RE: **New Application – Series 6 Bar Liquor License Application– The Corner Tavern**

On October 20, 2023, I initiated an investigation into the new application for a series 6 (Bar) liquor license filed by Craig Bouchard (Agent and Controlling Person) and Terri Bouchard (Controlling Person). This is a new application and the application number is 259315. It is for The Corner Tavern located at 102 E Route 66, Flagstaff, AZ.

I conducted a query through local systems and public access on Craig. I discovered no derogatory records. I conducted a search for current or historical liquor violations on the business and found no violations.

I found evidence that the applicant has taken the mandatory liquor license training. This business is not located within 300 feet of a school or church.

A representative for the business will be present for the council meeting on November 7, 2023.

STAFF SUMMARY REPORT

To:	The Honorable Mayor and Council
From:	Katie Brandis, Dispatch Supervisor
Date:	10/30/2023
Meeting Date:	11/07/2023

TITLE:

Consideration and Approval of Contract: Cooperative Purchase contract with Insight Public Sector, Inc., in the amount of $50,959.45 for SPIDR Tech victim notification software.

STAFF RECOMMENDED ACTION:

1. Approve the Cooperative Purchase Contract with Insight Public Sector, Inc., in the amount of $50,959.45 for the SPIDR Tech victim notification software; and
2. Authorize the City Manager to execute all necessary documents.

Executive Summary:

SPIDR Tech is a software program that works directly with the Computer Aided Dispatch (CAD) system and the Records Management System (RMS) to provide victims of crime automatic updates pertaining to their case. It starts at the creation of the call by sending a text message to the caller with the event number, it will update them throughout the call with the responding officers name and contact information, if there is a delay due to priority calls it will send the caller a notification advising of the delay. If a case is referred to detectives it will update the caller with the detective's name and contact information. When the case is closed it will send the caller a survey asking for feedback on how their experience was with the Flagstaff Police Department (FPD). SPIDR Tech is completely customizable so it can fit the needs of the FPD. It provides better customer service by providing up to date information to the caller about their case. It will also reduce administrative call volume into the Emergency Communications Center from customers needing to follow up on their cases. The budget team has approved the cost of the software however it is reimbursable through a state grant that can be applied for once the program is implemented.

Financial Impact:

The cost of the software was approved in FY 2023-24 Budget and is fully reimbursable by a state grant once implementation is complete. This software purchase was budgeted for in the Flagstaff Police Department budget in account 001-04-061-0224-2-4231.

Policy Impact:

None.

Connection to PBB Priorities/Objectives, Carbon Neutrality Plan & Regional Plan:

Priority Based Budget Key Community Priorities and Objectives

Safe and Healthy Community: Providing public safety services with adequate resources, staff & training responsive to the community's needs.

Carbon Neutrality Plan

DD-2: Assist in providing public safety services with adequate resources and staff time in ensuring that our neighborhoods are safe for community members.

Regional Plan

Goal NH. 1. Foster and maintain healthy and diverse urban, suburban and rural neighborhoods in the Flagstaff Region.

Has There Been Previous Council Decision on This:

No.

Options and Alternatives:

1. Approve the Cooperative Purchase Contract with Insight Public Sector, Inc. for the SPIDR Tech victim notification software in the amount of $50,959.45 which will be reimbursed by a state grant; or
2. Reject the Cooperative Purchase Contract with Insight Public Sector, Inc. in the amount of $50,959.45. This option is not recommended by staff as there is a significant benefit to communicating with the public and reducing non-emergency call volume in Emergency Communications Center.

Background/History:

The Emergency Communications Center (ECC) is the Primary Service Answering Point (PSAP) for Northern Arizona. The ECC answers approximately 280,000 emergency and non-emergency calls each year. Many of the non-emergency calls for service are for customers wanting updates on their case or needing to know the officer that responded. Implementing the SPIDR Tech software will reduce the number of the administrative calls because it keeps the customer updated as their case progresses. We would be providing a better customer service experience because the customer will know which officer is in charge of their case and how to contact them with follow up questions. The communication process is completed when the customer receives a feedback survey that we can use to improve our customer service.

The Purchasing section has reviewed the competitively solicited cooperative purchase options available and confirmed that the Cobb County Purchasing Department conducted a competitive and open procurement process to establish a national cooperative contract with OMNIA Partners, through Request for Proposal Solicitation No. 23-6692 that resulted in Contract No. 23-6692-03 with Insight Public Sector, Inc. The cooperative purchase contract has been verified as valid and appropriate for the purchase of the specified equipment and software and presents the best value to the City.

Key Considerations:

- SPIDR Tech is fully customizable to fit the needs of the Flagstaff community and the FPD.
- The cost is reimbursable by a state grant once it is implemented.
- The software automatically notifies the victim any time there is a change in their case.
- Reduces the amount of administrative calls coming into the Emergency Communications Center.

Community Benefits and Considerations:

The Emergency Communications Center (ECC) values providing exceptional customer service to community members. The purchase of SPIDR Tech allows us another way we can communicate with the community and receive feedback from them.

Community Involvement:

The survey that SPIDR Tech provides as part of their victim notification software allows the community to give positive or negative feedback to the FFD.

Insight Response:

Insight provided a cover letter per RFP requirements; it can be found at the beginning of our proposal document.

2. Executive Summary

The Proposer shall provide an Executive Summary that presents in brief, concise terms a summary level description of the contents of the proposal.

Insight Response:

Insight has carefully read the RFP and we are confident in our ability to exceed the requirements. Insight approaches opportunities to provide solicited services by assigning teams of specialists whose experience and knowledge of government contracts allows them to develop complete solutions to support the entire lifespan of our clients' IT assets.

We understand that operational functionality is a critical component to the success of contracts for any organization similar to Cobb County and OMNIA Partners. As a result, we have created back-office teams dedicated to each aspect of public sector contracts, including-but not limited to-compliance, credit, invoicing, procurement, and publisher paperwork.

As Insight Public Sector is entirely focused on providing IT solutions to public sector clients, we have the resources, processes, and flexibility to provide all levels of government and education clients with equal benefits and attention. We leverage the same tools and cost-saving techniques that utilize economies of scale, which allows us to provide consistent levels of service to large and small participants alike. Furthermore, we understand that budgets represent taxpayer money, and that the responsibilities of procurement and respecting manufacturer and publisher compliancy rules are more heavily weighted as a public sector participant than in a commercial environment. Insight's compliance team assures you meet these commitments.

Experience has taught us that certain segments of our public sector client base require specialized procurement options. Our approach is to ensure that each client receives the individual attention they need; as a result, Insight has divided our resources into vertical segments to match each client (e.g., government and education). This organizational structure ensures each vertical receives maximum support from Insight resources who understand the specific needs of each vertical.

Insight uses eCommerce tools to help our clients reduce cost, increase operational efficiency, eliminate errors, and control rogue purchases. Tools such as our web portal, built-in workflow, on-demand reporting, and license proofs provide equal service levels and cost-saving opportunities regardless of the size of the contract participant, as all our tools are scalable to size. Our eCommerce solutions provide an easy and effective way for us to keep our clients up to date with technological changes.

Although operational functionality and eCommerce are critical components of our approach to providing solicited services, the most important component of Insight's overall approach to this contract is our people. We are proud of the depth of experience and knowledge we make available to Participating Public Agencies through our account teams. Each employee at Insight either supports clients directly or supports someone else who does; we are all equally committed to our clients' satisfaction and success.

Insight's nationwide presence, which includes over 50 offices and over 200 public sector-focused sales and support teammates across the country, makes us the best choice for this contract and provides the 'feet on the street' necessary to make this Master Agreement more successful than ever before. We are 100% dedicated to OMNIA Partners members' continued growth and success.

Insight is offering Cobb County, OMNIA Partners, and all Participating Public Agencies every product and service available through Insight. Our offering also includes nationwide full life-cycle service offerings that allow us to provide out-sourcing of entire IT departments as well as services that allow us to manage a client's technology assets from inception to retirement. Insight has decades of experience providing customized solutions nationally for our clients.

Insight, Cobb County, and OMNIA Partners: A Growing IT Partnership

Insight's core values of hunger, heart, and harmony emphasize a deep commitment to service across all aspects of our business. Insight regularly evaluates the status of the legal proceedings in which we are involved to assess whether a loss is probable or there is a reasonable possibility that a loss, or an additional loss, may have been incurred to determine if accruals are appropriate. If accruals are not appropriate, we further evaluate each legal proceeding to assess whether an estimate of possible loss or range of possible loss can be made. Although litigation is inherently unpredictable, we believe that we have adequate provisions for any probable and estimable losses. It is possible, nevertheless, that our consolidated financial position, results of operations, or liquidity could be materially and adversely affected in any particular period by the work required pursuant to any legal proceedings or the resolution of any legal proceedings during such period. Product Pricing Discount Structure

By offering a discount from the Insight list price, we are providing Participating Public Agencies additional discounts against an already aggressive, market-driven, value-based pricing structure that is continually being benchmarked against our competitors within the industry. Our list price is publicly available on our website and is dynamically updated in real time.

We have provided a list of all manufacturers, publishers, and suppliers we currently offer in Section 9 – Appendices, Appendix C. The corresponding discount percentages will be applied to a manufacturer's/publisher's offering based on the pricing structure outlined above. This list represents those manufacturers and publishers Insight is currently authorized to sell. As Insight continues to expand its product portfolio, additional manufacturers and publishers will be added. We will be happy to provide Cobb County, Participating Public Agencies, and OMNIA Partners with a current list at any time throughout the term of the contract.

Please note that, at this time, Insight is unable to sell Apple solutions to K-12 schools, since Apple does not currently allow resellers to sell on their behalf to K-12 schools.

REPORT OF IN DEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors
Insight Enterprises, Inc.:

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Insight Enterprises, Inc. and subsidiaries (the Company) as of December 31, 2021 and 2020, the related consolidated statements of operations, comprehensive income, stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2021, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2021, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2021, based on criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 18, 2022 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Dai for Opinion

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and d1sc1osures 1n tne conso11e1ated 11nanc1a1 sratements. our audits also 1nc1uciec1 evaluating tne accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts er disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgment. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicatinQ the critical audit matter below, providinQ a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Evaluation of revenue recognition

As discussed in Note 1 to the consolidated financial statements, the Company recognizes revenue when it satisfies a performance obligation by transferring control of a product or service or by arranging for the sales of a vendor's product or service to a client. The Company measures

revenue based on the consideration received in a contract with a client, and excludes any sales incentives and amounts collected on behalf of third parties. The Company offers hardware and software products, as well as services. Given the number of product and service offerings, significant judgment is exercised by the Company in recognizing revenue, including the following decisions:

Determining the point in time when a customer takes control of hardware.

Determining the point in time when the customer acquires or renews the right to use or copy software under license and control transfers to the customer.

Evaluating the Company as either a principal or an agent for hardware and software products and services, and the related recognition of revenue from the customer on a gross or a net basis.

Determining an appropriate pattern of revenue recognition for service performance obligations.

We identified the evaluation of revenue recognition as a critical audit matter because the audit effort to evaluate the Company's revenue recognition judgments, including those noted above, was extensive and required a high degree of auditor judgment.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls over the revenue recognition process, including controls related to the timing and pattern of revenue recognition and gross versus net revenue recognition. As part of testing the Company's internal controls, we also involved information technology (IT) professionals with specialized skills and knowledge, who assisted in testing of general IT controls over significant systems and the evaluation of system interface controls and automated controls designed to determine the existence, accuracy, and completeness of revenue. We evaluated the Company's significant accounting policies related to its product and service offerings by reviewing the terms of certain vendor and customer contracts and comparing the policies to the revenue recognition standard. We selected a sample of revenue transactions and performed the following for each selection:

Obtained evidence of a contract with the customer.

- Compared the amounts recognized and timing of revenue recognition to underlying documentation, including purchase orders, shipping documentation, and evidence of payment.

Evaluated the Company's application of their accounting policies to determine the timing and amount of revenue to be recognized.

Tested the presentation of revenue as gross or net by comparing the Company's gross or net presentation to the attributes of the underlying vendor support and the Company's accounting policy.

/s/ KPMG LLP

We have served as the Company's auditor since 1990.

Indicate how, if at all, pricing changes when using the diversity program. If there are any diversity programs, provide a list of diversity alliances and a copy of their certifications.*

Insight Response:

While Insight is not a minority, veteran or woman-owned small business, we are committed to the development and use of small businesses, including those owned by minorities, women, and veterans, when it makes good business sense and benefits all parties.

Insight recognizes that diversity sourcing is a key business driver for many of our clients. Insight's strategic partnerships can help clients meet these goals. We also recognize that each client brings a different set of requirements as it relates to their current diversity program and procurement process.

Insight offers a variety of programs that allow clients to leverage Insight's value-added services and global buying power, while having the opportunity to work directly with one of our certified diversity partners.

Insight Response:

Insight has relationships with dozens of subcontractors, some of whom do meet minority-owned standards. At this time, since we do not know what specific services will be requested, we do not have any subcontractors to name in our response. In general, we use subcontractors to augment our services staff so that we are able to assist clients throughout the country. Subcontractors are available for such projects as Microsoft consulting services, cabling, installation of communication systems in fleet vehicles, professional services, staffing, asset disposal, break/fix, and help desk services.

