25 years plus!!!

Rick Tadder has been with the City of Flagstaff for 28 years. He began his career with the City in April 1995. Rick has received numerous awards recognizing his performance in going above and beyond in exhibiting the City's values. He received his first quality service increase in 2002 and another one in 2014. He was recognized as a wonderful outstanding worker in 2006, twice in 2012, and 2016. He received a City Manager's Excellence Award in 2013 and 2014 and Leader of the Year in 2019.

Here's some quotes from his staff... "Rick is a supportive, caring Director. He is a solution focused director who works very hard to ensure the City is financially stable. He is very supportive of his team and staff to ensure they have what they need to be successful and to do their best for our community" and "Rick's leadership, knowledge and hard work are all worthy of the praise he will receive as he celebrates his 28th work anniversary! He makes being a part of "Team Management Services" enjoyable, fun, and rewarding. Thank you for all you do for our team and the City of Flagstaff."

Rick leaves no stone unturned when diving for dollars for this amazing city we call Flagstaff...here he is pictured watering his MONEY TREE! Thanks Rick, for all you do!

25 years plus!!!

When Mike Brehm started at the downtown Library, there was no East Flagstaff Community library. At the time, the library had six stand-alone computers. Since then, Mike has been part of every technology advancement at the libraries. He's been part of adding new libraries to the District, renovating existing libraries, and expanding the library computer network to over 450 internet computers. Among his recent accomplishments are implementing ScannX public scanners at the libraries and coordinating Integrated Library System enhancements. He supports the public computer labs as well as the staff computing environment. His overall success is based on his technology skills, but just as importantly on his people skills. While the computer profession has largely moved toward each person specializing in one area, Mike's broad experience makes him a generalist -- and a valuable asset for the Library IT Team. The downtown Flagstaff library was the first public library in Arizona to offer internet access to the public (circa 1994). An early, local Internet Service Provider -- InfoMagic -- gave the Library 1 personal computer with a 14.4K modem.

Mike was asked to make a presentation about this at the Arizona Library Association conference that year. Other public libraries soon followed. Such were Mike's early contributions to the library.

25 years plus!!!

Michael Stress has been with the City of Flagstaff for 30 years.

Mike continues to be the backbone of Streets operations and leadership. Mike is looked up to by all in Public Works because of his knowledge, devotion, and commitment to success in everything he does. Mike stepped in as one of the City Incident Management Team- Operations Sections Chiefs last year where his leadership shined brighter than ever. Mike's willingness to take on new tasks while developing the next level of operators and leaders throughout the city is truly amazing, I am honored to have him on our team.
