PHYSICAL DESCRIPTION

The Herman Building is a one story brick building with a full basement constructed of concrete. Measuring 50 x 100 feet the building faces west onto San Francisco Street forming two commercial bays (25'x 100'). The facade features simple brick detailing and brick parapet cornice. The south half of the facade has been modified and the brick covered.

STATEMENT OF SIGNIFICANCE

In terms of its scale, siting, proportions and materials the Herman Building is quite compatible with the district. It also has the long association with the locally prominent Herman family.