Insight has a formal subcontractor selection process in place which includes an in-depth business case review of the potential subcontractor by Senior Services Management, credit and background checks and execution of a Master Subcontractor Agreement. This review includes a thorough understanding of the subcontractor's capabilities, the ability of the subcontractor to meet Insight and client requirements, and a review of business references. Periodic audits are performed to ensure subcontractors are in compliance with Insight's contract and high performance standards.

Single Source Provider & Super Solution Integrator

When evaluating IT suppliers, it is essential to look at the entire procurement process. IT management includes more than just buying a product. The value of the reseller relationship - the ease of having one contact to handle all your IT needs, from product procurement to services to asset disposition is a key component to your success. Using Insight as your single-source provider for IT products and services means you have only one relationship to build and maintain. It eliminates the need for multiple purchase orders, invoices, and chances for error. Today, organizations are facing more challenges than ever before. Organizations are assessing how to optimize IT operations and free up funds for the innovation required to manage today and prepare for a future that could be much different than anticipated.

Manufacturer & Publisher Relationships

Insight receives the best pricing offered by the central IT hardware manufacturers and publishers, such as HP, Inc., IBM, Lenovo, VMware, and Cisco. These strong relationships allow Insight to acquire better product allocations and higher levels of support than many of our competitors. Insight is proactive and aggressive in our efforts to lower our clients' costs continuously. We will employ our extensive manufacturer and publisher relationships to negotiate on our clients' behalf to reduce costs.

DISTRIBUTION I LOGISTICS

A. *Each offeror awarded an item under this solicitation may offer their complete product and service offering/a balance of line. Describe the full line of products and services offered by supplier.*

Insight Response:

Insight is offering Cobb County and all Participating Public Agencies our complete portfolio of hardware, software, cloud solutions, and services, including but not limited to the following.

Hardware Product Offerings

We offer products from hundreds of manufacturers, including such industry leaders as Cisco, Dell/EMC, HP Inc., Lenovo, Hewlett Packard Enterprise Company ("HPE"), NetApp, Apple, Microsoft, and IBM. Our scale and purchasing power, combined with our efficient, high-volume, and cost-effective direct sales and marketing model, allow us to offer competitive prices. We believe that providing choices from multiple partners enables us to better serve our clients by providing various product solutions to address their specific technology needs.

In addition to our distribution facilities, we have "direct-ship" programs with many of our partners, including manufacturers and distributors, allowing us to expand our product offerings without increasing inventory, handling costs, or inventory warehousing risk exposure. As a result, we can offer billions of dollars of virtual inventory products to fulfill our performance obligations to our clients. Convenience and product options among multiple brands are vital competitive advantages compared to manufacturers' direct selling programs, which are generally limited to their brands and may not offer clients a complete or best-in-class solution across all product categories.

Our Hardware Life Cycle Services consists of sourcing, procuring, staging, configuring, integrating, testing, deploying, refurbishing, and redeploying IT products spanning endpoints to infrastructure, regionally, or across the globe via the Insight footprint and our extensive engaged network of suppliers.

Software Product Offerings

Our clients acquire software applications from us through licensing agreements with software publishers or boxed products. We offer products from hundreds of publishers, including such industry leaders as Microsoft, VMware, Adobe, IBM Software, Symantec, and Citrix. As software publishers choose different models for implementing licensing agreements, organizations must evaluate the alternatives to ensure that they select the appropriate contracts and comply with the publishers' licensing terms when purchasing and managing their software licenses. With many publishers now offering public cloud-based software solutions in place of licenses consumed on-premise, we expect to continue migration to the cloud-based software alternatives. Our software lifecycle services consist of portfolio management, compliance, integration, and adoption, on-premise or in the cloud, regionally or globally.

Intelligent Edge

Traditional architectures are focused on the data center. Modern architectures incorporate cloud and hybrid cloud, converged solutions, and potential solutions like containers. The intelligent edge extends the perimeter to new places -factory floors, cornfields, retail stores, wind turbines, surgical units, coal mines, and nearly anywhere you could imagine. We architect and deliver edge solutions spanning network, compute, storage, and artificial intelligence ("AI") and machine learning ("ML") to drive value and deliver ongoing support for the IoT.

Although some aspects of the intelligent edge mirror traditional approaches, there are many novel considerations. Go from idea to execution with Insight. Our team can support clients using case identification, strategy, architecture and design, deployment, testing and optimization, and monitoring and management -the full spectrum of realizing your intelligent edge.

Data & Artificial Intelligence (AI)

B. *Describe how supplier proposes to distribute the products/service nationwide. Include any states where products and services will not be offered under the Master Agreement, including U.S. Territories and Outlying Areas.*

Insight Response:

Insight maintains a primary inventory of $70 to 80 million on hand in Hanover Park, Illinois. This inventory is not shared or divided among other geographic offices. Many of our nationwide competitors can claim to have larger inventories; however, when it is distributed to hundreds of locations or franchises across the country, the inventory is much smaller, diffused, and harder to consistently allocate to our clients. Insight works closely with our major business partners to privatize inventory and will stock additional products to meet specific project and rollout schedules.

Insight's 380,000 square foot distribution center and configuration lab is a state-of-the-art facility ensuring maximum efficiency. The latest innovations in radio frequency monitoring, bar coding, batch/zone picking, and automated product movement, allow Insight to ship over 4,500 orders per day.

Insight also can draw an additional $2 to $3 billion in inventory from several nationwide distribution centers. Insight is currently online (real time) with Ingram Micro and TD Synnex. We can access their inventories from our systems to view additional inventory. Many dealers prefer to wait and receive their own allocation of product from the manufacturer. At Insight, we view second sourcing as an intangible value added that helps us deliver product faster and make our clients more efficient. We can find any product, anywhere in North America.

Product from these locations can be drop shipped and sent via overnight carrier if requested by our clients.

As a product becomes increasingly difficult to procure, Insight will ask for and receive the distribution data history for the product and call all the companies that obtained shipments from the manufacturer.

Finally, Insight has established a network of distribution partners that we utilize on a regular basis. Our purchasing staff will call this channel of contacts and work to procure product when necessary.

C. *Describe how Participating Agencies are ensured they will receive the Master Agreement pricing; include all distribution channels such as direct ordering, retail or in-store locations, through distributors, etc. Describe how Participating Agencies verify and audit pricing to ensure its compliance with the Master Agreement.*

Insight Response:

Insight takes contract compliance very seriously, and we have a dedicated Contract Compliance team that sits under Legal to ensure we're adhering to the terms and conditions of our contracts.

From a systems perspective, Insight has a Contracts Module that is designed specifically to reduce possible human error. The system calculates the contract sell price, preventing anyone from charging more than the approved contract price. This function disallows the sales team from saving a quote or order unless the price is at or below the contracted price. Insight's Compliance team is the only team capable of assigning a contract to an account. The system, through a series of rules, automatically assigns the products to the contract. Sales cannot misrepresent that a specific product is on contract when it is not. The Compliance team audits the sales activity and reviews every new account for accuracy (so that the contracts related are accurate).

Insight does not have any retail or in-store locations, nor we do sell our products, services, and solutions through distributors. All sales will be made directly through Insight via our sales teammates.

D. *Identify all other companies that will be involved in processing, handling or shipping the products/service to the end user.*

Insight Response:

Products shipped from Insight's Distribution Facility in Hanover Park, Illinois, can be shipped via UPS, FedEx, Truckline, major air/heavy freight carriers such as Ceva, PGL, or a client-requested carrier. The number of business days for delivery after receipt of order varies based on the method in which the product was shipped (i.e., UPS, FedEx, etc.) and the priority it was shipped.

Due to our large shipping volume, Insight has negotiated some of the best rates with many of the carriers listed. Insight will ship products using the most aggressive priced carrier depending on poundage and scheduled delivery. Insight will adhere to specific client requests to use a different carrier and/or upgrade to a "Priority" shipment.

Because Insight cares about the security of our clients' shipments, we have instructed our delivery agents not to leave packages at a client location without a signature. Clients may choose to have their order delivered to an alternate location if they will not be available to receive it.

For hardware, we have "direct-ship" programs with many of our partners, including manufacturers and distributors, allowing us to expand our product offerings without increasing inventory, handling costs or inventory risk exposure. As a result, we can provide a product offering with billions of dollars of products in virtual inventory. Convenience and product options among multiple brands are key competitive advantages compared to manufacturers' direct selling

programs, which are generally limited to their own brands and may not offer clients a complete or best-in-class solution across all product categories.

Insight will provide free basic best way ground shipping for all applicable orders placed under the Master Agreement to any Participating Public Agency within the continental United States.

Should a Participating Public Agency require expedited and/or a customized shipping solution or if the product is considered heavy weight, we will provide a written quote of estimated freight charges prior to order placement. As standard business practice, shipments are delivered Monday through Friday, with no deliveries on weekends or holidays. We do offer limited Saturday delivery service; however, this service is not available for all products, from all shipping warehouses, or for all delivery locations. There is no online option for setting a shipment for Saturday delivery. In order to check on the availability of Saturday delivery for your desired product, please call us at **1.800.INSIGHT** (1.800.467.4448).

E. *Provide the number, size and location of Supplier's distribution facilities, warehouses and retail network as applicable.*

Insight Response:

Insight provides inventory management and warehousing services from our Insight-operated Distribution and Integration Facilities in the United States, Canada, UK, and Germany. Our facilities ensure maximum efficiency, boasting the latest innovations in radio frequency monitoring, bar coding, batch/zone picking, and automated product movement, allowing us to ship over 4,500 orders per day in the U.S. alone.

Insight's flagship Hanover Park facility houses our primary inventory of $70-$80 million in products from over 1,500 leading manufacturers. Our inventory is not shared or divided among other geographic offices. At 380,000 square feet, this location provides us the ability to offer our clients enhanced lifecycle services. The largest of its kind, we offer warehousing, integration, and break/fix services.

Insight's acquisition of PCM in 2019 complemented our supply chain optimization solution offering and added scale by increasing our distribution center footprint in North America. Facilities included with the acquisition include:

- Lewis Center, OH: 84,640 ft2
- Worthington, OH: 126,000 ft^2
- Fontana, CA: 4,000 ft^2
- Edmonton, AB: 20,500 ft^2
- Calgary, AB: 10,750 ft^2

These facilities allow for a combined 594,000+ ft^2 across North America.

vii. *Ongoing marketing and promotion of the Master Agreement throughout its term (case studies, collateral pieces, presentations, promotions, etc.).*

Insight Response:

Insight will continue to work closely with OMNIA Partners in the development of a mutually agreeable marketing plan. The following is a general overview of our marketing commitment.

Insight Response:

As an existing contract holder with OMNIA Partners, Insight has spent the last thirteen years actively marketing and promoting our contract to Participating Public Agencies. During that time, over 5,000 registered agencies have chosen to purchase from us through our OMNIA Partners contract. Insight is completely committed to the marketing and success of this contract and will continue in our go-to-market sales strategies including:

- Insight will seek to leverage this contract with our more than 60,000 current public sector clients by utilizing our existing sales teams and processes, as well as through the marketing activities described elsewhere in this response.
- Insight sales teams will proactively engage the local vendor community to promote this contract's value proposition and its specific value to their relative local contractual situations.

The following is a list of SLED multi-state cooperative contracts held by Insight. This list does not include contracts where Insight has been named as an authorized reseller on a manufacturer-held contract, as we are not the primary contract holder for such contracts.

- NASPO ValuePoint Software VAR
- Equalis Group
- NASPO ValuePoint Cloud Solutions
- Sourcewell (Cisco & Microsoft Unified Communications Solutions)

While we understand that our existing contracts may be viewed as an obstacle to our ability to succeed in and broaden this contract, Insight believes our existing contractual relationships are actually a benefit to OMNIA Partners. We will seek to leverage the existing relationships that we have developed under these contracts to:

- Transition clients over to the OMNIA Partners contract (when possible).
- Position the OMNIA Partners contract with clients as an alternative contract vehicle for all items not covered by their existing contracts.
- Discuss the value of moving their acquisition efforts to the OMNIA Partners contract with procurement officials. Ideally this conversation should be pursued jointly with both the appropriate local vendor partners and the OMNIA Partners Regional Managers and Member Development Managers.

On a continuing basis, extensive training on the OMNIA Partners contract will be provided to all new sales and support staff before entering the sales floor. Additionally, we will provide annual refresher trainings to our sales, services, and support teams so they remain current and focused on our primary offering.

Every Insight teammate who works with public sector clients must go through a series of specific trainings to ensure that the teammate understands not only the public sector client but also acknowledges that they will adhere to all applicable laws, regulations, and policies that are involved with providing service to a client in the public sector, including our contracts.

Insight Response:

Insight has four Sales Market Leaders who oversee all our sales teams. Kevin Hallihan leads our field sales teams in the East and Central, Brian Louderback leads our field sales teams in the West and TOLA, Ken Richter leads our national inside sales teams, and Clayton Boras leads a team dedicated to higher education entities. All told, we have over 100 dedicated sales teammates and managers who sell only into the state, local, and education space.

These sales teammates are supported by an additional 150+ dedicated SLED client operations, software, services support, business development, and contract compliance teammates. Sales and support teammates are spread throughout the U.S., both in company offices and in remote home offices. This coverage helps to ensure our clients have access to a team of people at Insight, regardless of what time zone they may be in.

We have provided an organizational chart in Section 9 - Appendices, Appendix A.

