

Thompson Ranch Road Valley Gutter Removal

Project Number: 62701
Total Budgeted Capital Costs: \$342,000.00
Total Budgeted Funding Sources: \$342,000.00

Department: Development Services
Type: Roadways
Request Groups: To Discuss with Council
Teams: Development Services
Timeline: 08/03/2026 to 06/30/2027

Request description:

The City of El Mirage conducted a traffic safety study along Thompson Ranch Road/El Mirage Road curve due to a series of recent accidents in this area. The final report recommends several safety improvements for this corridor, including signage, striping and delineators. As an extension of that study, comments from the public were requested and there were several concerns regarding the valley gutter that crosses Thompson Ranch Road and its potential to cause vehicles to lose control of their vehicles. This project includes both the design and re-construction of a portion of Thompson Ranch Road to remove the valley gutter and adjust the grading of the street to create a smoother, safer ride.

Capital Costs	FY2027	Total Budgeted
Planning		\$0.00
Design	\$65,000.00	\$65,000.00
Engineering		\$0.00
Land/Right-of-way		\$0.00
Construction/Maintenance	\$277,000.00	\$277,000.00
Other		\$0.00
Total	\$342,000.00	\$342,000.00

Funding Source	FY2027	Total Budgeted
111 - General		\$0.00
114 - Court		\$0.00
121 - Court Enhancement		\$0.00
128 - Towing		\$0.00
131 - HURF	\$342,000.00	\$342,000.00
141 - LTAF		\$0.00
148 - CDBG		\$0.00
149 - Special Projects		\$0.00
156 - Capital Streets		\$0.00
511 - Water		\$0.00
516 - Ranchettes		\$0.00
541 - Sewer		\$0.00
591 - Sanitation		\$0.00
Total	\$342,000.00	\$342,000.00

Additional Information

Benefit to Community Removal of the valley gutter and smoothing the grading of the roadway in the vicinity may help reduce crashes as the vehicles travel through the Thompson Ranch Road curve. Valley gutters are not typically permitted on arterial roadway such as Thompson Ranch Road which includes an average daily traffic volume of approximately 9,300 vehicles.
