- 3.9.2 The County will look at the price or offer submitted and will not deduct, add, or alter pricing based on speculation or application of any taxes, nor will the County provide contractor any advice or guidance regarding taxes. If you have questions regarding your tax liability, seek advice from a tax professional prior to submitting your bid. You may also find information at <https://www.azdor.gov/Business.aspx>. Once your bid is submitted, the offer is valid for the time specified in this solicitation, regardless of mistake or omission of tax liability. If the County finds over payment of a project due to tax consideration that was not due, the contractor will be liable to the County for that amount, and by contracting with the County agrees to remit any overpayments back to the County for miscalculations on taxes included in a bid price.
- 3.9.3 Tax Indemnification: Contractor and all subcontractors shall pay all Federal, state, and local taxes applicable to their operation and any persons employed by the contractor. Contractor shall, and require all subcontractors to, hold the County harmless from any responsibility for taxes, damages, and interest, if applicable, contributions required under Federal and/or state and local laws and regulations, and any other costs including transaction privilege taxes, unemployment compensation insurance, Social Security, and Workers' Compensation. Contractor may be required to establish, to the satisfaction of County, that any and all fees and taxes due to the City or the State of Arizona for any license or transaction privilege taxes, use taxes, or similar excise taxes are currently paid (except for matters under legal protest).

3.10 PERFORMANCE

It shall be the contractor's responsibility to meet the proposed performance requirements. The County reserves the right to obtain services on the open market in the event the contractor fails to perform, and any price differential will be charged against the contractor.

3.11 POST AWARD MEETING

Contractor may be required to attend a post-award meeting with the department to discuss the terms and conditions of this contract. This meeting will be coordinated by MCDOT contract administrator of the contract.

3.12 STRATEGIC ALLIANCE for VOLUME EXPENDITURES (SAVE)

The County is a member of the SAVE cooperative purchasing group. SAVE includes the State of Arizona, many Phoenix metropolitan area municipalities, and many K-12 unified school districts. Under the SAVE Cooperative Purchasing Agreement, and with the concurrence of the successful respondent under this solicitation, a member of SAVE may access a contract resulting from a solicitation issued by the County. If contractor does not want to grant such access to a member of SAVE, state so in the bid. In the absence of a statement to the contrary, the County will assume that contractor does wish to grant access to any contract that may result from this bid. The County assumes no responsibility for any purchases by using entities.

3.13 INTERGOVERNMENTAL COOPERATIVE PURCHASING AGREEMENTS (ICPAs)

County currently holds ICPAs with numerous governmental entities. These agreements allow those entities, with the approval of the contractor, to purchase their requirements under the terms and conditions of the County contract. It is the responsibility of the non-County government entity to perform its own due diligence on the acceptability of the contract under its applicable procurement rules, processes, and procedures. Certain governmental agencies may not require an ICPA and may utilize this contract if it meets their individual requirements. Other governmental agencies may enter into a separate Statement of Work with the contractor to meet their own requirements. The County is not a party to any uses of this contract by other governmental entities.