The highest level executive in charge of the sales team is Scott Friedlander, Senior Vice President - Public Sector. His contact information is as follows:

I. *Explain in detail how the sales teams will work with the OMNIA Partners team to implement, grow and service the national program.*

Insight Response:

Many of Insight's 100+ SLED sales teammates already have relationships with their OMNIA Partners counterparts, both in Sales and in Member Development. Additionally, our sales teams have years of experience in positioning and selling the value of the OMNIA Partners contract. Our commitment to growth is reflected in our contract sales, which have increased steadily over the past 13 years, and which have more than doubled since we were awarded the most recent contract back in 2016.

Additionally, Insight invests more than $500,000 annually in marketing and sales development funds specifically towards growing sales under our existing contract. Upon award of a new contract, we are fully committed to making continued large investments in this area.

Insight will continue to partner with the OMNIA Partners team through joint sales calls, tradeshow attendance, and participation in team calls.

I. *Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set- up, timely contract administration, etc.*

Insight Response:

As an existing Supplier with OMNIA Partners, Insight has over 13 years of experience in managing the national program. We have long-standing relationships with the OMNIA Partners team, including Marketing, Partner Development, Member Development, and Sales.

Upon award of a new contract, we will continue our regular cadence with these teams, which includes a monthly meeting between the Insight and OMNIA Partners marketing teams, regular participation on sales team calls, and consistent communication with our designated Vice President for Partner Development.

Erica Falchetti will continue to serve as Insight's National Account Manager and will be responsible for coordinating activities between Insight and OMNIA Partners. Additionally, Insight's Contract Compliance team will be responsible for the administration of the contract and will ensure that we are remaining compliant with the terms and conditions of the contract.

Any leads that come to us from either the OMNIA Partners Sales team or the Member Development team will be immediately handed over to the Insight account executive for that Participating Public Agency. If we don't have an account set up for the agency (which, in our experience, is rare), the Insight account executive will ensure one is created in a timely manner.

Insight understands that the success of our contract is dependent on clear lines of communication, and we commit to strengthening our relationships with the OMNIA Partners team to ensure the communication continues throughout the term of this Master Agreement.

Our clients' IT technology and procurement teams will benefit by having the advantage of working with a dedicated account team that is familiar with and adheres to their internal processes and methodologies.

Insight utilizes SAP as the internal ERP system for managing client account information. SAP also supports various order entry and inventory control functions.

Quotes and Order Placement

Quotes can be requested electronically through Insight's e-procurement portal, or via an agency's dedicated account team (via email, phone, or fax). All mediums will elicit pricing, product availability, configuration, and shipping information.

Using Insight's web portal, end users can save items in their cart as a quote for purchase later. Saved quotes can also be emailed. Should the user decide to (and have the authority to) purchase the quoted items, the saved quote can be turned into an order that will be placed online.

Insight's web purchasing portal displays an order confirmation screen after the order has been placed. The end user or user account that placed the order will also receive the following via email:

- A copy of the notification confirming the web order has been received
- Advanced Shipment Notification (ASN) when product from the order ships. Below is an example of the Advanced Ship Notification (email that ClienUBuyer Receives)

For online orders, clients will receive the ASN by default. This setting can be turned off if desired. An additional email can be added at the time of order placement to also receive the ASN. This feature is unique to Insight's ASN tool. Insight's ASN is available via hard copy, verbal and/or web-based purchasing. ASNs are also available for non-web orders placed through Insight's

ordering system by the Insight Account Team. After an order has been placed, end users with appropriate permissions can add an ASN for future shipments from that order.

Tracking Orders

End users will have access to review purchase orders in detail and even track shipped orders. Multiple levels of information are built into the system to provide end users with details, which can be sorted by the following criteria:

- Invoice Number
- Order Date
- Purchase Order Number
- Ship Date
- Tracking information with direct link to shipper's website (i.e., FedEx, UPS)
- Order Numbers
- Ship to Address
- Delivery Status
- Serial Numbers (if applicable)

For added convenience, Insight has integrated our order processing, labeling, and tracking systems with the systems of major freight carriers. Order tracking numbers are hyperlinked to the freight carrier's tracking system for up-to-the-minute information regarding order status. This integration helps to ensure efficient and accurate deliveries that are traceable by both Insight and our clients.

Order Timeframes

Orders containing product available in our $70-$80 million inventory held in Hanover Park, Illinois, will ship the same day providing no configuration services are needed and the order is received by 3:00 p.m. Central Time. Insight will ship all orders missing this cutoff time the following business day as a standard operating procedure. Software orders placed by 3:00 p.m. local time will ship that day. Insight maintains a 99.998% two-business day delivery rate for such "pick and pack" products. As a reseller, product availability is based on the manufacturer, so it will vary by product line.

Should the product need to be configured in our Integration labs, the normal turnaround time is two to three working days. If Insight runs into some extenuating circumstances that would create lab backlogs, the client will be notified so schedules can be changed accordingly. Our configuration labs operate 5 days a week, 24 hours a day.

The integration between our network and our distribution partners ensures advanced levels of service for our clients. For example, our order-processing system automatically chooses the warehouse closest to a client's delivery point so that orders placed by 3:00 p.m. local time are generally shipped that day. Overnight shipment cutoff from our distributor partners is 3:00 p.m. if product is in a west coast warehouse.

Invoices

Invoices are processed and sent to the designated billing address the day following product shipment, or in the case of licensing, the day after order placement, and can be sent via hard copy, EDI, or in a summary billing statement. Maintenance is invoiced in advance of the coverage period, based on the contractual agreement with the publishers.

The current Insight invoice format for products includes purchase order number, invoice number, purchase date, bill to and ship to information, a detailed product description, serial number (if applicable), manufacturer product number, unit pricing, number of units ordered, terms of payment, method of shipment indicating both carrier and terms, cost of delivery, and any applicable sales tax. Non-standard, client-specific information can additionally be provided on Insight invoices and reports. Insight can work with our clients to mutually determine the processes for attaining and providing such information.

For services, Insight itemizes bills based on the client billing requirements and the type of services provided. Insight is willing to discuss and mutually agree upon how bills are itemized, and the level of cost detail required to meet our clients' billing requirements.

In addition to the previously listed billing options, Insight currently offers clients the ability to exchange business documents electronically using both ANSI X.12 EDI (Electronic Data Interchange) and XML B2B (Business-to-Business) standards. These processes are standard Insight functionality that provide highly reliable alternatives for manual business transactions reducing cost and improving turnaround times.

Payments

Payments sent to the retail lockbox are posted to the client's account the same day the bank deposits the check without any intervention from accounts receivable. Payments sent to the retail lockbox that cannot be scanned and posted directly to the client accounts are rejected. These checks are photocopied by the lockbox and overnighted to accounts receivable to post manually to the client's account. Manual payments are posted within 24-48 hours of the bank's deposit. Insight does not use third party partners for billing purposes.

L. *Provide the Contract Sales (as defined in Section 12 of the OMNIA Partners Administration Agreement) that Supplier will guarantee each year under the Master Agreement for the initial three years of the Master Agreement ("Guaranteed Contract Sales").*

Insight Response:

$150,000,000.00 in year one

$175,000,000.00 in year two

$200,000,000.00 in year three

M *Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.*

i. *Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners).*

ii. *If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners under the Master Agreement.*

iii. *Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners).*

iv. *If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternative or additional proposal.*

Detail Supplier's strategies under these options when responding to a solicitation.

Insight Response:

As a Supplier with OMNIA Partners (and U.S. Communities before that) for over thirteen years, Insight understands the requirements and confirms our commitment to the above options for responding to a solicitation for Products covered under the Master Agreement. Our first goal is always to present the value of the Master Agreement to Public Agencies by making sure they understand that the contract was competitively-solicited and therefore a separate solicitation is not needed.

However, in those cases where a Public Agency still chooses to put out their own solicitation, Insight will either respond with pricing that is at or below the Master Agreement pricing (and report the subsequent sale to OMNIA Partners) or propose pricing that is higher than the Master Agreement. If a Public Agency allows for alternative proposals, we will include the Master Agreement as an option.

b. *The successful Supplier will be required to sign Attachment A, R"<.hibit B, OMNIA Partners Administration Agreement, Suppliers shall have any reviews required to sign the document prior to submitting a response. Supplier's response shall include any proposed exceptions to the OMNIA Partners Administration Agreement.*

Insight Response:

Insight requests that the following clarifications/exceptions be included in any final terms and conditions of the contract; nevertheless, if Insight is the successful bidder, Insight is amenable to negotiating mutually agreeable terms prior to the commencement of the engagement.

16 (PDF P.22)	Cobb County General Instructions for Proposers, Terms and Conditions; XIV. Delivery Failures	Supplier proposes to strike delivery penalties as Supply Chain issues are causing extreme delays in some cases, and those factors are beyond our control. Supplier will keep end users updated with expected lead times and delivery dates.	Failure of a contractor to deliver within the time specified or within reasonable time as interpreted by the Purchasing Director, or failure to make replacements of rejected articles/services when so requested, immediately or as directed by the Purchasing Director, shall constitute authority for the Purchasing Director to purchase in the open market or rebid for articles/services of comparable grade to replace the articles/services rejected or not delivered. On all such purchases, the contractor shall reimburse the County within a reasonable time specified by the Purchasing Director for any expense incurred in excess of contract prices, or the County shall have the right to deduct such an amount from monies owed the defaulting contractor. Should public necessity demand it, the County reserves the right to use or consume articles/services delivered which are substandard in quality, subject to an adjustment in price to be determined by the Purchasing Director.

To the fullest extent permitted by law, the Contractor shall defend, indemnify and hold harmless the County and the County's elected and appointed officials, officers, boards, commissions, employees, representatives, consultants, servants, agents and volunteers (individually an "Indemnified Party" and collectively the "Indemnified Parties") from and against any and all claims, suits, actions, judgments, injuries, damages, losses, expenses, and liability of any kind whatsoever, including but not limited to attorneys' fees and other legal expenses, ("Liabilities") to the extent caused by or resulting from negligence, recklessness, or intentionally wrongful conduct arising out of the Work, performance of contracted services, or operations by Contractor, any subcontractor, anyone directly or indirectly employed by the Contractor or subcontractor or anyone for whose acts the Contractor or subcontractor may be liable, regardless of whether or not the negligent act or omission is caused in part by a party indemnified hereunder. This indemnity obligation does not include Liabilities caused by or resulting from the sole negligence of an Indemnified Party. 4. Fees and Invoicing

4.1. **Fees**: The unit or per seat Fees for Service Offerings payable by you will be the current AWS list price at the time such Service Offerings are consumed by you[, less a [X] percent ([X]%) discount from Insight at invoice. You will receive a discount off of the following AWS Services as set forth at: AWS AUTHORIZED SERVICES LIST, in addition to the Business and Enterprise Support Plans]. The total Fees payable by you[, with Insight's discount (if any),] will be set forth in Insight's invoice in the manner described below. Unless otherwise agreed to in writing between the parties, you must pay all undisputed invoices in full within thirty (30) days of the invoice date.

4.3. **Cloud Service Credits/SLAs**: The Parties agree that AWS's Service Level Agreements, to the extent applicable, will apply to this purchase as set forth at https://aws.amazon.com/legal/service-level-agreements/. To the extent that a Cloud Service credit is due to Client in accordance with the AWS Service Level Agreement(s), the Parties agree that any credit due will be credited by Insight to Client's account within a reasonable time after Insight's notice from Client of the claim and following AWS's verification of Client's claim. Client expressly acknowledges and agrees that Insight is not obligated to provide any Cloud Service credit if AWS is unable to verify Client's claim. ANY CREDITS OR TERMINATION RIGHTS DESCRIBED UNDER THE SLA SHALL BE THE SOLE AND EXCLUSIVE REMEDY OF CLIENT IN CONNECTION WITH ANY UNAVAILABILITY OF THE SERVICE OFFERINGS OR BREACH OF THE SLA.

5. Term/Termination

5.1. **Term**. The term of this Agreement will commence on the Effective Date and will remain in effect until terminated by you or Insight in accordance with Section 5.2.

Upon any termination of this Agreement: (i) all your rights under this Agreement immediately terminate; (ii) you remain responsible for all fees and charges you have incurred through the date of termination, including fees and charges for in-process tasks completed after the date of termination; and (iii) you will immediately return or, if instructed by Insight, destroy all AWS Content in your possession. 6. Indemnification

You will defend, indemnify, and hold harmless Insight, its affiliates, licensors, and each of its respective employees, officers, directors, and representatives from and against any claims, damages, losses, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or relating to any third party claim concerning: (a) your use of the Service Offerings; (b) your breach of this Agreement or violation of applicable law; or (c) your Content or the combination of your Content with other applications, Content or processes, including any claim involving alleged infringement or misappropriation of third-party rights by your Content or by the use, development, design, production, advertising or marketing of your Content.

1. EXHIBIT A - SUPPLEMENTAL TERMS AND CONDITIONS FOR AWS GOVCLOUD

[Delete this exhibit if it should not be included in the contract]

These Supplemental Terms and Conditions for AWS GovCloud ("AWS GovCloud Supplemental Terms") form an addendum to the Insight AWS Agreement, and set forth the terms and conditions that are specific to the AWS GovCloud Services being purchased by Client from Insight. To the extent these terms conflict with the Insight AWS Agreement, these AWS GovCloud Supplemental Terms will govern with respect your purchase of the AWS GovCloud Services. Terms used but not defined herein will have the meaning given in the AWS Agreement.

1) Use of the AWS GovCloud (U.S.) Region Service Offerings.

You may access the AWS GovCloud (U.S.) Region if you have root level access to the relevant program account.

2) AWS GovCloud (U.S.) Region Representations & Warranties.

