City Council Agenda Report

Agenda Item 5.

DATE: 07/14/2026
TO: Honorable Mayor and City Councilmembers
FROM: Jennifer Lyon, City Attorney
SUBJECT: Acceptance of 2026 Local Agency Biennial Notice and Approval of Resolution Amending the City's Conflict of Interest Code

RECOMMENDATION:

That the City Council adopts the next Resolution, in order, approving changes to the designated employee and official positions required to be filed under the City's Conflict of Interest Code.

BACKGROUND:

The Political Reform Act requires that the City review its conflict of interest code every two (2) years to determine if it is accurate or, in the alternative, if it needs to be amended. Once the determination has been made, the City must then submit notice of any changes to the Fair Political Practices Commission (the "FPPC").

Because the City Council has previously incorporated by reference the Model Conflict of Interest Code, promulgated by the FPPC, any amendments by the Commission automatically apply to our Conflict of Interest Code. The City has determined that the list of Designated Employees and Officials, last updated on January 27, 2026, by City Council Resolution No. 008-26, must be amended to include newly created classifications along with the corresponding economic interests required to be disclosed for each position; and to delete and/or revise various position names. This amendment is being made in conjunction with the City's 2026 biennial review of its Conflict of Interest Code, as required by the Political Reform Act (Government Code section 87306.5).

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

The proposed amended list of Designated Employees and Officials considered by the City Council is an administrative general policy and is therefore exempt from the California Environmental Quality Act ("CEQA") under section 15378(b)(2) of the State CEQA Guidelines.

City Council
Agenda Report
Agenda Item 6.

DATE: 07/14/2026

TO: Honorable Mayor and City Councilmembers

FROM: Bent Koch, Fire Chief

SUBJECT: Approval of Resolution Acknowledging Receipt of a Report On Annual Inspections of State-Mandated Occupancies

RECOMMENDATION:

That the City Council adopts the next Resolution, in order, acknowledging receipt of the Fire Chief's annual report on state-mandated inspections.

BACKGROUND:

The Fire Department is required to report annually to the City Council on its compliance with mandated occupancy inspections, and the City Council is, in turn, required to acknowledge receipt of that report.

Every fire department providing fire protection services is required to perform annual inspections of certain occupancies. The occupancy types, and the requirements for inspecting them, are set by Health and Safety Code ("HSC") sections 13146.2 and 13146.3. Mandatory occupancies include every building used as a hotel, motel, lodging house, apartment house, or school, as well as certain residential care facilities.

In 2018, Senate Bill 1205 added section 13146.4 to the HSC. This section further requires fire departments to report to its administering authority on its compliance with HSC sections 13146.2 and 13146.3. The code section also requires the administering authority to acknowledge receipt of that report in a resolution or a similar formal document.

During the preceding 12-month period, the El Cajon Fire Department inspected 99% of all identified occupancies, in accordance with Sections 13146.2 and 13146.3. Accordingly, this staff report serves as the Fire Chief's annual report required under section 13146.4.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This report and resolution are not subject to the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) as it is an organizational or administrative activity of government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

There is no fiscal impact from the City Council receiving this annual report.

TO: Honorable Mayor and City Councilmembers
FROM: Jeremiah Larson, Chief of Police
SUBJECT: FY26 Coverdell Forensic Science Improvement Grant Award

RECOMMENDATION:

That the City Council authorizes the City Manager or his designee to accept, appropriate, and expend the FY26 Paul Coverdell Forensic Science Improvement Grant (CVRDLL26) in the amount of \$51,391, and execute any grant documents and agreements necessary for the receipt and use of these funds.

BACKGROUND:

Each year, the California Office of Emergency Services awards Forensic Science Improvement Grants to local jurisdictions to improve the quality, timeliness, and credibility in the field of forensic science. The El Cajon Police Department Forensic Lab plans to utilize this year's grant funding for personnel expenses related to one part-time Forensic Latent Print Examiner.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

The approval of the Paul Coverdell Forensic Science Improvement Program Grant fund for Police Department personnel expenses is not subject to the California Environmental Quality Act ("CEQA") because it does not constitute a project. Pursuant to State CEQA Guidelines section 15378(b)(2), it is a continuing administrative activity of government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

The FY26 Coverdell Forensic Science Improvement Grant (CVRDLL26) award will provide \$51,391 in funding and will not impact the City's General Fund. No matching funds are required for this grant. These grant funds will be used by the El Cajon Police Department Forensic Lab for the projects listed above or as modified and approved by the granting agency.

FROM: Dave Richards, Director of Public Works

SUBJECT: Approval of Resolution Authorizing Modification of Previously Approved Vehicle Replacement Schedule

RECOMMENDATION:

That the City Council adopts the next Resolution, in order, authorizing the modification of the previously approved vehicle replacement schedule.

BACKGROUND:

As part of the City's ongoing fleet replacement program, on September 10, 2024, the City Council approved the replacement of three Police Department vehicles (Table A: Vehicles FY 2024-2025 (ARPA Funding)) to support departmental operations. Since that approval, a reassessment of the fleet has identified three Chevrolet Impalas currently in service that have deteriorated significantly and require more immediate replacement. This staff report, if approved, would modify the previous authorized replacement with higher priority vehicle replacements.

Staff recommends modifying the previously authorized vehicle replacements by substituting one Ford Explorer and two Ford Taurus vehicles with three Chevrolet Impalas that have reached the end of their useful life.

- Originally Authorized Vehicles for Replacement
 - Unit 40001 - 2013 Ford Explorer
 - Unit 40387 - 2015 Ford Taurus
 - Unit 40392 - 2016 Ford Taurus
- Requested Modified Replacements
 - Unit 40052 - 2008 Chevrolet Impala
 - Unit 40089 - 2010 Chevrolet Impala
 - Unit 40332 - 2012 Chevrolet Impala

These Impalas have experienced escalating mechanical failures, rising maintenance costs, and reduced reliability, all of which negatively affect operational readiness and staff productivity. Although the originally approved vehicles remain serviceable, the Chevrolet Impalas have surpassed their practical service lifespan and are no longer cost-effective to maintain.

Key considerations include:

- **Safety and Reliability:** Ongoing mechanical issues may compromise the safe operation of the Impala units.
- **Maintenance Costs:** Repair costs have increased substantially and are no longer economical.
- **Operational Impact:** Frequent breakdowns and downtime have hindered service delivery and reduced efficiency.

This adjustment allows the City to prioritize replacement of the most critical fleet deficiencies without increasing the total number of vehicles previously authorized for replacement.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This action is exempt from the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15378(b)(2). The vehicle replacements will not result in any direct or indirect physical change in the environment, as the action solely provides authorization to modify the previously approved vehicle replacement list.

FISCAL IMPACT:

This modification will reduce costs by avoiding escalating repair expenses associated with the three deteriorating vehicles. The new vehicles were previously paid for through ARPA Funding. No additional appropriations are required, as this action only revises the specific units being replaced.

Agenda Report
Agenda Item 14.

DATE: 07/14/2026

TO: Honorable Mayor and City Councilmembers

FROM: Marisol Thorn, Deputy City Manager

SUBJECT: Approval of CalPERS Contract Amendment Side Letter for Police Officer's Association Management Group

RECOMMENDATION:

That the City Council approves and authorizes the terms and conditions of the CalPERS Limited Side Letter Agreement between the City and the Police Officers' Association Management Group.

BACKGROUND:

On May 14, 2024, City Council adopted the Tentative Agreement and Resolution for a successor Memorandum of Understanding (MOU) for the Police Officers' Association Management Group. Inclusive of the MOU changes was an agreement for Classic CalPERS employees to cost-share contributions, which were to be effective on the first paycheck in July 2025 and the first paycheck in July 2026. Due to circumstances outside the City's control, the second cost-share increase will move to the first paycheck in August 2026.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

The proposed agreement is not subject to the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15378(b)(5), because it is an organizational activity of government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

There are no fiscal impacts as the cost sharing was already adopted in the FY27 budget.

BACKGROUND:

The Comprehensive Land Use Planning Services encompasses land use planning and regulation development; urban and shopping mall redevelopments; and economic revitalization to aid in the redevelopment of the Parkway Plaza Mall. On July 22, 2025, the City Council authorized the award of this service in the not-to-exceed amount of \$400,000 for an initial one-year term and \$334,591 for the subsequent one-year renewal cost.

The City has an opportunity to utilize the San Diego Association of Governments (SANDAG) Transnet Smart Growth Incentive Program – Cycle 6 grant to fund the majority of this service. Due to the delay of the grant award, a large portion of the work has been deferred to the second term.

The initial one-year term of the agreement expires August 3, 2026. Expenditures for the current term are estimated at \$205,000; \$100,000 utilizing Economic Development funds and the remainder to be funded by the SANDAG grant.

Staff requests the final one-year term of the contract be extended for an additional six months through and including February 3, 2028, and an increase in compensation of \$210,409 resulting in a not-to-exceed amount of \$545,000 for the final term, which will be entirely funded by the SANDAG grant.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This action is not subject to the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15378(b)(5), because it is an organizational activity of government that will not result in direct or indirect physical changes in the environment.

RECOMMENDATION:

That the City Council approves and authorizes the proposed new classification specifications and salary setting for Park Maintenance Worker I, Park Maintenance Worker II, and Park Maintenance Supervisor; and approves and authorizes the classification specification updates for Park Maintenance Worker III.

BACKGROUND:

In 2024, City Council approved an organizational structure change in which the Park Maintenance Division under the Public Works Department was transferred to the Parks and Recreation Department. Due to this organizational structure change, the City is now proposing a classification separation in order to distinguish the Park Maintenance classifications from the Public Works classifications. This separation will allow the City to attract candidates who are more specialized with applicable park maintenance training and experience.

Accordingly, staff proposes creating and setting the salary for the following new classification specifications, effective June 20, 2026:

Park Maintenance Worker I	Step 1	\$24.2574
	Step 2	\$25.4704
	Step 3	\$26.7439
	Step 4	\$28.0812
	Step 5	\$29.4853

Park Maintenance Worker II	Step 1	\$26.7554
	Step 2	\$28.0931
	Step 3	\$29.4978
	Step 4	\$30.9726
	Step 5	\$32.5213

Park Maintenance Supervisor	Step 1	\$39.3078
	Step 2	\$41.2732
	Step 3	\$43.3369
	Step 4	\$45.5036
	Step 5	\$47.7788

Additionally, for the existing Senior Maintenance Worker II staff is proposing a title change to Park Maintenance Worker III.

Park Maintenance Worker I, Park Maintenance Worker II, and Park Maintenance Worker III are represented by the Municipal Employees' Association (MEA) bargaining group and Park Maintenance Supervisor is represented by the Mid-Management and Professional Employees' Group (MMPEG). As such, the City had a duty to discuss the proposed classification specification updates with the bargaining groups. MEA and MMPEG reviewed the proposed classification specifications and approved them on March 24, 2026, and April 20, 2026, respectively.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This action is not subject to the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15378(b)(5), because it is an organizational activity of government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

There is no fiscal impact resulting from adding and updating the classification specifications for the Park Maintenance Division.

DATE: 07/14/2026

TO: Honorable Mayor and City Councilmembers

FROM: Yazmin Arellano, Director of Development Services

SUBJECT: Public Hearing to Consider Adoption of the City of El Cajon Annual Sewer Charges Report for Fiscal Year 2026-2027

RECOMMENDATION:

That the City Council:

1. Opens the Public Hearing and receives testimony;
2. Closes the Public Hearing;
3. Determines if a majority protest has been received; and (if not)
4. Adopts the next Resolution, in order, to:
 - Determine the lack of majority protest;
 - Overrule objections to the report;
 - Accept the City of El Cajon Annual Sewer Charges Fiscal Year 2026-2027 Report;
 - Accept Appendix B and any reductions identified by Appendix C, which identify by parcel number, each parcel of real property receiving sewer services, and the amount of sewer charges for each parcel for Fiscal Year 2026-2027 at the currently adopted rates, as required by the California Health and Safety Code section 5473, et seq., pertaining to collection of sewer charges on the tax roll;
 - Direct the City Clerk to file the reports with the San Diego County Auditor; and
 - Direct the Finance Department to file a certification of the sewer service charges with the San Diego County Auditor.

BACKGROUND:

The City provides sewer services to over 17,000 properties. On May 12, 2020, the City moved to place the annual sewer charges on the tax roll.

A public hearing is required to consider adopting a specific annual sewer charge for each property to be collected on the tax roll. The City of El Cajon Annual Sewer Charges Fiscal Year 2026-2027 Report (Report) identifies each parcel of real property receiving sewer services and the amount of sewer charges for each parcel for Fiscal Year 2026-2027 (FY27), as required by the California Health and Safety Code section 5473, et seq., pertaining to collecting sewer charges on the tax roll. The Report is on file with the Office of the City Clerk.

Billing Methodologies

In preparing the sewer billing for the tax roll, the methodology used to develop the bills has remained unchanged. The County of San Diego will continue to split annualized costs between the two tax bill installments received by property owners.

For most single-family residential customers, the City's sewer service fees are based on a bimonthly Fixed Winter Average (FWA) methodology and a monthly base charge. The FWA is adjusted annually based on each property's recent winter water usage. The annual charges for commercial and industrial customers vary based on water consumption and the strength of the sewage they generate (categorized as low, medium, or high).

The water usage billed as part of the FY27 sewer bill relies on water usage data obtained from the City's two water purveyors (Helix Water District and Padre Dam Municipal Water District) for the period of May 2025 through April 2026. This data is used to develop the total annualized usage for most classifications and the FWA rates for residential customers who do not have separate irrigation meters.

Some multi-family properties have historically managed sewer charges for their owners based on water usage from private meters. These accounts had initially been manually billed in at least the first annual period since the billing transition in 2020. Since then, additional outreach has been performed to better understand how these property owners have managed charges and formulated equitable allocations. With this new data, staff has effectively transitioned multiple properties to tax roll billing for this and previous subject periods, thus reducing the number of manual bills required each year. Outreach will continue to help transition the remaining applicable multi-family properties to tax roll collection.

Sewer Charge Collection Methods

A total of 16,401 mailers with the projected billing amount to be placed on the upcoming tax roll were sent to all affected property owners.

Sewer account holders that do not receive a property tax bill, such as properties owned by public entities (government agencies and school districts), will continue to receive manual bills under a separate process. Several multi-family properties and homeowners associations (HOAs) with master water meters for their properties will also continue to receive manual bills. There will be approximately 140 invoices sent to entities after September as manual semi-annual bills. The entities receiving manual bills will have semi-annual payment deadlines closely aligning with the timeline for payments on property tax billings.

