman's using it for their well business.

My husband and I are supportive of the Special Use Authorization approval for the Wortman's and their business. We understand that this approval is for their business use only and the Special Use permit would not transfer to a future owner if they sold the property.

Thank you for your time in considering this neighbor's position.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael and Ellen Kauffman", with a long horizontal line extending to the right.

## Public Hearings - Public Comment Form

Docket Number	SU25-24 (Fort Grant Rd Contract Construction Yard)
Select one of the following:	Yes, I support this request
Explanation	That family has been working from the yard and benefiting Cochise county residents for years. They keep their yard clean and the rest of their property. Year after year this family supports and donates tons of money to Cochise county youth programs and local drives! These are the kind of people we want being successful.

## Public Hearings - Public Comment Form

Docket Number	SU25-24 (Fort Grant Rd Contract Construction Yard)
Select one of the following:	Yes, I support this request
Explanation	I support the Kyle and Jennifer Wortman's request to operate all aspects of their well pump installation and repair business. I have found the Wortmans to be a conscientious, considerate and supportive member of the community. Additionally, The Wortmans maintain the storage and parking of all vehicles, equipment and supplies in an organized and considerate manner that I do not find offensive. I strongly support this request.