Should you gain access to an AWS GovCloud (U.S.) Region account, the AWS Services may not be used to process or store classified data. You are responsible for verifying that all end users accessing Your Content in the AWS GovCloud (U.S.) Region are eligible to gain access to Your Content. You represent and warrant that You: (i) are a U.S. Person, as defined by 22 CFR part 120.15 ("U.S. Person"); (ii) will only assign a U.S. Person as your account owner for the AWS GovCloud (U.S.) Region; (iii) if required by the International Traffic In Arms Regulations ("ITAR"), have and will maintain a valid Directorate of Defense Trade Controls registration; (iv) are not subject to export restrictions under U.S. export control laws and regulations (e.g., you are not a denied or debarred party or otherwise subject to sanctions); and (v) maintain an effective compliance program to ensure compliance with applicable U.S. export control laws and regulations, including the ITAR. If requested, You agree to provide additional documentation and cooperation to verify the accuracy of the foregoing representations and warranties.

3) Your Use of GovCloud Credentials.

a) **GovCloud Region**. AWS will implement reasonable and appropriate measures for the AWS Network in the GovCloud Region designed to: (i) help You secure Your Content against accidental or unlawful loss, access or disclosure; (ii) implement the in-scope Federal Risk and Authorization Management Program ("FedRAMP") controls for the Services identified as FedRAMP compliant; and (iii) maintain physical and logical access controls to limit access to the AWS Network by AWS personnel, including employees and contractors, to U.S. citizens, as defined by 8 USC §1401, et seq. ("U.S. Citizens") ((i), (ii) and (iii) collectively the "Security Objectives"). The GovCloud Region is the only AWS Region that has physical and logical access controls that limit access to the AWS Network by AWS Personnel to U.S. Citizens. (The 'AWS Network' means AWS's data center facilities, servers, networking equipment, and host software systems (e.g., virtual firewalls) that are within AWS's control and are used to provide the Services.)

b) **GovCloud Region Security Standards**.

i) **Information Security Program**. AWS will maintain an information security program (including the adoption and enforcement of internal policies and procedures) designed to: (a) satisfy the Security Objectives; (b) identify reasonably foreseeable and internal risks to security and unauthorized access to the AWS Network; and (c) minimize security risks, including through risk assessment and regular testing. AWS will designate one or more

employees to coordinate and be accountable for the information security program. The information security program will include the following measures:

(1) ***Network Security***. The AWS Network will be electronically accessible to employees, contractors and any other person as necessary to provide the Services. AWS will maintain access controls and policies to manage what access is allowed to the AWS Network from each network connection and user, including the use of firewalls or functionally equivalent technology and authentication controls. AWS will maintain corrective action and incident response plans to respond to potential security threats.

(2) ***Physical Security***.

(a) Physical Access Controls. Physical components of the AWS Network are housed in nondescript facilities (the "Facilities"). Physical barrier controls are used to prevent unauthorized entrance to the Facilities both at the perimeter and at building access points. Passage through the physical barriers at the Facilities requires either electronic access control validation (e.g., card access systems, etc.) or validation by human security personnel (e.g., contract or in-house security guard service, receptionist, etc.). Employees and certain contractors are assigned photo-ID badges that must be worn while the employees and contractors are at any of the Facilities. Visitors and any other contractors are required to sign-in with designated personnel, must show appropriate identification, are assigned a visitor ID badge that must be worn while the visitor is at any of the Facilities, and are continually escorted by authorized employees or contractors while visiting the Facilities.

(b) Limited Employee and Contractor Access. AWS provides access to the Facilities to those employees and contractors who have a legitimate business need for such access privileges. When an employee or contractor no longer has a business need for the access privileges assigned to him/her, the access privileges are promptly revoked, even if the employee or contractor continues to be an employee of AWS or its affiliates.

(c) Physical Security Protections. All access points (other than main entry doors) are maintained in a secured (locked) state. Access points to the Facilities are monitored by video surveillance cameras designed to record all individuals accessing the Facilities. AWS also maintains electronic intrusion detection systems designed to detect unauthorized access to the Facilities, including monitoring points of vulnerability (e.g., primary entry doors, emergency egress doors, roof hatches, dock bay doors, etc.) with door contacts, glass breakage devices, interior motion-detection, or other devices designed to detect individuals attempting to gain access to the Facilities. All physical access to the Facilities by employees and contractors is logged and routinely audited.

ii) **Continued Evaluation**. AWS will conduct periodic reviews of the security of its AWS Network and adequacy of its information security program as measured against industry security standards and its policies and procedures. AWS will continually evaluate the security of its AWS Network and associated Services to determine whether additional or different security measures are required to respond to new security risks or findings generated by the periodic reviews.

(1) **Your Responsibilities**. You are responsible for all physical and logical access controls beyond the AWS Network including, but not limited to, Your account access, data

transmission, encryption, and appropriate storage and processing of data within the GovCloud Region. You are responsible for verifying that all End Users accessing Your Content in the GovCloud Region are eligible to gain access to Your Content. The Services may not be used to process or store classified data. If you introduce classified data into the AWS Network, You will be responsible for all sanitization costs incurred by Insight and AWS. Your liability under this provision is exempt from any limitations of liability.

BY ENTERING YOUR MANUAL OR ELECTRONIC SIGNATURE BELOW, YOU HEREBY CERTIFY AND AGREE THAT: (1) YOU ARE DULY AUTHORIZED ON BEHALF OF CLIENT TO ACCEPT THESE AWS GOVCLOUD SUPPLEMENTAL TERMS AND TO PROCURE, PROVISION AND USE, NOW AND IN THE FUTURE, ALL AWS GOVCLOUD SERVICES ORDERED HEREUNDER; AND (2) YOU ARE PLACING THE ORDER ASSOCIATED HEREWITH AND ACCEPT THESE AWS GOVCLOUD SUPPLEMENTAL TERMS ON BEHALF OF CLIENT.

If Client terminates its use of Cloud Services, Client will remain responsible to Insight for the prior month's consumption and all accrued charges for such Cloud Services which will be billed in the next scheduled invoice.

- FEES AND INVOICING. Client agrees to pay the fees and charges for the Cloud Services as set forth in the provided price list at purchase, as may be amended from time to time. All future quantities used, enabled or consumed for purchased Cloud Services will be invoiced monthly in arrears on an actual use basis (i.e. "pay-as-you-go") as measured and reported to Insight by Microsoft. The unit purchase price (consumption rate) for each of the Cloud Services available to the Client will be made available for Client's review on a monthly basis. For any extension of a subscription term or the provisioning of a Cloud Service upgrade, the then-current price will apply, unless otherwise mutually agreed in writing by Insight and Client. Notwithstanding the foregoing, Insight may, from time to time and in its sole discretion, change the fees it charges all clients for the Cloud Service for reasons including, but not limited to, changes in Microsoft's pricing and changes to its channel partner programs.

- AZURE RESERVATIONS (Azure Reserved VM Instances)(*Optional). Client agrees that Azure Reservations purchases will be invoiced up-front, in full, for the entire term. All Azure Reservations have their own unique coverage period (not coterminous to any previous Azure Reservation purchase). No refunds will be granted once the Azure Reservations are provisioned and in use. By executing this Order Form, Client agrees to pay the Azure Reservations fees listed below up-front on Client's first issued invoice:

□ FORM OF PAYMENT. Form of payment must be on file before Insight will provision the Cloud Services. All Cloud Services consumed leveraging this Agreement will automatically be billed to the selected form of payment. If a form of payment change is required, please call Insight Credit Card Services Department for assistance.

Net 30 Payment Terms unless You have a separate purchase agreement signed by both your company and Insight, in which case , the net terms of that separate agreement will govern

Credit Card Payment. Please provide last 4 digits of credit card

*Due to security and compliance standards we require clients to call our Credit Card Services Department at 800-INSIGHT and requesting the Credit Card Services department between the hours of 7:00 and 4:00 MST Monday – Friday to provide the full credit card information.

U.S. County Brings Free Public Wi-Fi to More Than 30,000+ Rural, Low-Incollle Students and Worl<ers

The client

A county government in a Southern U.S. state was facing extreme pressure to complete a Wi-Fi project by Dec. 31, 2020 (the deadline for CARES Act Funds spending).The county shortened the procurement cycle by avoiding a full RFP, and instead, they leveraged Insight Public Sector's existing OMNIA Partners contract -saving an estimated four weeks of time.

The challenge: Narrowing the digital divide at a critical time

As the COVID-19 pandemic has swept through the country,various regions and demographics have been hit harder than others. The county had received critical funding as a part of federal government aid and needed to apply these funds strategically to navigate its most pressing challenges.

Each city within the county had claimed its portion of the federal aid to support its citizens; however,residents located outside of city limits had a different set of challenges. Unlike city dwellers, the county's rural population lacked internet access and is generally living on the less privileged side of the so-called digital divide.

As a result of the pandemic and social distancing guidelines, the county needed to embrace both remote work and distance education. But without proper internet access at home, launching these initiatives proved to be a daunting challenge.

TO WHOM IT MAY CONCERN:

Participating Agencies may elect to use federal funds to purchase under the Master Agreement. This form should be completed and returned.

DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contra<:t as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

(a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;

(b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.

(c) The term does not include:

(1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or

(2) An agreement that provides only:

(i) Direct United State; Government cash assistance to an individual;

(ii) A subsidy;

(iii) A loan;

(iv) A loan guarantee; or

(v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

(a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or

(2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.

(b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

(c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).

(d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

(a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

(b) Is not organized primarily for profit; and

(c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is $250,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Awarded Supplier(s} may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Supplier is accepted these FEMA Special Conditions required by the Federal Emergency Management Agency (FEMA).

"Contract" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as the "Master Agreement".

"Contractor" in the below pages under FEMA SPECIAL CONDITIONS is also referred to and defined as "Supplier" or "Awarded Supplier".

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, 1f 7; Standard Form 4248, 1f 3. i. FEMA considers a "financial interest" to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an "apparent" conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of the Participating Public Agency nor the Participating Public Agency ("NFE") must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE's may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE's written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE's employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended, as described in and subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension}, must be rejected and cannot receive contract awards at any level.

a. Equal opportunity and nondiscrimination laws

b. Five affirmative steps described at 2 C.F.R. §200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7

c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

Prevailing Wage Requirements

When applicable, the awarded Contractor (s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. 2 C.F.R. §200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. CONTRACT REMEDIES

Contracts for more than the federal simplified acquisition threshold (SAT), the dollar amount below which an NFE may purchase property or services using small purchase methods, currently set at $250,000 for procurements made on or after June 20, 2018,4 must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms and must provide for sanctions and penalties as appropriate.

1.1 Applicability

This contract provision is required for contracts over the SAT, currently set at $250,000 for procurements made on or after June 20, 2018. Although not required for contracts at or below the SAT, FEMA suggests including a remedies provision.

1.2 Additional Considerations

For FEMA's Assistance to Firefighters Grant (AFG) Program, recipients must include a penalty clause in all contracts for any AFG-funded vehicle, regardless of dollar amount. In that situation, the contract must include a clause addressing that non-delivery by the contract's specified date or other vendor nonperformance will require a penalty of no less than $100 per day until such time that the vehicle, compliant with the terms of the contract, has been accepted by the recipient. This penalty clause should, however, account for force majeure or acts of God. AFG recipients should refer to the applicable year's Notice of Funding Opportunity (NOFO) for additional information, which can be accessed at FEMA.gov.

2. TERMINATION FOR CAUSE AND CONVENIENCE

a. Standard. All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity, including the manner by which it will be effected and the basis for settlement. See 2 C.F.R. Part 200, Appendix 11(8).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

3. EQUAL EMPLOYMENT OPPORTUNITY

a. Standard. Except as otherwise provided under 41 C.F.R. Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 C.F.R. §60-1.3 must include the equal opportunity clause provided under 41 C.F.R. §60- 14(b), in accordance with Executive Order 11246, *Equal Employment Opportunity (30* Fed. Reg. 12319, 12935, 3 C.F.R. Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, *Amending Executive Order 11246 Relating to Equal Employment Opportunity,* and implementing regulations at 41 C.F.R. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses.

C. Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. §5.12."

6. CONTRACT WORK HOURS AND SAFETY STANDARDSACT

a Standard. Where applicable (see 40 U.S.C. §§ 3701-3708), all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II(E). Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Further, no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous.

b. Applicability. This requirement applies to all FEMA contracts awarded by the non- federal entity in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of

intelligence.

c. Suggested Language. The regulation at 29 C.F.R. § 5.5(b) provides contract clause language concerning compliance with the Contract Work Hours and Safety Standards Act. FEMA suggests including the following contract clause:

Compliance with the Contract Work Hours and Safety Standards Act.

(1) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

(2) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of
$27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

(3) *Withholding for unpaid wages and liquidated damages.* The Federal agency or loan/grant recipient shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

(4) *Subcontracts.* The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (b)(1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (b)(1) through (4) of this section.

7. RIGHTS TO INVENTIONS MADE UNDER A CONTRACT OR AGREEMENT

a Standard. If the FEMA award meets the definition of "funding agreement" under 37 C.F.R. §401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the non- Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any

implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II(F).

b. Applicability. This requirement applies to *"funding agreements,"* but it DOES NOT apply to the Public Assistance, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as FEMA awards under these programs do not meet the definition of "funding agreement."

c. Funding Agreements Definition. The regulation at 37 C.F.R. § 401.2(a) defines "funding agreement" as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.

8. CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

a Standard. If applicable, contracts must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q.) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II(G).

b. Applicability. This requirement applies to contracts awarded by a non-federal entity of amounts in excess of $150,000 under a federal grant.

c. Suggested Language. The following provides a sample contract clause.

Clean Air Act

1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as

amended, 33 U.S.C. 1251 etseq.

2. The contractor agrees to report each violation to the Participating Public Agency and understands and agrees that the Participating Public Agency will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

9. DEBARMENT AND SUSPENSION

a Standard. Non-Federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security's regulations at 2 C.F.R. Part 3000 (Non-procurement Debarment and Suspension).

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs.

c. Requirements.

i. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II(H); and 2 C.F.R. § 200.213. A contract award must not be made-to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. §180.530.

ii. In general, an "excluded" party ccinnot receive a Federal grant award or a contract within the meaning of a "covered transaction," to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a "covered transaction," which is any non-procurement transaction (unless excepted) at either a "primary" or "secondary" tier. Although "covered transactions" do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS's implementing regulations, it does include some contracts awarded by recipients and subrecipients.

ill. Specifically , a covered transaction includes the following contracts for goods or services:

1. The contract is awarded by a recipient or subrecipient in the amount of at least $25,000.

2. The contract requires the approval of FEMA, regardlessof amount.

3. The contract is for federally-required audit services.

4. A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of $25,000.

d Suggested Language. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified.

Suspension and Debarment

(1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such, the contractor is required to verify that none of the contractor's principals (defined at 2 C.F.R. § 180.995) or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. §180.935).

(2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

(3) This certification is a material representation of fact relied upon by the Participating Public Agency. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to the Participating Public Agency, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

(4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions .

10. BYRD ANTI-LOBBYING AMENDMENT

a Standard. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. FEMA's regulation at 44 C.F.R. Part 18 implements the requirements of 31 U.S.C. § 1352 and provides, in Appendix A to Part 18, a copy of the certification that is required to be completed by each entity as described in 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the Federal awarding agency.

b. Applicability. This requirement applies to all FEMA grant and cooperative agreement programs. Contractors that apply or bid for a contract of $100,000 or more under a federal grant must file the required certification. See 2 C.F.R. Part 200, Appendix 11(1); 31 U.S.C. § 1352; and 44 C.F.R. Part 18.

c. Suggested Language.

Byrd Anti-Lobbying Amendment. 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

d Required Certification. If applicable, contractors must sign and submit to the non-federal entity the following certification.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. It is not intended to be provided to contractors. What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of $17,500 that are not awarded pursuant to a "fair and open" process (N.J.S.A. 19:44A-20.7).

2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. The form is worded to accept this alternate submission. The text should be amended if electronic submission will not be allowed.

3. The submission must be received from the contractor and on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.

4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.

   a. The Division has prepared model disclosure forms for each county. They can be downloaded from the "County PCD Forms" link on the Pay-to-Play web site at http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12. They will be updated from time-to-time as necessary.
   b. A public agency using these fonns should edit them to properly reflect the correct legislative district(s). As the forms are county-based, they list all legislative districts in each county. Districts that do not represent the public agency should be removed from the lists.
   c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
   d. The form may be used "as-is", subject to edits as described herein.
   e. The "Contractor Instructions" sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
   f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.

5. It is recommended that the contractor also complete a "Stockholder Disclosure Certification." This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification fom1 is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s:2 (N.J.S.A. 9:4A-20.26). This law provides that IO days prior to the award of such a contract, the contractor shall disclose contnbut10ns to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
    - of the public entity awarding the contract
    - of that county in which that public entity is located
    - of another public entity within that county
    - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed $300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or I0% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." lli_.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. NOTE: This section does not apply to Board of Education contracts.

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

TITLE:

Consideration and Approval of Contract: Cooperative Purchase Contract with Russ Bassett Corp. in the amount of $383,053.33 for Computer Aided Dispatch (CAD) consoles in the Flagstaff Police Department (FPD) Emergency Communications Center.

STAFF RECOMMENDED ACTION:

1. Approve the Cooperative Purchase Contract with Russ Bassett Corp. in the amount of $383.053.33 for CAD consoles in the FPD Emergency Communications Center; and
2. Authorize the City Manager to execute all necessary documents.

Executive Summary:

The CAD consoles in the FPD Emergency Communications Center were last replaced in 2011. The Emergency Communications Center dispatches for FPD, the Greater Flagstaff Regional Fire Department, Pinewood Fire Department, Blue Ridge Fire Department, Forest Lakes Fire Department, Coconino County Sheriff's Office, Forest Service, and Park Service. These consoles are used 24/7/365 by dispatchers answering emergency calls for service and dispatching law enforcement and fire. The current consoles have parts that are starting to break, and they no longer make the parts to fix them. Each console is supposed to have personal climate devices that provides heat in the winter and cooling fans in the summer. The personal climate devices no longer work at any of the CAD consoles. Dispatchers have been utilizing space heaters in the winter to stay warm since the temperature of the center has to stay cool due to the computer equipment. The purchase from Russ Bassett Corp. (Russ Bassett) includes replacement of all the CAD consoles with an additional three consoles. The new consoles will have personal climate devices that provide warmth in the winter and cooling fans in the summer. They will have ambient lighting that is easier on a dispatcher’s eyes especially during 12-hour graveyard shifts. They also have the ability to be lifted and lowered so dispatchers are able to stand during their shifts. Russ Bassett offers a ten (10) year every part warranty on all their equipment.

Financial Impact:

The cost of the CAD console replacement has been approved as part of the FY2023-24 Budget with the Police Department budget in account 001-04-061-0224-2-4231 for $600,000.

Policy Impact:

None.

The Contractor further agrees that the examination of records outlined in this article shall be included in all subcontractor or third-party Master Agreements.

ARTICLE 19: RETENTION OF RECORDS

The Contractor and its subcontractors shall maintain all records pertinent to this Master Agreement, and all other financial, statistical, property, participant records, and supporting documentation for a period of no less than seven (7) years from the later of the date of acceptance of the final payment or until all audit findings have been resolved. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the retention period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the seven (7) years, whichever is later, and until any outstanding litigation, audit, or claim has been fully resolved.

ARTICLE 20: DISTRIBUTORS, VENDORS, RESELLERS

H-GAC reserves the right to reject any entity acting on the Contractor’s behalf or refuse to add entities after a contract is awarded.

ARTICLE 21: CHANGE ORDERS AND AMENDMENTS

A. Any alterations, additions, or deletions to the terms of this Master Agreement, which are required by changes in federal or state law or by regulations, are automatically incorporated without written amendment hereto, and shall become effective on the date designated by such law or by regulation.

B. To ensure the legal and effective performance of this Master Agreement, both parties agree that any amendment that affects the performance under this Master Agreement must be mutually agreed upon and

DocuSign Envelope ID: E01B611D-09C1-4AD0-B2F1-0D1B0926688D

that all such amendments must be in writing. After a period of no less than 30 days subsequent to written notice, unless sooner implementation is required by law, such amendments shall have the effect of qualifying the terms of this Master Agreement and shall be binding upon the parties as if written herein.

C. Customers have the right to issue a change order to any purchase orders issued to the Contractor for the purposes of clarification or inclusion of additional specifications, qualifications, conditions, etc. The change order must be in writing and agreed upon by Contractor and the Customer agency prior to issuance of any Change Order. A copy of the Change Order must be provided by the Contractor to, and acknowledged by, H-GAC.

ARTICLE 22: CONTRACT ITEM CHANGES

A. If a manufacturer discontinues a contracted item, that item will automatically be considered deleted from the contract with no penalty to Contractor. However, H-GAC may at its sole discretion elect to make a contract award to the next lowest Respondent for the item, or take any other action deemed by H-GAC, at its sole discretion, to be in the best interests of its Customers.

B. If a manufacturer makes any kind of change in a contracted item which affects the contract price, Contractor must advise H-GAC of the details. H-GAC may allow or reject the change at its sole discretion. If the change is rejected, H-GAC will remove the item from its program and there will be no penalty to Contractor. However, H-GAC may at its sole discretion elect to make a contract award to the next lowest Respondent for the item, or take any other action deemed by H-GAC, at its sole discretion, to be in the best interests of its Customers.

C. If a manufacturer makes any change in a contracted item which does not affect the contract price, Contractor shall advise H-GAC of the details. If the 'new' item is equal to or better than the originally contracted item, the 'new' item shall be approved as a replacement. If the change is rejected H-GAC will remove the item from its program and there will be no penalty to Contractor. However, H-GAC may at its sole discretion elect to make a contract award to the next lowest Respondent for the item or may take any other action deemed by H-GAC at its sole discretion, to be in the best interests of its Customers.

D. In the case of specifically identified catalogs or price sheets which have been contracted as base bid items or as published options, routine published changes to products and pricing will be automatically incorporated into the contract. However, Contractor must still provide thirty (30) calendar days written notice and an explanation of the changes to products and pricing. H-GAC will respond with written approval.

ARTICLE 23: CONTRACT PRICE ADJUSTMENTS

Price Decreases

If Contractor's Direct Cost decreases at any time during the full term of this award, Contractor must immediately pass the decrease on to H-GAC and lower its prices by the amount of the decrease in Direct Cost. (Direct Cost means Contractor's cost from the manufacturer of any item or if Contractor is the manufacturer, the cost of raw materials required to manufacture the item, plus costs of transportation from manufacturer to Contractor and Contractor to H-GAC. Contractor must notify H-GAC of price decreases in the same way as for price increases set out below. The price decrease shall become effective upon H-GAC's receipt of Contractor's notice. If Contractor routinely offers discounted contract pricing, H-GAC may request Contractor accept amended contract pricing equivalent to the routinely discounted pricing

Price Increases

Contractors may request a price increase for items priced as Base Bid items and Published Options after twelve (12) months from the bid opening date of the bid received by H-GAC. The amount of any increase will not exceed actual documented increase in Contractor's Direct Cost and will not exceed 10% of the previous bid price. Considerations on the percentage limit will be given if the price increase is the result of increased tariff charges, or other economic factors.

Price Changes

DocuSign Envelope ID: E01B611D-09C1-4AD0-B2F1-0D1B0926688D

Any permanent increase or decrease in offered pricing for a base contract item or published option is considered a price change. Temporary increases in pricing by whatever name (e.g. 'surcharge', 'adjustment', 'equalization charge', 'compliance charge', 'recovery charge', etc.), are also considered to be price changes. For published catalogs and price sheets as part of an H-GAC contract, requests to amend the contract to reflect any new published catalog or price sheet must be submitted whenever the manufacturer publishes a new document. The request must include the new catalog or price sheet.

All Products shall, at time of sale, be equipped as required under any then current applicable local, state, and federal government requirements. If, during the course of any contract, changes are made to any government requirements which cause a manufacturer's costs of production to increase, Contractor may increase pricing to the extent of Contractor's actual cost increase. The increase must be substantiated with support documentation acceptable to H-GAC prior to taking effect. Modifications to a Product required to comply with such requirements which become effective after the date of any sale are the responsibility of the Customer.

Requesting Price Increase/Required Documentation
Contractor must submit a written notification at least thirty (30) calendar days prior to the requested effective date of the change, setting the amount of the increase, along with an itemized list of any increased prices, showing the Contractor's current price, revised price, the actual dollar difference and the percentage of the price increase by line item. Price change requests must include H-GAC Forms D Offered Item Pricing and E Options Pricing, or the documentation used to submit pricing in the original Response and be supported with substantive documentation (e.g. manufacturer's price increase notices, copies of invoices from suppliers, etc.) clearly showing that Contractor's actual costs have increased per the applicable line-item bid. The Producer Price Index (PPI) may be used as partial justification, subject to approval by H-GAC, but no price increase based solely on an increase in the PPI will be allowed. This documentation should be submitted in Excel format to facilitate analysis and updating of the website. The letter and documentation must be sent to Brian Denzel, H-GAC, Public Services Manager at brian.denzel@h-gac.com.

Review/Approval of Requests
If H-GAC approves the price increase, Contractor will be notified in writing; no price increase will be effective until Contractor receives this notice. If H-GAC does not approve Contractor's price increase, Contractor may terminate its performance upon sixty (60) days advance written notice to H-GAC, however Contractor must fulfill any outstanding Purchase Orders. Termination of performance is Contractor's only remedy if H-GAC does not approve the price increase. H-GAC reserves the right to accept or reject any price change request.

ARTICLE 24: DELIVERIES AND SHIPPING TERMS

The Contractor agrees to make deliveries only upon receipt of authorized Customer Purchase Order acknowledged by H-GAC. Delivery made without such Purchase Order will be at Contractor's risk and will leave H-GAC the option of canceling any contract awarded to the Contractor. The Contractor must secure and deliver any item within five (5) working days, or as agreed to on any corresponding customer Purchase Order.

Shipping must be Freight On Board Destination to the delivery location designated on the Customer purchase order. The Contractor will retain title and control of all goods until delivery is completed and the Customer has accepted the delivery. All risk of transportation and all related charges are the responsibility of the Contractor. The Customer will notify the Contractor and H-GAC promptly of any damaged goods and will assist the Contractor in arranging for inspection. The Contractor must file all claims for visible or concealed damage. Unless otherwise stated in the Master Agreement, deliveries must consist only of new and unused merchandise.

ARTICLE 25: RESTOCKING (EXCHANGES AND RETURNS)

One administrative vehicle identified and approved for retirement by the Fleet Management Committee will be replaced with this purchase as well as one vehicle is an addition to our fleet and was approved during the addition of a new Police Aide position.

