Councilmember Shimoni stated that he is concerned about a three bedroom unit has four bathrooms. It is something that he believes should be addressed in future code amendments.

Senior Planner Genevieve Pearthree stated that the project is taking advantage of the transect zone. The first floor is the garage and bedroom with a bathroom. The second floor is the main living area with a bathroom. The third floor has two rooms with two bathrooms. It is a unique project. Pete Muscarela, on behalf of the developer, added that the concept of the project is that people can come in with three master bedrooms but that would leave no main living space without a bathroom. The bathroom in the main living space is only a powder room with a sink and toilet.

- A. Consideration and Approval of Contract:** Lone Tree Overpass Project - Award of the Second Amendment to the Design-Build Services Agreement to Ames Construction in an amount not to exceed \$5,905,357.86.

Senior Project Manager Christine Cameron stated that the amendment gets through substantial completion on design, so it will include rail, roadway and intersection design, BNSF and Army Corps coordination, the completion of the Economic Impact Study, environmental clearance of properties, public involvement, utility and drainage design, landscape and beautification elements, and right of way relocation and acquisition services.

In January the Council discussed intersection alternatives and that staff would take the time that was needed to really go through the Lone Tree and Butler intersections and design them as needed. However, it is also critical to move forward with the overall design to keep the commitment to the voters and also to keep in step with other projects like the Rio de

Flag. The amendment covers both the work to ensure that the intersection is designed to Council and community standards, and it also allows movement on the overall project.

Staff will be back before Council in May to present the intersection design and it is hoped that the full design will be completed early next year.

Councilmember Shimoni stated that he would like to see a cost analysis with and without the additional lane on the bridge. He also requested a range of modeling that considers human behavior with the intersection options.

**Moved by** Mayor Paul Deasy, **seconded by** Councilmember Miranda Sweet to award the Second Amendment to the Design-Build Services Agreement to Ames Construction in an amount not to exceed \$5,905,357.86 and authorize the City Manager to execute all necessary documents.

SUMMARY  
FINDINGS FOR GRANTING A ZONING MAP AMENDMENT

Councilmember Sweet stated that she is disappointed to know that no one attended the public outreach session. She asked if the dog park would be open to the public. Ms. Lee stated that there was extensive outreach to notify about the public session. They sent notifications to every single tenant and property owner within the area, there just was not high interest. With regard to the dog park, it would likely be open to the adjacent apartment communities but not to the general public because of maintenance constraints.

Councilmember Sweet asked how recycling would be promoted. Ms. Lee explained that there is a Materials Management Plan that will be provided upon lease signing. They will also be doing recycling during the construction period.

Councilmember McCarthy asked about the zoning of the parcel to the east of the development. Ms. Antol stated that some is research and development as well as rural residential. Councilmember McCarthy noted the give and take related to protecting light industrial land and providing housing supply.

Councilmember Shimoni stated that he appreciates that affordable housing and rainwater harvesting are being included in the development. He expressed concern about the loss of light industrial zoning. He also noted concerns with the number of parking spaces and that there is no solar integrated into the project.

Councilmember Salas stated that she takes rezoning light industrial to high density residential very seriously while also being very mindful of the housing emergency. She believes that the development is an appropriate land use for housing and offered appreciation for the community benefits included in the project.

Vice Mayor Daggett and Mayor Deasy both offered their appreciation to the developer for listening to and anticipating what the community needs are.

Council requested that the southern part of the pollinator garden be converted into a community garden space. Ms. Lee stated that it is something that can be worked into the project.

There being no further public comment, Mayor Deasy closed the public hearing.

**Moved by** Vice Mayor Becky Daggett, **seconded by** Councilmember Miranda Sweet to read Ordinance No. 2022-05 by title only for the first time.

Consideration and Adoption of Ordinance No. 2022-06:** An ordinance of the City Council of the City of Flagstaff, authorizing the City of Flagstaff to accept a donation of .29 acres of vacant land along the west side of Switzer Canyon Drive, parcel no. 101-29-050 (Tract E); delegating authority to complete the transaction; providing for repeal of conflicting ordinances, severability, authority for clerical corrections; and establishing an effective date

Real Estate Specialist Carmen Pryer provided a PowerPoint presentation that covered the following:

SWITZER CANYON DR DONATION

Vice Mayor Daggett asked how the land would be used and maintained. Ms. Pryor stated that the use would be for a possible FUTS trail or sidewalk leading up Switzer Canyon and it would be maintained by Streets and Parks. **13. FUTURE AGENDA ITEM REQUESTS**

*After discussion and upon agreement by three members of the Council, an item will be moved to a regularly-scheduled Council meeting.*

- A. Future Agenda Item Request (F.A.I.R.):** A request by Mayor Deasy to place on a future agenda a discussion regarding legal violations of permittees as grounds to suspend or terminate building permits or public construction contracts.

Mayor Deasy stated that these are a spin off from the prevailing wage discussed a few weeks prior.

Matt Capalby addressed Council thanking them for considering the item. He stated that a prevailing wage ensures that there is a certified payroll and everyone on the job has the licensing to do the work. There has been a growth in labor brokers who recruit laborers who are looking to work under the table for cash. Suspending permits is a way to ensure proper qualifications are in place for workers.

Mayor Deasy stated that it is an issue that affects small businesses and workers who do not have proper benefits. This would be a way to prevent tax fraud, protect workers, and protect businesses.

There was requisite Council support to move the item to a future agenda for discussion.

- B. Future Agenda Item Request (F.A.I.R.):** A request by Mayor Deasy to place on a future agenda a discussion regarding apprenticeship requirements for public construction contracts.

Mayor Deasy stated that apprenticeship requirements have been established in other states for public contracts. For example, 3% of workers would be required to have apprenticeship licenses to ensure that trade skills are developed within the community.

Councilmember Salas stated that she is working to establish an apprenticeship training center and this is a good step toward that effort. She suggested that it be considered as an incentive of some kind.

Matt Capalby addressed Council in support of advancing the matter to a future discussion. He stated that public projects could be training grounds for workforce development. Large infrastructure projects are coming forward and there needs to be local workers for them.

There was requisite Council support to move the item to a future agenda for discussion.

**14. PUBLIC PARTICIPATION**

None

**15. INFORMATIONAL ITEMS TO/FROM MAYOR, COUNCIL, AND STAFF, AND FUTURE AGENDA ITEM REQUESTS**

Councilmember Salas reminded the public to participate and provide input on the future Thorpe Park Annex through the survey and public meetings.

Councilmember McCarthy reported that the FMPO will be meeting later that week as will the Transportation Commission.

Councilmember Shimoni noted his appreciation for the City Manager reports and the information that is being shared. He expressed concern about removing the mask mandate and encouraged people in the community to continue to be diligent. He offered gratitude to the snow operators for their work in recent storms. He also requested a policy discussion about prioritizing bike lanes before vehicle roads for snow plowing. He reported that he was able to watch the last two Flagstaff High School Lady Eagles basketball games which were great. He thanked the Public Affairs team for getting the city set up on Instagram for social media.

Mayor Deasy offered that there are a number of open seats on many of the commissions and he encouraged the public to consider applying to participate in one.