Wastewater Treatment and Transportation

The City of El Cajon is a member of the Metro Wastewater Joint Powers Authority (Metro JPA), a twelve-member agency that uses City of San Diego treatment facilities, primarily the Point Loma Wastewater Treatment Plant (PLWTP), to treat regional wastewater. Regional wastewater collection, transportation, and treatment costs continue to be refined as infrastructure improvements, regulatory requirements, and new regional facilities are implemented. Through the Metro JPA, member agencies share the costs associated with operating, maintaining, and improving the PLWTP and related regional wastewater infrastructure. The City of San Diego is also implementing the Pure Water Program, which includes regional infrastructure improvements that affect participating Metro JPA agencies. Staff continues to monitor these costs as additional information becomes available.

Currently, 100% of the City of El Cajon's wastewater is transported to the City of San Diego for treatment and disposal. However, the City of El Cajon is also a member of the East County Advanced Water Purification Joint Powers Authority (ECAWP JPA), along with Padre Dam Municipal Water District and the San Diego County Sanitation District. Construction of the ECAWP facility is nearing completion, and commissioning activities are underway. The

ECAWP facility is anticipated to become operational by the end of FY27. Once operational, nearly all of the City's wastewater will be diverted to the ECAWP facility, with only minimal flows continuing to the City of San Diego through the City of La Mesa due to existing system constraints and during significant wet weather events.

An update to the Wastewater Rate Study is budgeted for FY27 following completion of the Sewer Master Plan. The updated Sewer Master Plan will identify the City's wastewater capital improvement needs over the next 10–15 years and establish the foundation for long-term financial planning of the wastewater enterprise. The updated Wastewater Rate Study will incorporate the latest projections for wastewater collection, transportation, treatment, regulatory compliance, and capital improvements. In addition, the study will evaluate updated cost projections associated with the City's participation in both the Metro JPA and the ECAWP JPA as these regional programs continue to advance and long-term operating and capital costs become clearly defined.

Given these significant and ongoing changes, staff recommends completing both the Sewer Master Plan and the updated Wastewater Rate Study before evaluating future wastewater rate recommendations. This approach will ensure that any future recommendations are based on the most current infrastructure needs, regional treatment costs, long-term financial projections, and the City's overall wastewater capital improvement program, providing the City Council with a comprehensive and well-supported basis for future decision-making.

Accordingly, FY27 wastewater charges remain at the currently adopted rates. Existing wastewater revenues and reserve levels are sufficient to support anticipated FY27 operating, maintenance, treatment, transportation, and capital improvement needs while the City completes these critical planning efforts.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This proposed action is exempt from the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines section 15378(b)(5) because it is an administrative government action that does not result in any direct or indirect physical change in the environment.

FISCAL IMPACT:

The total amount to be assessed on the FY2026-2027 property tax roll for 17,336 parcels to be submitted to the County Auditor for collection on the associated FY2026-2027 property tax bills is \$29,958,164.80. Appendix B of the attached report lists the annual sewer charge assessment for each affected parcel at the currently adopted wastewater rates. An update to the Wastewater Rate Study is budgeted for Fiscal Year 2026-2027 following completion of the Sewer Master Plan. The updated Sewer Master Plan will identify the City's long-term wastewater capital improvement needs, while the Rate Study will incorporate updated projections for wastewater collection, transportation, treatment, regulatory compliance, capital improvements, and revised regional cost allocations associated with both the Metro JPA and the ECAWP JPA. Accordingly, FY27 wastewater charges remain at the currently adopted rates. Existing wastewater revenues and reserve levels are sufficient to support anticipated FY27 operating, maintenance, treatment, transportation, and capital improvement needs while these planning efforts are completed and future rate recommendations are developed.

The annual sewer charges are currently placed on the County's property tax roll. An updated rate study is budgeted to be conducted in Fiscal Year 2026-2027 (FY27) following the update to the Sewer Master Plan currently underway, where the current and future wastewater capital improvement program needs are being reviewed and projected for the next 10-15 years. As such, FY27 rates remain the same as those implemented in FY24.

Billing Methodology

The methodology used to develop the sewer charges has not changed from the time of the approved sewer rate development. The County will split the annualized bill total across the two equal tax bill payments. The City's sewer service fees for most single-family residential customers are billed based on a fixed monthly base charge and a Fixed Winter Average (FWA), calculated as the average water usage from domestic meter reads taken from November through March. Annually, the FWA is adjusted based upon the most recent winter's water usage.

City of El Cajon Annual Sewer Charges Fiscal Year 2026-2027 Report

For multi-family residential, commercial, and industrial customers, the annual charges are variable and based on the specific water consumption. Commercial and industrial accounts have additional rate variances based on the strength of the sewage they each generate (rated as low, medium, or high). The water use billed as part of the FY27 sewer bill is water use data from April to March. Water usage data was obtained from Helix Water District and Padre Dam Municipal Water District.

The bills are calculated as follows:

- Fixed Winter Average (FWA) = the average bimonthly water usage from about November through March (varies based on actual water district read dates).
- For FWA accounts = $(FWA \times \text{Consumption Charge}) \times 6 + (12 \times \text{Monthly Base Charge})$
- Although most single-family residences are billed on an FWA, some accounts are billed on a consumption basis. For all consumption-based accounts, including commercial and multi-family accounts:
 - Annual Sewer Charge = $(\text{Total Consumption} \times \text{Consumption Charge}) + (12 \times \text{Monthly Base Charge})$
 - Total Consumption = all water usage from April through March.

