STAFF SUMMARY REPORT

To: The Honorable Mayor and Council

From: Sara Dechter, AICP, Comprehensive Planning Manager

Co-Submitter: Kim Musselman, Coconino County Director of Special Projects

Date: 03/21/2019

Meeting Date: 04/01/2019

TITLE:

Update on 2020 Census efforts of the Coconino County-Flagstaff Census team

DESIRED OUTCOME:

Inform the Board of Supervisors and City Council on the progress of the Census Team towards ensuring a complete count in Coconino County, in particular the joint work of the NAU and Communications subcommittees on preparing to work with hard to reach populations among NAU students.

EXECUTIVE SUMMARY:

April 1st 2019 is National Census Day of Action, marking one year out from Census Day 2020. Tonight's presentation will give an update on the 2020 Census coordination and outreach related to recruiting for local Census jobs, completing Census Bureau data requests, and the preparations of the NAU and Communications subcommittees for outreach to hard to count populations.

INFORMATION:

National Census Day of Action

Communities throughout the United States are participating on April 1, 2019 with events, social media and press releases to mark the beginning of the one-year countdown to Census Day. The important work of ensuring a complete count for Flagstaff and Coconino County is just beginning. The Flagstaff City Council and Coconino County Board of Supervisors will be issuing a Joint Proclamation regarding the importance of Census 2020 and support of efforts to ensure a complete count for all of our communities across the County.

Participant Statistical Area Program (PSAP)

The 2020 Census Participant Statistical Areas Program (PSAP) was sent to Coconino County on January 28, 2019. The county-wide response is due on May 28, 2019. The County sent a letter to all municipalities asking for their feedback and participation.

Census Oversight Team

The Census Oversight Team met for the first time on Monday, February 25, 2019. At the meeting they approved a part-time Volunteer and Event Coordinator position that uses funding already allocated. The position was advertised and closed on March 15th. Applications are currently being reviewed by members of the Flagstaff Coconino-County Census Team. The Oversight Team also approved spending up to \$75,000 for a media and public relations contract that will be used to create a schedule and content for a local campaign to begin in summer 2019 and end in June 2020. The next meeting of the Oversight

Team will be held on May 25, 2019.

NAU Communications Capstone

The NAU School of Communication is working on a media and public outreach plan for students on campus as the Spring 2019 capstone course. Thirty-nine students are working in teams to produce a schedule and content for an in-person, advertising, media, and social media campaign that is designed to encourage NAU students to accurately be counted, in the right place, which is the community where they reside on April 1, 2020. Students will present their final proposals on Friday, May 3, 2019 to the Coconino County-Flagstaff Community Census Team from 9.a.m. to 3:30 p.m. Staff will send out a schedule to the City Council and Board of Supervisors, who are welcome to attend.

looks like ?

DEFEND WHAT MATTERS

- Our Homes
- Our Communities
- Our Forests

A century of fire suppression led to today's overly dense forests.

↓
Unnaturally dense forests are prone to uncharacteristically severe wildfires.

↓
Low-severity surface fires play a natural role in our forests—they reduce the risk of severe fires and improve ecosystem health.

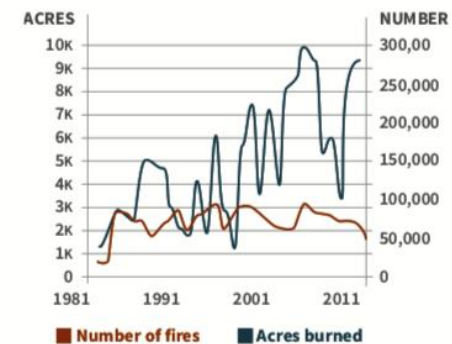

LIVING WITH WILDFIRE

- Recent trends show fires have become larger and more destructive.
- With a drier and hotter climate, fire and smoke will likely increase.
- Land managers and policy makers are working to increase the pace and scale of thinning trees and prescribed fires.
- Thinning small trees and applying prescribed fires across the landscape reduces the risk of damaging wildfires.

From 1982 to 2013 the number of individual fires decreased while the total acres burned increased.

Biomass Issues:

- **Needs to be removed from the site**
 - ⇒ **Cause fire hazard**
 - ⇒ **Attract forest insects**
 - ⇒ **Within 30days (summer) or 60days (winter)**
- **Issues with lack of market and demand for biomass in western Arizona**
- **Stops or delays restoration treatments until the biomass is removed.**
 - ⇒ **Creates bottleneck**

McConnell Sidewalk & Multimodal Improvements Project

Project Mission

The Mission of the Project is to provide the best design solution for multimodal circulation & safety improvements to minimize congestion and confusion of all modes along a section of the McConnell Drive Corridor on NAU's Flagstaff campus.

Project Highlights

- Partnership With NAIPTA
- Partial FTA Grant Funding from NAIPTA to Start Design
- New Transit Station Improvements Planned
- 10' wide Accessible Sidewalk Along N. Side of McConnell
- Connection to FUTS Trail
- ADOT Interstate Off-Ramp Coordination
- Connection to Future ADOT Sidewalk
- New Campus Gateway Entry Opportunity
- Proposed Roundabout & Stop Light Intersections
- Proposed Buffered Bike Lanes
- Cross Agency Stakeholder Collaboration (ADOT, NAIPTA, COF)
- Sinclair Wash Impact & Restoration Opportunity