Policy Impact:

There is no known or projected impact to policy regarding this matter.

Connection to PBB Priorities/Objectives, Carbon Neutrality Plan & Regional Plan:

Priority Based Budget Key Community Priorities and Objectives

Council Goals:
Personnel: Attract and Retain Quality Staff
Provide Exceptional Service: Provide employees with tools, training and support.
Invest in Our People: Ensure effective resources for employees.
Transportation and Other Public Infrastructure: Replacing Aging Infrastructure

Carbon Neutrality Plan

Reduce emissions, increase the number of alternative fuel vehicles in the City fleet and reduce the City of Flagstaff's carbon footprint.

Regional Plan

Goal PF.3. Provide high-quality emergency response and public safety services including law enforcement, fire, medical and ambulance service.

Has There Been Previous Council Decision on This:

No.

Background/History:

The Purchasing section has reviewed the competitively solicited cooperative purchase options available and confirmed that the Arizona Department of Transportation (ADOT) conducted a competitive and open procurement process through Request for Proposal Solicitation No. BPM004157 that resulted in Contract No. CTR059322 with PFVT Motors, Inc. (DBA Peoria Ford). This contract has been verified as valid and appropriate for the purchase of the specified vehicles and presents the best value to the City.

In an effort to assist the City in meeting it's goal to reduce our carbon footprint, we have identified two areas where an all electric vehicle would be an appropriate and functional addition to our fleet. The first identified use would be for our new Police Aide position which is stationed at City Hall. The Police Department currently has (4) charging stations which will support the charging of the vehicle. The second use for a Mach-E would be in our administrative fleet. Both Ford Mustang Mach-Es will be equipped with lights, sirens, radios as they may be called upon to respond to incidents or accidents within the community.

Key Considerations:

The purchase being recommended has been reviewed and approved by both the Fleet Management Committee and Budget Committee. Approval of these purchases will help ensure a functional patrol fleet and will assist in the goal set forth by the City Climate Action Adaptation Plan.

Community Benefits and Considerations:

Sustaining a reliable police fleet helps minimize vehicle downtime, effectively maximizing the number of police vehicles available for use, which may result in faster response times and an elevated level of service to our citizens. Moving toward the hybrid platform and the addition of two more full electric vehicles will also help reduce fuel consumption and reduce our carbon footprint.

Community Involvement:

Inform.

Expanded Options and Alternatives:

FPD strives to be a front runner in new technologies while providing top-performing equipment to staff that is safe, reliable and eco-conscious. Currently we have one full electric Ford Lightening as a Police Aide/Animal Control vehicle and would add (2) more fully electric vehicles to our fleet bringing us closer to the City's goal of reducing our carbon footprint within the community.

"Government Community Cloud Services" means Microsoft Online Services that are provisioned in Microsoft's multi-tenant data centers for exclusive use by or for the Community and offered in accordance with the National Institute of Standards and Technology (NIST) Special Publication 800-145. Microsoft Online Services that are Government Community Cloud Services are designated as such in the Use Rights and Product Terms.

"Industry Device" (also known as line of business device) means any device that: (1) is not useable in its deployed configuration as a general purpose personal computing device (such as a personal computer), a multi-function server, or a commercially viable substitute for one of these systems; and (2) only employs an industry or task-specific software program (e.g. a computer-aided design program used by an architect or a point of sale program) ("Industry Program"). The device may include features and functions derived from Microsoft software or third-party software. If the device performs desktop functions (such as email, word processing, spreadsheets, database, network or Internet browsing, or scheduling, or personal finance), then the desktop functions: (1) may only be used for the purpose of supporting the Industry Program functionality; and (2) must be technically integrated with the Industry Program or employ technically enforced policies or architecture to operate only when used with the Industry Program functionality.

"Managed Device" means any device on which any Affiliate in the Enterprise directly or indirectly controls one or more operating system environments. Examples of Managed Devices can be found in the Product Terms.

"Qualified Device" means any device that is used by or for the benefit of Enrolled Affiliate's Enterprise and is: (1) a personal desktop computer, portable computer, workstation, or similar device capable of running Windows Pro locally (in a physical or virtual operating system environment), or (2) a device used to access a virtual desktop infrastructure ("VDI"). Qualified Devices do not include any device that is: (1) designated as a server and not used as a personal computer, (2) an Industry Device, or (3) not a Managed Device. At its option, the Enrolled Affiliate may designate any device excluded above (e.g., Industry Device) that is used by or for the benefit of the Enrolled Affiliate's Enterprise as a Qualified Device for all or a subset of Enterprise Products or Online Services the Enrolled Affiliate has selected.

"Qualified User" means a person (e.g., employee, consultant, contingent staff) who: (1) is a user of a Qualified Device, or (2) accesses any server software requiring an Enterprise Product Client Access License or any Enterprise Online Service. It does not include a person who accesses server software or an Online Service solely under a License identified in the Qualified User exemptions in the Product Terms.

"Reseller" means an entity authorized by Microsoft to resell Licenses under this program and engaged by an Enrolled Affiliate to provide pre- and post-transaction assistance related to this agreement;

"Reserved License" means for an Online Service identified as eligible for true-ups in the Product Terms, the License reserved by Enrolled Affiliate prior to use and for which Microsoft will make the Online Service available for activation.

Physically Submitted

"State/Local Entity" means (1) any agency of a state or local government in the United States, or (2) any United States county, borough, commonwealth, city, municipality, town, township, special purpose district, or other similar type of governmental instrumentality established by the laws of Customer's state and located within Customer's state's jurisdiction and geographic boundaries.

"Tribal Entity" means a federally recognized tribal entity performing tribal governmental functions and eligible for funding and services from the U.S. Department of Interior by virtue of its status as an Indian tribe.

"Use Rights" means, with respect to any licensing program, the use rights or terms of service for each Product and version published for that licensing program at the Volume Licensing Site and updated from time to time. The Use Rights include the Product-Specific License Terms, the License Model terms, the Universal License Terms, the Data Protection Terms, and the Other Legal Terms. The Use Rights supersede the terms of any end user license agreement (on-screen or otherwise) that accompanies a Product.

"Volume Licensing Site" means http://www.microsoft.com/licensing/contracts or a successor site.

2. Order requirements.

a. Minimum order requirements. Enrolled Affiliate's Enterprise must have a minimum of 250 Qualified Users or Qualified Devices. The initial order must include at least 250 Licenses for Enterprise Products or Enterprise Online Services.

(i) Enterprise commitment. Enrolled Affiliate must order enough Licenses to cover all Qualified Users or Qualified Devices, depending on the License Type, with one or more Enterprise Products or a mix of Enterprise Products and the corresponding Enterprise Online Services (as long as all Qualified Devices not covered by a License are only used by users covered with a user License).

(ii) Enterprise Online Services only. If no Enterprise Product is ordered, then Enrolled Affiliate need only maintain at least 250 Subscription Licenses for Enterprise Online Services**.**

b. Additional Products. Upon satisfying the minimum order requirements above, Enrolled Affiliate may order Additional Products.

c. Use Rights for Enterprise Products. For Enterprise Products, if a new Product version has more restrictive use rights than the version that is current at the start of the applicable initial or renewal term of the Enrollment, those more restrictive use rights will not apply to Enrolled Affiliate's use of that Product during that term.

d. Country of usage. Enrolled Affiliate must specify the countries where Licenses will be used on its initial order and on any additional orders.

e. Resellers. Enrolled Affiliate must choose and maintain a Reseller authorized in the United States. Enrolled Affiliate will acquire its Licenses through its chosen Reseller. Orders must be submitted to the Reseller who will transmit the order to Microsoft. The Reseller and Enrolled Affiliate determine pricing and payment terms as between them, and Microsoft will invoice the Reseller based on those terms. Throughout this Agreement the term "price" refers to reference price. Resellers and other third parties do not have authority to bind or impose any obligation or liability on Microsoft.

f. Adding Products.

(i) Adding new Products not previously ordered. New Enterprise Products or Enterprise Online Services may be added at any time by contacting a Microsoft Account Manager or Reseller. New Additional Products, other than Online Services, may be used if an order is placed in the month the Product is first used. For Additional Products that are Online Services, an initial order for the Online Service is required prior to use.

Physically Submitted

(ii) **Adding Licenses for previously ordered Products.** Additional Licenses for previously ordered Products other than Online Services may be added at any time but must be included in the next true-up order. Additional Licenses for Online Services must be ordered prior to use, unless the Online Services are (1) identified as eligible for true-up in the Product Terms or (2) included as part of other Licenses.

g. **True-up requirements.** Enrolled Affiliate must submit an annual true-up order that accounts for any changes since the initial order or last order. If there are no changes, then an update statement must be submitted instead of a true-up order.

(i) **Enterprise Products.** For Enterprise Products, Enrolled Affiliate must determine the number of Qualified Devices and Qualified Users (if ordering user-based Licenses) at the time the true-up order is placed and must order additional Licenses for all Qualified Devices and Qualified Users that are not already covered by existing Licenses, including any Enterprise Online Services.

(ii) **Additional Products.** For Additional Products that have been previously ordered under this Enrollment, Enrolled Affiliate must determine the maximum number of Additional Products used since the latter of the initial order, the last true-up order, or the prior anniversary date and submit a true-up order that accounts for any increase.

(iii) **Online Services.** For Online Services identified as eligible for true-up in the Product Terms, Enrolled Affiliate may place a reservation order for the additional Licenses prior to use and payment may be deferred until the next true-up order. Microsoft will provide a report of Reserved Licenses ordered but not yet invoiced to Enrolled Affiliate and its Reseller. Reserved Licenses will be invoiced retrospectively to the month in which they were ordered.

(iv) **Subscription License reductions.** Enrolled Affiliate may reduce the quantity of Subscription Licenses at the Enrollment anniversary date on a prospective basis if permitted in the Product Terms, as follows:

1) For Subscription Licenses that are part of an Enterprise-wide purchase, Licenses may be reduced if the total quantity of Licenses and Software Assurance for an applicable group meets or exceeds the quantity of Qualified Devices and Qualified Users (if ordering user-based Licenses) identified on the Product Selection Form, and includes any additional Qualified Devices and Qualified Users added in any prior true-up orders. Step-up Licenses do not count towards this total count.

2) For Enterprise Online Services that are not a part of an Enterprise-wide purchase, Licenses can be reduced as long as the initial order minimum requirements are maintained.

3) For Additional Products available as Subscription Licenses, Enrolled Affiliate may reduce the Licenses. If the License count is reduced to zero, then Enrolled Affiliate's use of the applicable Subscription License will be cancelled.

Invoices will be adjusted to reflect any reductions in Subscription Licenses at the true-up order Enrollment anniversary date and effective as of such date.

(v) **Update statement.** An update statement must be submitted instead of a true-up order if, since the initial order or last true-up order, Enrolled Affiliate's Enterprise: (1) has not changed the number of Qualified Devices and Qualified Users licensed with Enterprise Products or Enterprise Online Services; and (2) has not increased its usage of Additional Products. This update statement must be signed by Enrolled Affiliate's authorized representative.

(vi) **True-up order period.** The true-up order or update statement must be received by Microsoft between 60 and 30 days prior to each Enrollment anniversary date. The third-year true-up order or update statement is due within 30 days prior to the Expiration Date, and any license reservations within this 30 day period will not be accepted. Enrolled Affiliate

Physical Submitted

may submit true-up orders more often to account for increases in Product usage, but an annual true-up order or update statement must still be submitted during the annual order period.

(vii) Late true-up order. If the true-up order or update statement is not received when due, Microsoft will invoice Reseller for all Reserved Licenses not previously invoiced and Subscription License reductions cannot be reported until the following Enrollment anniversary date (or at Enrollment renewal, as applicable).

h. Step-up Licenses. For Licenses eligible for a step-up under this Enrollment, Enrolled Affiliate may step-up to a higher edition or suite as follows:

(i) For step-up Licenses included on an initial order, Enrolled Affiliate may order according to the true-up process.

(ii) If step-up Licenses are not included on an initial order, Enrolled Affiliate may step-up initially by following the process described in the Section titled "Adding new Products not previously ordered," then for additional step-up Licenses, by following the true-up order process.

i. Clerical errors. Microsoft may correct clerical errors in this Enrollment, and any documents submitted with or under this Enrollment, by providing notice by email and a reasonable opportunity for Enrolled Affiliate to object to the correction. Clerical errors include minor mistakes, unintentional additions and omissions. This provision does not apply to material terms, such as the identity, quantity or price of a Product ordered.

j. Verifying compliance. Microsoft may, in its discretion and at its expense, verify compliance with this Enrollment as set forth in the Enterprise Agreement.

3. Pricing.

a. Price Levels. For both the initial and any renewal term Enrolled Affiliate's Price Level for all Products ordered under this Enrollment will be Level "D" throughout the term of the Enrollment.

b. Setting Prices. Enrolled Affiliate's prices for each Product or Service will be established by its Reseller. Except for Online Services designated in the Product Terms as being exempt from fixed pricing, As long as Enrolled Affiliate continues to qualify for the same price level, Microsoft's prices for Resellers for each Product or Service ordered will be fixed throughout the applicable initial or renewal Enrollment term. Microsoft's prices to Resellers are reestablished at the beginning of the renewal term.

4. Payment terms.

For the initial or renewal order, Microsoft will invoice Enrolled Affiliate's Reseller in three equal annual installments. The first installment will be invoiced upon Microsoft's acceptance of this Enrollment and remaining installments will be invoiced on each subsequent Enrollment anniversary date. Subsequent orders are invoiced upon acceptance of the order and Enrolled Affiliate may elect to pay annually or upfront for Online Services and upfront for all other Licenses.

5. End of Enrollment term and termination.

a. General. At the Expiration Date, Enrolled Affiliate must immediately order and pay for Licenses for Products it has used but has not previously submitted an order, except as otherwise provided in this Enrollment.

b. Renewal option. At the Expiration Date of the initial term, Enrolled Affiliate can renew Products by renewing this Enrollment for one additional 36-month term or by signing a new Enrollment. Microsoft must receive a Renewal Form, Product Selection Form, and renewal order prior to or at the Expiration Date. Microsoft will not unreasonably reject any renewal.

Previously Submitted

Microsoft may make changes to this program that will make it necessary for Customer and its Enrolled Affiliates to enter into new agreements and Enrollments at renewal.

c. If Enrolled Affiliate elects not to renew.

(i) Software Assurance. If Enrolled Affiliate elects not to renew Software Assurance for any Product under its Enrollment, then Enrolled Affiliate will not be permitted to order Software Assurance later without first acquiring a new License with Software Assurance.

(ii) Online Services eligible for an Extended Term. For Online Services identified as eligible for an Extended Term in the Product Terms, the following options are available at the end of the Enrollment initial or renewal term.

1) Extended Term. Licenses for Online Services will automatically expire in accordance with the terms of the Enrollment. An extended term feature that allows Online Services to continue month-to-month ("Extended Term") is available. During the Extended Term, Online Services will be invoiced monthly at the then-current published price as of the Expiration Date plus a 3% administrative fee for up to one year. If Enrolled Affiliate wants an Extended Term, Enrolled Affiliate must submit a request to Microsoft at least 30 days prior to the Expiration Date.

2) Cancellation during Extended Term. At any time during the first year of the Extended Term, Enrolled Affiliate may terminate the Extended Term by submitting a notice of cancellation to Microsoft for each Online Service. Thereafter, either party may terminate the Extended Term by providing the other with a notice of cancellation for each Online Service. Cancellation will be effective at the end of the month following 30 days after Microsoft has received or issued the notice.

(iii) Subscription Licenses and Online Services not eligible for an Extended Term. If Enrolled Affiliate elects not to renew, the Licenses will be cancelled and will terminate as of the Expiration Date. Any associated media must be uninstalled and destroyed and Enrolled Affiliate's Enterprise must discontinue use. Microsoft may request written certification to verify compliance.

d. Termination for cause. Any termination for cause of this Enrollment will be subject to the "Termination for cause" section of the Agreement. In addition, it shall be a breach of this Enrollment if Enrolled Affiliate or any Affiliate in the Enterprise that uses Government Community Cloud Services fails to meet and maintain the conditions of membership in the definition of Community.

e. Early termination. Any early termination of this Enrollment will be subject to the "Early Termination" Section of the Enterprise Agreement.

For Subscription Licenses, in the event of a breach by Microsoft, or if Microsoft terminates an Online Service for regulatory reasons, Microsoft will issue Reseller a credit for any amount paid in advance for the period after termination.

6. Government Community Cloud.

a. Community requirements. If Enrolled Affiliate purchases Government Community Cloud Services, Enrolled Affiliate certifies that it is a member of the Community and agrees to use Government Community Cloud Services solely in its capacity as a member of the Community and, for eligible Government Community Cloud Services, for the benefit of end users that are members of the Community. Use of Government Community Cloud Services by an entity that is not a member of the Community or to provide services to non-Community members is strictly prohibited and could result in termination of Enrolled Affiliate's license(s) for Government Community Cloud Services without notice. Enrolled Affiliate acknowledges that only Community members may use Government Community Cloud Services.

b. All terms and conditions applicable to non-Government Community Cloud Services also apply

Physically Signed

to their corresponding Government Community Cloud Services, except as otherwise noted in the Use Rights, Product Terms, and this Enrollment.

c. Enrolled Affiliate may not deploy or use Government Community Cloud Services and corresponding non-Government Community Cloud Services in the same domain.

d. **Use Rights for Government Community Cloud Services.** For Government Community Cloud Services, notwithstanding anything to the contrary in the Use Rights:

(i) Government Community Cloud Services will be offered only within the United States.

If Contractor has received authorization to subcontract work, it is agreed that all subcontractors performing work under the Agreement must comply with its provisions. Further, all agreements between Contractor and its subcontractors must provide that the terms and conditions of this Agreement be incorporated therein.

3. **ASSIGNMENT.** This Agreement may not be assigned either in whole or in part without first receiving the City's written consent. Any attempted assignment, either in whole or in part, without such consent will be null and void and in such event the City will have the right at its option to terminate the Agreement. No granting of consent to any assignment will relieve Contractor from any of its obligations and liabilities under the Agreement.

4. **SUCCESSORS AND ASSIGNS, BINDING EFFECT.** This Agreement will be binding upon and inure to the benefit of the parties and their respective permitted successors and assigns.

5. **NO THIRD-PARTY BENEFICIARIES.** This Agreement is intended for the exclusive benefit of the parties. Nothing set forth in this Agreement is intended to create, or will create, any benefits, rights, or responsibilities in any third parties.

6. **NON-EXCLUSIVITY.** The City, in its sole discretion, reserves the right to request the materials or services set forth herein from other sources when deemed necessary and appropriate. No exclusive rights are encompassed through this Agreement.

7. **AMENDMENTS.** There will be no oral changes to this Agreement. This Agreement can only be modified in a writing signed by both parties. No charge for extra work or material will be allowed unless approved in writing, in advance, by the City and Contractor.

8. **TIME OF THE ESSENCE.** Time is of the essence to the performance of the parties' obligations under this Agreement.

9. **COMPLIANCE WITH APPLICABLE LAWS.**

   a. **General.** Contractor must procure all permits and licenses, and pay all charges and fees necessary and incidental to the lawful conduct of business. Contractor must stay fully informed of existing and future federal, state, and local laws, ordinances, and regulations that in any manner affect the fulfillment of this Agreement and must comply with the same at its own expense. Contractor bears full responsibility for training, safety, and providing necessary equipment for all Contractor personnel to achieve throughout the term of the Agreement. Upon request, Contractor will demonstrate to the City's satisfaction any programs, procedures, and other activities used to ensure compliance.

   b. **Drug-Free Workplace.** Contractor is hereby advised that the City has adopted a policy establishing a drug-free workplace for itself and those doing business with the City to ensure the safety and health of all persons working on City contracts and projects. Contractor will require a drug-free workplace for all Contractor personnel working under this Agreement. Specifically, all Contractor personnel who are working under this Agreement must be notified in writing by Contractor that they are prohibited from the manufacture, distribution, dispensation, possession, or unlawful use of a controlled substance in the workplace.

Contractor agrees to prohibit the use of intoxicating substances by all Contractor personnel, and will ensure that Contractor personnel do not use or possess illegal drugs while in the course of performing their duties.

c. **Federal and State Immigration Laws.** Contractor agrees to comply with the Immigration Reform and Control Act of 1986 (IRCA) in performance under this Agreement and to permit the City and its agents to inspect applicable personnel records to verify such compliance as permitted by law. Contractor will ensure and keep appropriate records to demonstrate that all Contractor personnel have a legal right to live and work in the United States.

   i. As applicable to Contractor, under the provisions of A.R.S. § 41-4401, Contractor hereby warrants to the City that Contractor and each of its subcontractors will comply with, and are contractually obligated to comply with, all federal immigration laws and regulations that relate to their employees and A.R.S. § 23-214(A) (hereinafter "Contractor Immigration Warranty").

   ii. A breach of the Contractor Immigration Warranty will constitute as a material breach of this Agreement and will subject Contractor to penalties up to and including termination of this Agreement at the sole discretion of the City.

   iii. The City retains the legal right to inspect the papers of all Contractor personnel who provide services under this Agreement to ensure that Contractor or its subcontractors are complying with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any such inspections.

   iv. The City may, at its sole discretion, conduct random verification of the employment records of Contractor and any subcontractor to ensure compliance with the Contractor Immigration Warranty. Contractor agrees to assist the City in regard to any random verification performed.

   v. Neither Contractor nor any subcontractor will be deemed to have materially breached the Contractor Immigration Warranty if Contractor or subcontractor establishes that it has complied with the employment verification provisions prescribed by Sections 274A and 274B of the Federal Immigration and Nationality Act and the E-Verify requirements prescribed by A.R.S. § 23-214 (A).

d. **Nondiscrimination.** Contractor represents and warrants that it does not discriminate against any employee or applicant for employment or person to whom it provides services because of race, color, religion, sex, national origin, or disability, and represents and warrants that it complies with all applicable federal, state, and local laws and executive orders regarding employment. Contractor and Contractor's personnel will comply with applicable provisions of Title VII of the U.S. Civil Rights Act of 1964, as amended, Section 504 of the Federal Rehabilitation Act, the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and applicable rules in performance under this Agreement.

e. **State Sponsors of Terrorism Prohibition.** Per A.R.S. § 35-392, Contractor must not be in violation of section 6(j) of the Federal Export Administration Act and subsequently prohibited by the State of Arizona from selling goods of services to the City.

10. **SALES/USE TAX, OTHER TAXES.**

a. Contractor is responsible for the payment of all taxes including federal, state, and local taxes related to or arising out of Contractor's services under this Agreement, including by way of illustration but not limitation, federal and state income tax, Social Security tax, unemployment insurance taxes, and any other taxes or business license fees as required. If any taxing authority should deem Contractor or Contractor employees an employee of the City, or should otherwise claim the City is liable for the payment of taxes that are Contractor's responsibility under this Agreement, Contractor will indemnify the City for any tax liability, interest, and penalties imposed upon the City.

b. The City is exempt from paying certain federal excise taxes and will furnish an exemption certificate upon request. The City is not exempt from state and local sales/use taxes.

11. **AMOUNTS DUE THE CITY.** Contractor must be current and remain current in all obligations due to the City during the performance of Services under the Agreement. Payments to Contractor may be offset by any delinquent amounts due the City or fees and charges owed to the City.

12. **PUBLIC RECORDS.** Contractor acknowledges that the City is a public entity, subject to Arizona's public records laws (A.R.S. § 39-121 et. seq.) and that any documents related to this Agreement may be subject to disclosure pursuant to state law in response to a public records request or to subpoena or other judicial process.

a. If Contractor believes document related to the Agreement contains trade secrets or other proprietary data, Contractor must notify the City and include with the notification a statement that explains and supports Contractor's claim. Contractor also must specifically identify the trade secrets or other proprietary data that Contractor believes should remain confidential.

b. In the event the City determines it is legally required to disclose pursuant to law any documents or information Contractor deems confidential trade secrets or proprietary data, the City, to the extent possible, will provide Contractor with prompt written notice by certified mail, fax, email or other method that tracks delivery status of the requirement to disclose the information so Contractor may seek a protective order from a court having jurisdiction over the matter or obtain other appropriate remedies. The notice will include a time period for Contractor to seek court ordered protection or other legal remedies as deemed appropriate by Contractor. If Contractor does not obtain such court ordered protection by the expiration of said time period, the City may release the information without further notice to Contractor.

13. **AUDITS AND RECORDS.** Contractor must preserve the records related to this Agreement for six (6) years after completion of the Agreement. The City or its authorized agent reserves the right to inspect any records related to the performance of work specified herein. In addition, the City may inspect any and all payroll, billing or other relevant records kept by Contractor in relation to the Agreement. Contractor will permit such inspections and audits during normal business hours and upon reasonable notice by the City. The audit of records may occur at Contractor's place of business or at City offices, as determined by the City. Notwithstanding the foregoing, any Agreement audits must be pursuant to a signed Confidentiality Agreement agreed to by both parties which will be subject to applicable law, including the Arizona Public Records law. Contractor is not required to keep original documents and copies of relevant documents will suffice for the purposes of this provision. The audit must be conducted during regular business hours at a mutually agreeable time and location, and upon reasonable advanced notice of records to be audited.

14. **BACKGROUND CHECK.** The City may conduct criminal, driver history, and all other requested background checks of Contractor personnel who would perform services under the Agreement or who will have access to the City's information, data, or facilities in accordance with the City's current background check policies. Any officer, employee, or agent that fails the background check must be replaced immediately for any reasonable cause not prohibited by law.

15. **SECURITY CLEARANCE AND REMOVAL OF CONTRACTOR PERSONNEL.** The City will have final authority, based on security reasons: (i) to determine when security clearance of Contractor personnel is required; (ii) to determine the nature of the security clearance, up to and including fingerprinting Contractor personnel; and (iii) to determine whether or not any individual or entity may provide services under this Agreement. If the City objects to any Contractor personnel for any reasonable cause not prohibited by law, then Contractor will, upon notice from the City, remove any such individual from performance of services under this Agreement.

