Subject: Butler/Sawmill Project

Hi Elaine,

I am writing in support of the proposed multifamily development at the Wendt Business Park. I feel this project will be an excellent addition to the area and is the highest and best use for the site rather than its current industrial use. I also like that it includes adequate parking and is close to law enforcement, good public transportation, shopping and restaurants. It doesn't block views or infringe in any way on other residential neighborhoods. Butler Ave is also a major artery that can easily handle any additional traffic.
