She indicated that additional trees are always an option but there would need to be additional funding identified. The Downtown Business Alliance has been a funding partner for downtown and staff can reach out to businesses along Fourth Street and in the Southside to determine if there is any interest to partner.

Councilmember Aslan noted that the Arizona Trail runs through the area and suggested a tunnel for hikers to use for crossing John Wesley Powell. Mr. Pedersen indicated that there has been a great partnership with Arizona Game and Fish and it is anticipated that there will be a grade separated trail so hikers and wildlife do not have to cross over.

The following individuals addressed Council concerning the alignment of John Wesley Powell:

- Sean Chartier
- Andrew Richardson
- Kyle Maycumber

The following comments were received:

- This road is terrifying as a four lane road, with medians, bike paths, and speed of 45 mph right in front on my house.
- There are significant safety concerns for kids.
- Please approve the alternate route and eliminate a road like this in a residential area.
- Please explore alternatives routes for John Wesley Powell.
- The neighborhood is concerned about the environment, the loss of wildlife populations, runoff water, and property rights.
- The road will hinder the ability to meet sustainability goals and is inconsistent with the mission statement of the City of Flagstaff.

Written comments in support of finding an alternative route for John Wesley Powell were submitted by Jeff Weingartz and Christy Maycumber.

Council expressed their support for looking at possible alternatives for the alignment of John Wesley Powell.

Councilmember Aslan and Vice Mayor Daggett expressed support for a two-lane road rather than four. Councilmember McCarthy stated that a big issue is that the purpose of the road is to provide infrastructure and roads for development that has not yet been built. It will be important to consider the impacts of the full build out.

Councilmember Salas also noted that the John Wesley Powell extension is part of the Regional Plan to provide transportation and infrastructure for future growth and development.

Councilmember Shimoni asked right-sizing the road and how speed limits are determined. Traffic Engineer Jeff Bauman explained that John Wesley Powell is a minor arterial intended to move people from one part of the city to another. Speed limits are determined by the Engineering Standards and the road would likely be around 35 – 40 mph. Councilmember Shimoni expressed a desire to see speed limits reconsidered and take into account the health and safety of the public.

Moved by Councilmember Regina Salas, **seconded by** Councilmember Adam Shimoni to approve Change Order Number 4 with Peak Engineering, Inc.; in the amount of \$115,353.34, add 540 calendar days to the design services contract, and authorize the City Manager to execute the necessary documents.

Councilmember Shimoni expressed concern about having a bike lane on the road and suggested a buffer up to the bike lanes and adding a protective component of candlesticks with barriers. Mr. Bauman stated that it is something that staff can look into to see what options might be available.

Councilmember Shimoni also requested a reduction of the lanes from six to five by removing one of the left turn lanes. Mr. Barrett explained that removing a left turn lane would lead to a traffic backup that would block the driveway into the Milltown development. Councilmember Shimoni noted that he is open to taking the lane out even at the risk of backing up traffic.

Councilmember McCarthy indicated support for looking at what can be done on Yale for bike lane separation. He noted that the on-street parking on Yale is heavy and the residents in the areas will be very unhappy if the parking is removed.

Councilmember Salas stated that MetroPlan's top priority is pedestrian and bike safety and she appreciates the collaboration with the key partners in this and other projects to further that priority.

Mayor Deasy expressed an interest in considering a live feed recording within the tunnel to enhance safety.

The Council was supportive of staff's recommendations to continue with the project.

A break was held from 6:51 p.m. through 7:01 p.m.

Sue Norris, on behalf of Northern Arizona Institutions for Community (NAIC) addressed Council in support of the alternate response model. She stated that a care facility is needed where people can go to receive appropriate treatment and services. She encouraged the development of mentoring program to provide follow-up services. She also indicated that creating a community of care providers both professional and those with experience in the area will ensure that all areas of representation can be covered.

Matt Handwerk addressed Council asking where a care facility would be located. Mayor Deasy responded that it is still up for discussion.

Council discussed the success of the recent community meeting and the ability to coordinate with community partners and engage in conversations about future funding and enhanced services. They are optimistic about the path forward and the successes the program can bring to the community. They discussed the development of the RFP and a desire to provide flexibility to potential responders to provide creative solutions for Flagstaff. They also acknowledged the need to understand all of the existing services, programs, and projects that service providers in the community already provide. Compiling those services together to identify existing gaps can guide the development of the scope of work for a care center.

The Council was supportive of moving forward with the recommendations of staff.

15. FUTURE AGENDA ITEM REQUESTS

After discussion and upon agreement by three members of the Council, an item will be moved to a regularly-scheduled Council meeting.

Future Agenda Item Request (F.A.I.R.)** A Citizens' Petition requesting "a meeting with City and County representatives to obtain a comprehensive report of what mitigation has been done on the Museum Fire burn scar and watershed and what the outcomes have been, and what the short, mid, and long term plans for funding are."

Mayor Deasy stated that this is something that is already being done and staff is working to identify short-, mid-, and long-term projects. Flooding remains a high priority for the Council. Councilmember McCarthy agreed and suggested establishing regular updates for flooding.

Council was supportive of moving the item forward to a future agenda for discussion.

16. INFORMATIONAL ITEMS TO/FROM MAYOR, COUNCIL, AND STAFF, AND FUTURE AGENDA ITEM REQUESTS

Councilmember Salas reported that she will be attending Rural Transportation Council Strategic Planning Session next week which will include discussion on federal infrastructure and aid funding for Arizona.

Mayor Deasy reported that Monday is Indigenous Peoples' Day and there are a number of great presentations and activities scheduled throughout the day. He reported that there is an ad hoc meeting of the State Legislature that is coming to Flagstaff regarding wildfires and post-wildfire flooding. The purpose is to create awareness of the impacts of these events on Flagstaff and other areas around the state. They will also be traveling to other areas of the state impacted by similar events.
