SCOPE OF WORK

FIREWOOD PROCESSING OF APPROVED LOGS AT THE SHULTZ PASS STAGING AREA

Bid most advantageous to the City of Flagstaff: Bid packages will be reviewed and the contract will be awarded based on cost, qualifications and technical approach that is most satisfactory and advantageous to the City.

Qualifications/Experience: The Bidder must provide proof of past work experience processing firewood. Operations will pose a significant danger to those working at the site. Contractor may be asked to provide additional examples of recent work and references that reflect the job items as shown in the scope of work.

Location: The Shultz Pass Staging Area is located on the west side of Shultz Pass Rd at the intersection with Elden Springs Rd. See below for map.

Scope of Work: All log decks located at the Shultz Pass Staging Area are to be processed into firewood. This process can occur in a variety of ways but must be agreed upon by a City of Flagstaff representative. All processing of logs into firewood must occur within the agreed upon location.

All logs are to be processed into firewood size pieces that can range from 12-18 inches x 4-6 inches.

Contractor has 45 days after final contract signature to initiate work. Processing must be completed within 4 months. A contract extension may be available if the contractor experiences delays beyond their control and/or continues to demonstrate the ability to complete work as soon as possible.

Processed firewood must be piled in a manner that does not prohibit the work of any other activities and is in an organized manner. Firewood piles will be spread throughout the area to allow for safe processing and truck loading operations.

All slash/duff/bark produced because of the firewood production shall be either piled or spread out to a depth and location as agreed upon with a City of Flagstaff representative.

Temporary vehicle gates with fencing must be installed at both ends of the road accessing the landing area that prohibit unauthorized vehicle access. The fence does not need to surround the entire landing.

Contractor is required to provide applicable signs and safety notices to the public.

All activities must follow any USFS restrictions, precautions and Industrial Fire Plan guidelines.

Contractor will be required to submit a fire safety plan to the City of Flagstaff.

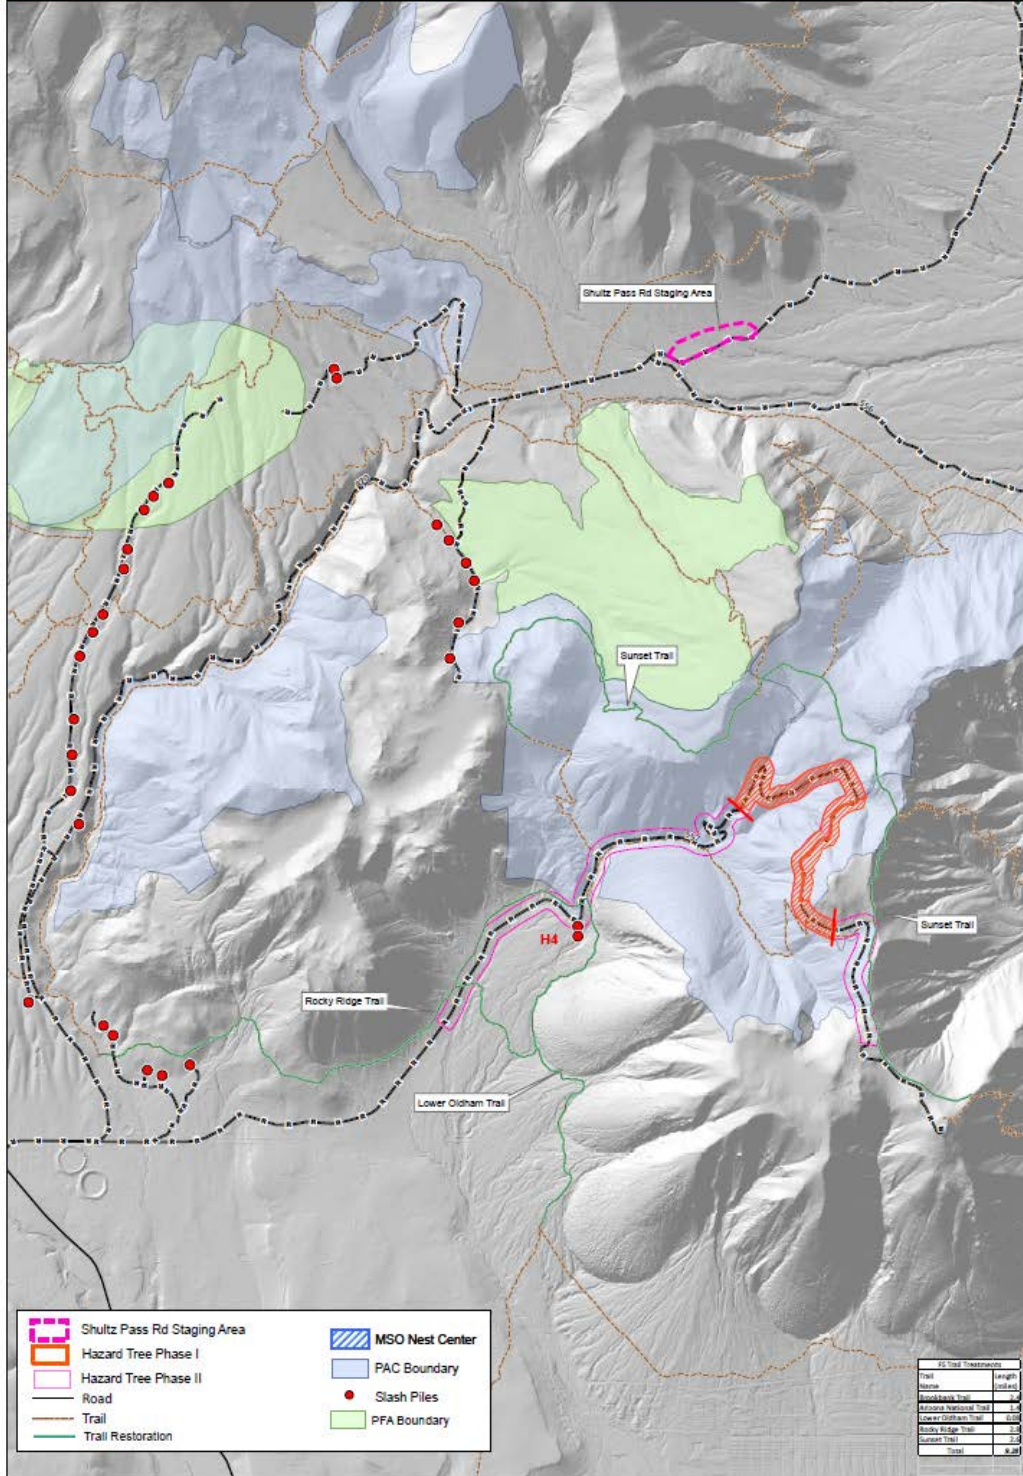

This is the continuation of a fuels reduction project that has had significant resource damage to the area. Every effort to minimize resource damage should be taken. Please take that into consideration. All driving, cutting, loading, processing and unloading practices should be in a manner that cause the least amount of resource damage. Any damage that occurs because of the contractor/operator's negligence that is outside normal practices will be at the contractor's expense.

In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.