Homeowners Associations Equal Split

Several properties have condo overlays or have Homeowners Associations (HOAs) with master meters. Because residential billing is based on actual water usage and not a flat rate per customer, the size of individual units would generally affect the water use and, subsequently, wastewater generation. For example, an HOA or condominium complex may have varying unit sizes that range from 1 (one) bedroom - 1 (one) bathroom studio to 3 (three) bedroom - 2 (two) bath units. Some HOAs, however, have uniform units that would have relatively consistent water use and wastewater generation.

Over the past five years, the City has been contacting the HOAs and requesting them to submit documentation outlining how they split their sewer bills among their property owners. To date, 51 HOAs have responded that they split the bill evenly and had no legal concerns against the charges being collected with the individual owners' property tax invoices. These tax roll assessments include the corresponding 1,420 condominium owners in those situations.

Annual Property Owner Notices

Individual notices were sent to all affected property owners with their projected bills on the tax roll based on the currently approved rate increases. Entities receiving manual bills receive a separate mailed invoice after September, around the same time the property tax billings are received. This allows the remaining HOAs and governmental entities to have the same planning information that the other property owners are given. Samples of the letters sent to property owners are included in Appendix A. A total of 16,401 mailers were sent to property owners. There will be about 140 entities that will receive manual bills.

Wastewater Treatment Costs

The City of El Cajon is a member of the Metro Wastewater Joint Powers Authority (Metro JPA). This twelve-member agency uses the City of San Diego treatment facilities, primarily the Point Loma Wastewater Treatment Plant (PLWTP), to treat their wastewater. The costs of wastewater collection, transportation, and treatment continue to increase. The Metro JPA shares the cost of the operation and maintenance of the PLWTP and related infrastructure with the City of San Diego. The PLWTP is currently undergoing upgrades and the City of San Diego is implementing the Pure Water Program, which also requires some cost-sharing for the infrastructure associated

City of El Cajon Annual Sewer Charges Fiscal Year 2026-2027 Report

with the treatment of the wastewater generated from the Metro JPA agencies. Staff continues to closely monitor the actual impact on treatment costs as the Pure Water Program costs become more specific.

Currently, 100% of the City of El Cajon's wastewater effluent is transported to the City of San Diego for treatment and disposal. However, the City of El Cajon is also a member of the East County Advanced Water Purification Joint Powers Authority (ECAWP JPA), a three-member wastewater agency established in 2019 to manage the construction of the ECAWP Program. ECAWP has begun commissioning activities and is expected to be fully operational by the end of Fiscal Year 2027. Once the ECAWP plant is operational, nearly all of the City of El Cajon's municipal wastewater will be diverted from the City of San Diego to ECAWP. Minimal wastewater will continue to flow to the City of San Diego through the City of La Mesa due to existing system constraints and during periods of significant rain events.

Summary of Annual Sewer Charges

Below is a summary of charges presented by classification at the approved FY27 rates for Council approval. The charges to be assessed for each parcel on the tax roll are included in Appendix B.

Customer Classification	FY27 Total Charges
All Billing Types	\$29,958,164.80
Commercial/Gov	\$5,643,505.48
Multi-Family Res	\$12,399,264.18
Single-Family Res	\$11,915,395.14

Appendix C will be added, if needed, to this report just before the July 14, 2026, Hearing. Appendix C includes proposed reductions to any assessments from Appendix B. These adjustments are calculated by Staff in response to property owner requests received after this report was prepared. Consistent with past practice, adjustments are made when the water use data initially used to calculate the proposed sewer charges in Appendix B is determined not to be representative of a specific property's typical sewage generation. Examples of warranted adjustments include significant water leaks or occupancy changes.

City Council Agenda Report

Agenda Item 20.

DATE: 07/14/2026
TO: Honorable Mayor and City Councilmembers
FROM: Graham Mitchell, City Manager
SUBJECT: Consideration to Introduce Ordinance Amending Section 2.16.020 of the El Cajon Municipal Code Related to Salaries of City of El Cajon Councilmembers and Mayor

RECOMMENDATION:

That the City Council considers introducing an Ordinance amending Section 2.16.020 of the El Cajon Municipal Code (ECMC) related to salaries of Councilmembers and Mayor, and directs the City Clerk to read the title of the Ordinance.

BACKGROUND:

The Government Code and El Cajon Municipal Code (Chapter 2.16) govern salaries for the Mayor and members of the City Council. Salaries were last modified in 2024, with new salary rates going into effect on January 1, 2025.

State law specifies that salary increases approved by the City Council cannot take effect until after the term ends for at least one Councilmember. This means that no salary adjustments can occur until after the next municipal election in November 2026. Also, the code limits the amount of the increase to a maximum of 5 percent for each year that has passed since the last increase--this allows for a maximum of 10 percent. Staff determined that inflation, as determined by the Consumer Price Index, has increased by approximately 5% between January 2025 and May 2026 (an average of 2.5% per year).

