ITEM DESCRIPTION	QUANTITY	UNIT PRICE	AMOUNT
------------------	----------	------------	--------

<b>1) Tree work</b> Evaluate possibility of large spruce closer to highway remaining during construction of sidewalk:	1	\$ 125.00	\$ 125.00
--	---	-----------	-----------

The location for proposed sidewalk was shown to be against trunk and the grade changes were shown with string line to add approximately 10" of compacted material over root system. No buttress roots within 2' of trunk can be cut without destabilizing or adversely affecting the health of tree.

If the tree continued to grow it would break the sidewalk but more likely the tree would decline due to covering the root system and compacting the soil. The impacts would be decreased oxygen and nutrient availability. As well as reduced ability for water to reach roots. Although the tree has grown in a somewhat limited space the proposed changes in the immediate growing environment will require that the tree be removed.

*All balances not paid by the due date are subject to late fees. Please mail checks to the above address. Please use the contact information below for inquiries about this invoice.*

<b>SUBTOTAL</b>	<b>\$ 125.00</b>
<b>TOTAL</b>	<b>\$ 125.00</b>
