

# AXON Performance

## SURFACE, REVIEW, AND EXTRACT ACTIONABLE PERFORMANCE INSIGHTS

Imagine having a trends report that proactively informs supervisors of officers that are in need of additional support - information that is always up to date and, if surfaced to the supervisor in near-real time, may save not only lives but officer careers. Axon Performance makes this vision a reality by mining your large databases and extracting patterns of behavior to help supervisors identify training and developmental needs.

### FEATURES AND BENEFITS

#### MAKES AUDITING EASY BY AUTOMATING BWC POLICY REVIEW WORKFLOWS

- Configurable workflows that adapt to existing agency review process
- No need for additional headcount – automatically works behind the scenes
- Data stays fresh and up-to-date, enabling proactive and immediate response
- Increase review coverage. System measures compliance of all agency patrol officers wearing BWCs
- Provides at-a-glance policy compliance scoring

#### AUTOMATICALLY MEASURE CAMERA-USE DURING CALLS FOR SERVICE

- Actionable reporting and insights
- Surfaces opportunities for officer training and development
- Anomaly early-detection system

#### PROVIDES BETTER ACCOUNTABILITY TO ENSURE CAMERA POLICIES ARE ADOPTED

- Benchmarking performance within agency peer groups
- Identifies when there's an opportunity to make BWC policy clearer
- Shareable reporting