If the City Council wished to consider an increase in salary for the next City Council term, staff has prepared an ordinance that would increase salary rates for both the City Councilmembers and the Mayor by a total of 5%, beginning on January 1, 2027.

The proposed salary adjustment would increase the monthly salary of the Mayor from \$3,380 to \$3,549 (an increase of \$169); the monthly salary of the City Council would increase from \$2,336 to \$2,453 (an increase of \$117).

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

The proposed ordinance amendment is not subject to the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines section 15378(b)(5) because the activity is not a "project" since it is an organizational or administrative activity of government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

Staff estimates that the annual fiscal impact of the proposed salary increase is \$7,644, plus associated pension costs.

ORDINANCE NO. _____

AN ORDINANCE AMENDING SECTION 2.16.020 OF
CHAPTER 2.16 OF THE EL CAJON MUNICIPAL CODE
ADJUSTING SALARIES OF COUNCILMEMBERS AND MAYOR
EFFECTIVE JANUARY 1, 2027

WHEREAS, City Charter Section 602 provides that “the salaries of the Mayor and Council Members will continue to be set by California Government Code §36516, as that statute provides as of the date of the adoption of this Charter [June 2012], where the formula considers city population and state law...”, and

WHEREAS, Government Code section 36516 allows for the Council to increase their salary in an amount equal to 5% for each calendar year from the operative date of the last adjustment of the salary; and

WHEREAS, the last adjustment to salary for the Mayor and City Council took effect on January 1, 2025; and

WHEREAS, each member of the Council currently receives, as salary, the sum of two thousand three hundred thirty-six dollars per month, and the Mayor currently receives, as salary, the sum of three thousand three hundred eighty dollars per month; and

WHEREAS, the City Council of the City of El Cajon makes the following findings in support of raising City Council salaries as allowed by law:

- a. Higher pay can help remove financial barriers that may prevent individuals from running for office. This can make council positions more accessible to a wider range of people, including those from lower-income backgrounds, promoting greater socioeconomic diversity among elected representatives.
- b. Offering higher pay can attract more qualified individuals to run for city council positions. This can potentially increase the talent pool and diversity of candidates, leading to better decision-making governance.
- c. A higher salary can encourage council members to dedicate more time and effort to their roles. This can enable them to devote additional hours to understanding complex issues, researching policies, and engaging with constituents, thereby enhancing the quality of their work.

- d. A higher salary can help retain experienced council members who might otherwise leave for higher-paying opportunities elsewhere. Continuity and intuitional knowledge can benefit the city by enabling councilmembers to build expertise, establish relationships, and effectively address long-term challenges.
- e. Increasing compensation recognizes and compensates city council members for their substantial workload. Serving on the city council requires significant time and effort. Councilmembers are responsible for attending meetings, conducting research, engaging with constituents, and making important decisions that directly impact the community.
- f. The City Council's last compensation increase went into effect at the beginning of 2025, so it would be appropriate to again increase compensation to account for cost-of-living increases and inflation over the last two years.

The CITY COUNCIL OF THE CITY OF EL CAJON DOES ORDAIN AS FOLLOWS:

SECTION 1. The above recitals are true and correct and incorporated herein as findings as though set forth in full.

SECTION 2. Section 2.16.020 of Chapter 2.16 of the El Cajon Municipal Code is hereby amended to read as follows.

2.16.020. Salaries of councilmembers and mayor.

With the exception of the mayor, each member of the council of the city shall receive, as salary, the sum of two thousand four hundred fifty-three dollars per month, as prescribed in Title 4 Division 3 of the Government Code of the state of California for cities over seventy-five thousand up to and including one hundred fifty thousand in population, which shall be effective January 1, 2027, in the same manner as the salaries are paid to other officers and employees of the city.

The mayor of the city shall receive, as salary, the sum of three thousand five hundred forty-nine dollars per month, which shall be effective January 1, 2027, in accordance with the provisions applicable to members of the city council as hereinabove set forth.

SECTION 3. This Ordinance shall become effective thirty days following its passage and adoption.

SECTION 4. The salaries prescribed by this Ordinance are exclusive of any other amount payable to a City Council member as reimbursement for actual and necessary expenses incurred by him or her in the performance of his or her official duties.

SECTION 5. If any section, subsection, subdivision, sentence, clause, phrase, or portion of this Ordinance for any reason is held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance, and each section, subsection, subdivision, sentence, clause, phrase, or portion thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses, phrases, or portions thereof be declared invalid or unconstitutional.

SECTION 6. The Mayor shall sign this Ordinance and the City Clerk shall cause the same to be published within fifteen (15) days after its passage at least once, in a newspaper of general circulation, published and circulated in the City of El Cajon, California.

City Council
Agenda Report
Agenda Item 21.

DATE: 07/14/2026

TO: Honorable Mayor and City Councilmembers

FROM: Jose Dorado, Housing Manager

SUBJECT: Encampment Resolution Funding (ERF) Grant Opportunity

RECOMMENDATION:

That the City Council receives and discusses the policy implications of the Encampment Resolution Funding (ERF) grant and provides direction to staff regarding a pending grant application.

BACKGROUND:

The California Department of Housing and Community Development (HCD) is currently administering a competitive Encampment Resolution Funding (ERF) grant program to help local jurisdictions and other eligible entities provide services and support to those experiencing homelessness in encampments. The grant opportunity makes \$93 million available through a rolling application process.

The ERF grant supports outreach, case management, interim and permanent housing, behavioral health services, and other interventions that help individuals living in encampments transition into safe and stable housing. Grant funding may also be used to strengthen local partnerships, build organizational capacity, and restore encampment sites to their intended public use once residents have been successfully connected to housing and supportive services.

The grant application requires coordination with Caltrans to confirm that eligible sites are within the State right-of-way because the program is not intended to fund a Citywide effort. Staff has completed coordination with Caltrans and received their support to target encampments near Interstate 8 and State Highway 67 (Attachment 1).

To meet a grant application deadline, staff submitted an ERF grant application, listing existing service providers, including ECTLC and Crisis House. These service providers will assist the City with outreach, interim and permanent housing, and case management services.

Staff estimates that a grant award exceeding \$5 million may be possible over a 27-month period from January 2027 through March 2029. There is no City match beyond in-kind services already being provided by the City. These in-kind services include the City's Quality of Life team staff time, Police Department staff time, City Permanent Local Housing Allocation (PLHA) funds for homeless outreach and shelter, funds for Tenant Based Rental Assistance, as well as East County Transitional Living Center (ECTLC) in-kind services, and CalAIM Community Supports funding from Medi-Cal.

Under HCD grant guidelines, agencies that receive the grant are required to adopt a homeless policy that aligns with the State encampment guidance (Attachment 2). This homeless policy affects not only the ERF target area, but the entire City. Key policy requirements include:

- Adopt the State's Housing First policies that include criteria that may NOT be used to exclude program enrollment:
 - Sobriety or commitment to be drug-free,
 - Requirements to take medication if the participant has a mental illness,
 - Participation in religious services or activities,
 - Participation in drug treatment services,
 - Payment or ability to pay, or
 - Identification.
- Ensure interim housing resources are immediately available (i.e., shelter beds or motel vouchers when encampments are resolved),
- A minimum of 48-hour advanced notice prior to encampment cleanups, and
- Establishing procedures for the storage of personal property.

Staff is concerned that some of these policy requirements are not consistent with current City operations or previous direction from the City Council. Other cities have opted not to pursue ERF funding because of the conditions required by the State. For example, the City of Encinitas recently declined to pursue approximately \$4 million in ERF funding, citing concerns regarding the State's Housing First requirements and the overall alignment of the grant conditions with the City's local policy objectives.

Pursuing this grant offers several potential benefits, along with important considerations for the City Council. The grant would provide significant resources to enhance encampment resolution efforts within the project area identified in Attachment 1. In addition, a portion of the approximately \$5 million in funding could financially support temporary storage of personal belongings for homeless individuals within the project area, helping the City meet this State requirement while facilitating encampment clean-up efforts.

Conversely, while the grant funding is limited to a specific geographic area, accepting the grant will require the City to make programmatic changes citywide. The two primary changes—advance notice and temporary storage requirements for personal property—would reduce the City's operational flexibility and speed in clearing encampments and increase the cost of encampment cleanups.

While acceptance of the grant requires the City to adopt a Housing First model, the City's service providers already operate under this policy. ECTLC and Crisis House acknowledge that this policy will be followed as grant recipients. Further, the San Diego Rescue Mission and Family Health Centers currently receive PLHA funds, which also require a Housing First model.

As stated earlier, the City has already submitted an application for the ERF grant in order to meet a deadline. However, if the City Council does not wish to implement the State's policies as outlined in this report, the City has the option to rescind the application. Staff requests City Council direction on the pending grant application to determine whether staff should continue pursuing or withdraw the application.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

This action is not considered a "Project" pursuant to the California Environmental Quality Act ("CEQA"). In accordance with State Guidelines section 15378(b)(5), this action is an administrative activity of the government that will not result in direct or indirect physical changes in the environment.

FISCAL IMPACT:

If the grant is awarded and the City Council directs staff to accept and implement the grant, the City will provide in-kind staff time that is already being used to address homeless efforts. The City would also receive administrative funding equal to five percent of the grant award, with one percent shared with the Regional Task Force on Homelessness for costs associated with the required Homeless Management Information System project setup, technical assistance, and reporting requirements.

Appendix D: California Interagency Council on Homelessness Guidance on Addressing Encampments

Below is a list of the seven components included in the [Cal ICH Guidance on Addressing Encampments](#). Applicants may use this as a checklist to verify whether their policy or ordinance complies with state guidance, or as a template to adopt an encampment policy that complies with state guidance.

