

Supporting Passage of the New York for All Act (S.2235/A.3506)

1199SEIU Statement

EC LEG APR 13 '26 am11:54

1199SEIU demands clear boundaries between city, state, and local institutions and federal immigration enforcement agents (ICE). New York For All would protect workers, families, and communities, including citizens and non-citizens alike, from reckless and deadly federal enforcement practices that continue to impact our New York communities including WNY.

1199SEIU stands with Erie County Legislature to pass a resolution supporting the NY for All Act and we urge the NYS legislature to pass and Governor Kathy Hochul to sign the New York for All act now. We demand justice for Nurul.
