# 25 years plus!!!

Angel Baca is celebrating 25 years of dedicated and continuous service to the City of Flagstaff. Angel came to Flagstaff as a young teenager. He has been a wonderful and versatile co-worker over his winding path through the City. Angel started with the City in 1998 as a materials technician in the Testing and Materials Lab Section of the Engineering Division. Angel worked his way up through the ranks of the Materials Section to eventually be in charge of running the City's Materials Lab. In 2005 Angel moved from the Materials Lab to the Inspections side of the section, as an Inspector I. Later he became the Inspection Supervisor and now leads the Inspections Program as the Construction Manager.

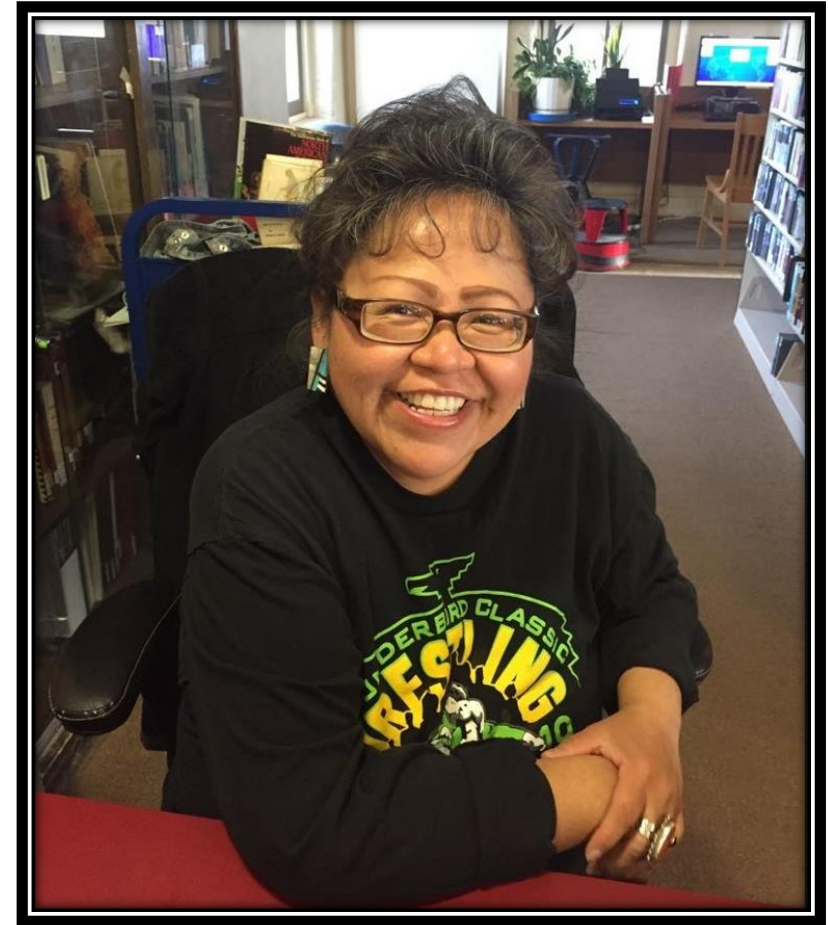

Angel is known throughout the City and construction industry as a friendly, fair and compassionate partner. Contractors for years have asked for Angel to be assigned to their projects, not because he is an 'easy signoff' (he isn't), but because he'll work with them to solve problems and get their projects successfully completed.

Angel was integrally involved with assuring the quality and compliance of a vast number of projects which have transformed Flagstaff over his tenure. Some of the notable projects in which Angel played an integral part include the Marketplace at the Mall, Fourth Street Overpass, Butler and Ponderosa Parkway Intersection and for many years he was known as the "Downtown Inspector" overseeing some of the most difficult and complex projects including Heritage Square and major improvement projects transforming South San Francisco, Beaver and Leroux Streets.

Trish resolves matters with a cool and calm demeanor and is always willing to help with tasks that arise including offering recommendations and implementation of library programs and grant monies. Trish is an invaluable employee to the Flagstaff City-Coconino County Library System.

# 25 Years Plus!!!

Deputy Chief Mark Wilson is celebrating 31 years of service with the City of Flagstaff's Fire Department this month. Mark was hired in 1992 as a firefighter and has promoted up through the ranks as an Engineer, Captain, Battalion Chief, BC of training, and Deputy Chief in 2020. Among Mark's many contributions is his leadership in support services. From staffing and equipping our new and successful CARE program, to capital planning, to implementing Performance Based Budgeting, he has been key to our success. He recently reorganized the administrative function of the City and the Summit Fire and Medical Districts to gain greater efficiencies and professional development opportunities for our team. Outside of work Mark has many roles: husband, father, sports coach, church leader, hunter, fisherman, etc. All of which he does with great pride and commitment. Public service definitely runs in the Wilson blood as we are blessed to have his brother Dave as a Battalion Chief, and Mark's son, Kyle as a new firefighter with the department. FFD is proud of Mark's success and are so very happy to celebrate his 30 years of service with us.

Chief Wilson is a critical component of our Command Team. His devotion to the Department, Team Flagstaff, and the community is evident each day. His creativity in the administrative support services function of our department has been remarkable and an important part of our success.