1. Employ person-centered, Housing First, and trauma-informed approaches when addressing the needs of person living in encampments on public property.
2. Maintain awareness of interim housing capacity, including congregate and noncongregate shelter (i.e., motel vouchers), that is immediately available to serve persons in the encampment in question.
3. Provide respectful/reasonable treatment of property from the encampment, including collecting, labeling, and storing personal property from the encampment (unless it is a health or safety hazard).
4. Provide notice to encampment residents:
 - a. Provide as much advance notice to vacate as possible. For non-urgent situations, a notice to vacate must be posted at least 48 hours before removal.
 - b. Include the following information in the notice: 1) Date and time of the removal actions, 2) Information on services that are immediately available to persons living in the encampment, and 3) Information on how unattended belongings will be handled the day of the removal action, including what will be stored and how they can be recovered.
5. Maintain awareness of efforts serving the encampment in question and encampments broadly.
6. Make every effort to identify and offer shelter including interim housing or motel vouchers to persons living in an encampment before taking action to remove an encampment. If shelter cannot be secured prior to removal despite these efforts, confirm there are reasonably accessible locations within the jurisdiction where a person may lawfully sleep.
7. Prioritize health and safety in assessing encampments, and where appropriate address hazards prior to or independent from any removing operation.

SUBJECT: Approval of Resolutions to Award Bid No. 004-27 – Restoration of Open Space, Parks, and Wildfire-Prone Areas and Approve Plans & Specifications

RECOMMENDATION:

That the City Council adopts the next Resolutions, in order, to:

1. Approve Plans and Specifications for Restoration of Open Space, Parks, and Wildfire-Prone Areas, Bid No. 004-27;
2. Find the apparent second and third low bidders non-responsive for the reasons set forth in the agenda report; and
3. Award the bid to the lowest responsive, responsible bidder, Neema General Contracting (NGC), in the amount of \$461,737.

BACKGROUND:

The Restoration of Open Space, Parks & Wildfire-Prone Areas is funded by the San Diego River Conservancy Grant. This phase of the ongoing project consists of restoration efforts such as access roads, native trees, and vegetation in approximately 24 acres of park and open space which includes a portion of Hillside Park and undeveloped canyons in the Fletcher Hills area.

The specifications include the following Additive Alternates (AA):

- AA #A1: Fuel Reduction Brush Management. Consists of the Secondary Fuel Reduction Brush Management Area at Fletcher Hills Open Space;
- AA #A2: Fuel Reduction Brush Management. Consists of the Secondary Fuel Reduction Brush Management Area at Hillside Park;
- AA #B: Road material improvements to stabilize slopes in Fletcher Hills Open Space; and
- AA #C: Demolition of existing asphalt concrete driveway and installation of colored concrete for driveway at Wyatt Place.

The California Public Contract Code allows the City to specify which award method will be utilized to determine the lowest bid. Per the bid specifications, the lowest bid shall be the lowest total of the bid prices on the base contract and those additive or deductive items that were specifically identified in the bid solicitation as being used for the purpose of determining the lowest bid price. For the purpose of evaluating this bid, all additive items were identified as being used for the purpose of determining the lowest bid. Even though the items are considered for this purpose, this language does not require the City to include the additive

items in the contract after the lowest responsible bidder has been determined. After examining the bids, all Additive Alternates will be included in the award.

The bid was advertised on May 15, 2026. The City received 11 bids on June 18, 2026, and evaluated the four lowest bid submissions.

Bidders are required to obtain and include with their bids an electronic and original bid security payable to the awarding authority in accordance with Public Contract Code §20170. The bid security is used as an assurance that the bidder will enter the proposed contract in accordance with its bid if the bid is accepted by the public entity. A bidder's security may include cash, a cashier's check, a certified check, or a bid bond in an amount equal to at least 10% of the amount bid. Upon notification, bidders that did not submit an original bid bond, were provided two City business days to submit the original documentation. The original bid bond was not submitted by the second low bidder; as a result, Rosenex's bid is non-responsive.

Additionally, in accordance with the "Standard Specifications for Public Works Construction" (Green Book), a bidder is considered non-responsive for failure to perform at least fifty percent (50%) of the contract work with their own forces. This ensures that the general contractor has a vested stake in the project's outcome. The bid submitted by the third low bidder, Prestige Prime Engineering (PPE), listed a subcontractor performing more than fifty percent (50%) of the work. Therefore, for the reason set forth, PPE's bid is non-responsive.

Staff recommends the City Council adopts Resolutions, in order, to: (1) Approve the plans and specifications for the project; and (2) Find the second and third low bidders non-responsive for the reasons cited above; (3) Award the bid to the lowest responsive, responsible bidder, NGC, in the amount of \$461,737.

CALIFORNIA ENVIRONMENTAL QUALITY ACT:

The proposed Restoration of Open Space, Parks, and Wildfire-Prone Areas is exempt from CEQA Guidelines sections 15307 and 15308 as this action will allow for the maintenance, restoration, enhancement, or protection of the environment. The maintenance and enhancements to existing roads and driveways is exempt from CEQA Guidelines section 15301 which allows for operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures.

FISCAL IMPACT:

The fiscal impact is \$461,737. Sufficient funds are included in Wildfire and Forest Resilience Program (233794PWCP) budget.
