Police Chief Paul Marzocca introduced Robert Handy who presented information on the Police Department Study conducted by the Center for Public Safety Management. The Center reviewed several aspects of the department and noted the department is running smoothly with only a few areas in need of improvement. **Councilmember Hutchinson** asked if 5,000 square feet would be a large enough addition to the building for the next twenty years and Mr. Handy stated it would be sufficient if utilized correctly. **Councilmember Norton** stated the study was very well done, and it appears that many of the suggestions can be implemented.

**Councilmember Delgado** asked if it would be possible to add a second level to the facility and Mr. Handy stated his organization does not handle architecture and the city would need to determine that with a professional evaluation. **Mayor Hermosillo** stated she would have liked more data to support the recommendations but believed the study was well done.

**Councilmember Shapera** stated there is a concern with traffic stops taking forty-three minutes to handle and asked Chief Marzocca to look into this matter. **Councilmember Shapera** asked Mr. Handy why his organization evaluates traffic stops differently than other organizations and Mr. Handy stated that traffic stops should be focused on traffic enforcement not necessarily traffic control.
