# AMENDMENT

To Whom It May Concern:

I received a call from a detective regarding a warrant in Pima County from an incident that happened in 2014. My vehicle was broken into and contents from my middle console were taken. There happened to be an old business check in there that was later taken to a market and goods were purchased. The check came back as insufficient funds. As soon as I was made aware of the situation, I immediately got the warrant quashed and plead my case to the judge for full dismissal based on the signature on the bottom of the check. The County Attorney was unaware of the "Bad Check Protocol" therefore an additional hearing is scheduled for November 25<sup>th</sup> which I hope to have settled at that point. Please do not hesitate to contact me if you have any questions?

Regards,

Ryan Field
