CCHHS: COVID-19 Weekly Cases

CCHHS: COVID-19 Weekly Cases

COVID-19 Cases by Geographic Area

CCHHS: Hospital Admissions

Weekly Case Counts Among Coconino County Residents:

Hospitalized Coconino COVID-19 Patients by Age

CCHHS: COVID-19 Related Deaths

Weekly COVID-19 Deaths Among Coconino County Residents:

CCHHS: Community Transmission

Cases Reported Week 7 (February 13, 2022 - February 19, 2022):

Community Transmission

Coconino County is currently at a **High** ** level of community transmission.

Indicator	Low Transmission	Moderate Transmission	Substantial Transmission	High Transmission
Total new cases per 100,000 persons in the last 7 days	0-9	10-49	50-99	≥100
Percentage of PCR tests that are positive during the past 7 days	<5.0%	5.0% - 7.9%	8.0% - 9.9%	≥10.0%

CCHHS: Community Vaccination

Weekly Vaccine Counts Among Coconino County Residents:

CCHHS: Variants

COVID-19 Variants:

Total Variants Being Monitored** and Variants of Concern***

****Variants Being Monitored** include variants for which there are data indicating a potential or clear impact on approved or authorized medical countermeasures or that has been associated with more severe disease or increased transmission but are no longer detected or are circulating at very low levels in the U.S, and as such, do not pose a significant and imminent risk to public health in the U.S.

***** Variants of Concern** include variants for which there is evidence of an increase in transmissibility, more severe disease (e.g., increased hospitalizations or deaths), significant reduction in neutralization by antibodies generated during previous infection or vaccination, reduced effectiveness of treatments or vaccines, or diagnostic detection failures.

For more information about SARS-CoV-2 variants, please visit the CDC webpage:
