**SCOPE OF WORK/QUOTE**  
(Quote Attached)

**Emergency Hauling Services for Recycle Materials**

Contractor shall provide trucking operations to haul the City's comingled recycle materials from the City's current recycling transfer station to City-specified Materials Recovery Facilities (MRFs) in the Phoenix area. Due to the immediate need of the City to facilitate transportation for its recycle materials, the hauling operation shall begin on May 8, 2023.

The City currently collects and deposits approximately 20-25 tons per day (Monday through Friday) of recycle materials at the City's recycling transfer station. There is limited storage space at the recycling transfer station, so the recycle materials will need to be loaded and hauled away each working day (Monday through Friday), estimated at eight (8) to thirteen (13) hauls per week.

Contractor shall load and haul City recyclable materials to Phoenix area MRFs as identified in writing by the City. It is expected that that the recycled materials will be hauled in either an 18-wheel semi-truck with a walking floor trailer or an 18-wheel truck with a possum belly. It is anticipated that materials will be loaded with a CAT 930 Loader with a 4 Yard Bucket with high dump capacity. The recycle materials will be compacted on the truck as it is loaded to attempt to reach up to the maximum haul weights. The hauling services shall be in accordance with Arizona Department of Transportation (ADOT) weight restrictions and requirements.

The City's current recycling transfer station is located at:

1800 East Butler Avenue  
Flagstaff, AZ 86001

The two potential destination for the recycle materials are the City of Phoenix North Gateway MRF and the WM Northwest Regional MRF.

City of Phoenix  
North Gateway Transfer Station MRF  
30205 North Black Canyon Highway  
Phoenix, AZ 85085

The City of Phoenix North Gateway MRF is only able to accommodate walking floor style transfer trailers.

Waste Management  
Northwest Regional MRF  
19401 West Deer Valley Road  
Phoenix, AZ 85085

The WM Northwest Regional MRF is able to accommodate most types of haul trucks, including end dumps, belly dumps, walking floor trailers, trailers loaded with baled material, and has a working trailer tipper onsite.

Contractor will be provided written notification if additional destinations for the recycle materials are identified by the City.

The materials will conform to any statements made on the containers or labels or advertisements for the materials and will be safe and appropriate for use as normally used. The City's inspection, testing, acceptance, or use of materials shall not serve to waive these quality requirements. This warranty shall survive termination or expiration of the Contract.
9. **ACCEPTANCE:** All materials and services provided by Contract are subject to final inspection and acceptance by the City. Materials and services failing to conform to the Contract specifications may be rejected in whole or part. If rejected, Contractor is responsible for all costs associated arising from rejection.

32. **WARRANTY:** Contractor warrants all work for a period of one year following final acceptance by the City. Upon receipt of written notice from the City, Contractor at its own expense shall promptly correct work rejected as defective or as failing to conform to the Contract, whether observed before or after acceptance, and whether or not fabricated, installed, or completed by Contractor, and shall bear all costs of correction. If Contractor does not correct deficiencies within a reasonable time specified in the written notice from the City, the City may perform the work and Contractor shall be liable for the costs.