16. **DEFAULT.**

a. A party will be in default if that party:

i. Is or becomes insolvent or is a party to any voluntary bankruptcy or receivership proceeding, makes an assignment for a creditor, or there is any similar action that affects Contractor's capability to perform under the Agreement;

b. Contractor will be in default of this Agreement if Contractor is debarred from participating in City procurements and solicitations in accordance with Article 6 of the City's Procurement Rules.

c. **Notice and Opportunity to Cure.** In the event a party is in default then the other party may, at its option and at any time, provide written notice to the defaulting party of the default. The defaulting party will have thirty (30) days from receipt of the notice to cure the default; the thirty (30) day cure period may be extended by mutual agreement of the parties, but no cure period may exceed ninety (90) days. A default notice will be deemed to be sufficient if it is reasonably calculated to provide notice of the nature and extent of such default. Failure of the non-defaulting party to provide notice of the default does not waive any rights under the Agreement.

d. **Anticipatory Repudiation.** Whenever the City in good faith has reason to question Contractor's intent or ability to perform, the City may demand that Contractor give a written assurance of its intent and ability to perform. In the event that the demand is made and no written assurance is given within five (5) calendar days, the City may treat this failure as an anticipatory repudiation of the Agreement.

17. **REMEDIES.** The remedies set forth in this Agreement are not exclusive. Election of one remedy will not preclude the use of other remedies. In the event of default:

a. The non-defaulting party may terminate the Agreement, and the termination will be effective immediately or at such other date as specified by the terminating party.

b. The City may purchase the services required under the Agreement from the open market, complete required work itself, or have it completed at the expense of Contractor. If the cost of obtaining substitute services exceeds the contract price, the City may recover the excess cost by: (i) requiring immediate reimbursement to the City; (ii) deduction from an unpaid balance due to Contractor; (iii) collection against the proposal and/or performance security, if any; (iv) collection against liquidated damages (if applicable); or (v) a combination of the aforementioned remedies or other remedies as provided by law. Costs includes any and all, fees, and expenses incurred in obtaining substitute services and expended in obtaining reimbursement, including, but not limited to, administrative expenses, attorneys' fees, and costs.

c. The non-defaulting party will have all other rights granted under this Agreement and all rights at law or in equity that may be available to it.

d. Neither party will be liable for incidental, special, or consequential damages.

18. **CONTINUATION DURING DISPUTES.** Contractor agrees that during any dispute between the parties, Contractor will continue to perform its obligations until the dispute is settled, instructed to cease performance by the City, enjoined or prohibited by judicial action, or otherwise required or obligated to cease performance by other provisions in this Agreement.

19. **TERMINATION FOR CONVENIENCE.** The City reserves the right to terminate this Agreement in part or in whole upon thirty (30) calendar days' written notice.

20. **TERMINATION FOR CONFLICT OF INTEREST (A.R.S. § 38-511).** Pursuant to A.R.S. § 38-511, the City may cancel this Agreement within three (3) years after its execution, without penalty or

further obligation, if any person significantly involved in initiating, securing, drafting, or creating the Agreement for the City becomes an employee or agent of Contractor.

21. **TERMINATION FOR NON-APPROPRIATION AND MODIFICATION FOR BUDGETARY CONSTRAINT.** The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under this Agreement, the City will have the right to terminate the Agreement without penalty on the last day of the fiscal period for which funds were legally available. In the event of such termination, the City agrees to provide written notice of its intent to terminate thirty (30) calendar days prior to the stated termination date.

22. **PAYMENT TO CONTRACTOR UPON TERMINATION.** Upon termination of this Agreement, Contractor will be entitled only to payment for those services performed up to the date of termination, and any authorized expenses already incurred up to such date of termination. The City will make final payment within thirty (30) calendar days after the City has both completed its appraisal of the materials and services provided and received Contractor's properly prepared final invoice.

23. **NON-WAIVER OF RIGHTS.** There will be no waiver of any provision of this agreement unless approved in writing and signed by the waiving party. Failure or delay to exercise any rights or remedies provided herein or by law or in equity, or the acceptance of, or payment for, any services hereunder, will not release the other party of any of the warranties or other obligations of the Agreement and will not be deemed a waiver of any such rights or remedies.

24. **INDEMNIFICATION/LIABILITY.**

a. To the fullest extent permitted by law, Contractor agrees to defend, indemnify, and hold the City, its officers, agents, and employees, harmless from and against any and all liabilities, demands, claims, suits, losses, damages, causes of action, fines or judgments, including costs, attorneys', witnesses', and expert witnesses' fees, and expenses incident thereto, relating to, arising out of, or resulting from: (i) misconduct by Contractor personnel under this Agreement; (ii) any negligent acts, errors, mistakes or omissions by Contractor or Contractor personnel; and (iii) Contractor or Contractor personnel's failure to comply with this Agreement. However, notwithstanding the prior sentence, any claim shall not be an indemnified claim if such claim or damage was caused in whole by the actions of the City, its employees, agents, contractors or representatives.

b. Contractor will update the City during the course of the litigation to timely notify the City of any issues that may involve the independent negligence of the City that is not covered by this indemnification.

c. The City assumes no liability for actions of Contractor and will not indemnify or hold Contractor or any third party harmless for claims based on this Agreement or use of Contractor-provided supplies or Services.

d. IN THE EVENT OF ANY LIABILITY INCURRED BY CONTRACTOR OR ANY OF ITS AFFILIATES HEREUNDER, INCLUDING INDEMNIFICATION OF CITY BY CONTRACTOR, THE ENTIRE LIABILITY OF CONTRACTOR AND ITS AFFILIATES FOR DAMAGES FROM ANY CAUSE WHATSOEVER WILL NOT EXCEED $5,000,000.00 OVER THE ENTIRE TERM OF THE AGREEMENT.

25. **WARRANTY.** Contractor warrants that the services and materials will conform to the requirements of Exhibit A. Additionally, Contractor warrants that all services will be performed in a good, workman-like and professional manner, as stated below.

a. Manufacturer's Warranty. The City understands that the Contractor is not the manufacturer of the products purchased by the City hereunder and the only materials (product) warranties offered are those of the manufacturer, not the Contractor or its affiliates unless the manufacturer is the Contractor or its affiliates. THE DISCLAIMER CONTAINED IN THIS PARAGRAPH DOES NOT AFFECT THE TERMS OF ANY MANUFACTURER'S WARRANTY.

b. Services Warranty. City's sole and exclusive remedy with respect to a warranty on the Services provided by Contractor will be, at the sole option of Contractor, to either: (a) use its reasonable commercial efforts to reperform any services not in substantial compliance with this warranty, or (b) refund amounts paid by City related to the portion of the services not in substantial compliance; provided, in each case, City notifies Contractor in writing within five (5) business days after performance of the applicable Services. City shall be solely responsible for daily back-up and other protection of its data and software against loss, damage or corruption during the performance of services and for any necessary reconstruction thereof.

c. Third Party Services Warranty. In connection with the products (materials), certain services, such as extended warranty service by manufacturers, are sold by the Contractor as a distributor or sales agent ("Third Party Services"). Any amounts, including, but not limited to, taxes, associated with Third Party Services which may be collected by the Contractor will be collected solely in the capacity as an independent sales agent.

27. **NO GUARANTEE OF WORK.** Contractor acknowledges and agrees that it is not entitled to deliver any specific amount of materials or services or any materials or services at all under this Agreement and acknowledges and agrees that the materials or services will be requested by the City on an as needed basis at the sole discretion of the City. Any document referencing quantities or performance frequencies represent the City's best estimate of current requirements, but will not bind the City to purchase, accept, or pay for materials or services which exceed its actual needs.

28. **OWNERSHIP.**

a. Except as it pertains to the Work Product in Subsection (b) below, all deliverables, services, and information provided by Contractor or the City pursuant to this Agreement (whether electronically or manually generated) including without limitation, reports, test plans, and survey results, graphics, and technical tables, originally prepared in the performance of this Agreement, are the property of the City and will not be used or released by Contractor or any other person except with prior written permission by the City.

Background/History:

Beginning on July 2019, the Museum Fire severely burned approximately 2000 acres of ponderosa pine, grass and brush in an area north of Flagstaff, which negatively impacted soil structure and water retention within the designated Flagstaff area watershed footprint. The resulting burn scar created a severe post-fire flooding environment and risk potential to the community.
The expected post-fire flood potential has increased by three orders of magnitude with preliminary modeling indicating near 1200 cubic feet per second of devastating flood flows from a 2 inch rain event in 45 minutes (roughly a 4% annual exceedance storm) through portions of north Flagstaff.

Two key areas were identified for use of this grant fund, parcels near Ponderosa Park for access to the new channel and a parcel near Linda Vista for expanded flood mitigation opportunities. The priority will be acquiring the parcels near Ponderosa Park.

Funding for this project was provided by Congressional Directed Spending (i.e. "earmarks") but required a grant application and a grant funding avenue through the Federal Emergency Management Agency (FEMA) to DEMA to the City as a subrecipient. This awarded grant is the result of successful lobbying of Congress and substantial staff time meeting the requirements of FEMA and DEMA grant process.

Community Benefits and Considerations:

This Grant Agreement will fund $2,199,999.60 (total grant award amount) for property acquisition in the Spruce Wash corridor which will help reduce / relieve imminent threats to life and property cause by post wildfire flooding.

Community Involvement:

The community has been involved since 2019 when the Museum Fire occurred, staff hold regular community meetings, social media posts, and e-newsletters on the general topic of post-fire flooding.

1. **PURPOSE OF AGREEMENT** - The purpose of this Agreement is to specify the rights and responsibilities of DEMA in administering the distribution of Hazard Mitigation Assistance Grant (HMA) funds to Subrecipient, and to specify the rights and responsibilities of Subrecipient as the recipient of these funds.

2. **TERM OF AGREEMENT** - This Agreement shall become effective on September 30, 2023 and shall terminate on September 29, 2026. The rights and responsibilities of DEMA and Subrecipient as described herein will survive termination of this agreement.

All funds received by Subrecipient through DEMA under this Agreement are agreed to be federal matching funds; Subrecipient shall be solely responsible for providing the other 25% (cash or in-kind) in order to obtain these federal matching funds.

iii. The Federal Emergency Management Agency (FEMA) administers cost matching requirements in accordance with 2 CFR. 200.306, and Subrecipient contributions must meet the standards of 2 CFR. 200.306 and all other applicable federal law.

STAFF SUMMARY REPORT

To:	The Honorable Mayor and Council
From:	Bryce Doty, Real Estate Manager
Co-Submitter:	CJ Perry
Date:	10/30/2023
Meeting Date:	11/07/2023

TITLE:

Consideration and Adoption of Ordinance No. 2023-23: An ordinance of the Flagstaff City Council authorizing the acquisition of real property interests for a fiber network as a betterment to the Rio de Flag Flood Control Project; providing for delegation of authority, repeal of conflicting ordinances, severability, clerical corrections, and establishing an effective date.

STAFF RECOMMENDED ACTION:

1. Read Ordinance No. 2023-23 by title only for the final time
2. City Clerk reads Ordinance No. 2023-23 by title only (if approved above)
3. Adopt Ordinance No. 2023-23

Executive Summary:

As a betterment to the Rio de Flag flood control project, fiber conduit will be placed within the channel and box culvert corridor in areas identified by the Information Technology department. The majority of fiber will be placed within existing right of way; however, within the channel and box culvert corridor outside of existing right of way, the City does not currently have the rights to place fiber. This ordinance authorizes acquisition of fiber easements on those private property parcels within the Rio de Flag flood control project corridor.

Financial Impact:

The easements needed for the Rio de Flag flood control project already heavily burden the parcels, the additional fiber easement takes are expected to cost no more than 5% of the fee simple value of the property. The cost for the easements will be paid by Information Technology, Account Number 001-01-014-6312-1-XXXX.

Policy Impact:

No Impact

STAFF SUMMARY REPORT

To:	The Honorable Mayor and Council
From:	Bryce Doty, Real Estate Manager
Co-Submitter:	Anja Wendel
Date:	10/30/2023
Meeting Date:	11/07/2023

TITLE:

Consideration and Adoption of Resolution No. 2023-55: A resolution of the Flagstaff City Council authorizing condemnation of real property for the Lone Tree Overpass project; providing for delegation of authority, and establishing an effective date

STAFF RECOMMENDED ACTION:

1. Read Resolution No. 2023-55 by title only
2. City Clerk reads Resolution No. 2023-55 by title only (if approved above)
3. Adopt Resolution No. 2023-55

Executive Summary:

The Lone Tree Overpass project requires the City to acquire 27 square feet of land for right-of-way and a 1,134 square foot temporary construction easement from a property located at 602 East Butler Rd. Flagstaff, Arizona, 86001. The land is also known as parcel no. 104-04-008A by the Coconino County Assessor.

The property owner is willing to sell the property interests to the City. However, due to existing tax liens on the property, a condemnation proceeding is necessary in order for the City to obtain clear title to the required property interests. This resolution authorizes the City to file a condemnation proceeding for the property interests.

Financial Impact:

The just compensation to be paid for the property interests is $4,655.00, based on the City's appraisal. The City will incur additional expense as a result of filing a condemnation proceeding. The acquisitions will be funded by the Lone Tree Overpass Project Capital Improvements (Account No. 047-10-112-3054-6-4421)

CITY OF FLAGSTAFF

STAFF SUMMARY REPORT

To:	The Honorable Mayor and Council
From:	Carmen Pryer, Real Estate Specialist
Co-Submitter:	Bryce Doty
Date:	10/30/2023
Meeting Date:	11/07/2023

TITLE:

Consideration and Adoption of Ordinance No. 2023-25: An ordinance of the City Council of the City of Flagstaff, ratifying the grant and reservation of easements; and formally accepting dedications and donations of easements and real property interests; providing for severability, authority for clerical corrections, and establishing an effective date. **(Approving receipt/transfer of easements and real property interests)**

STAFF RECOMMENDED ACTION:

At the November 7, 2023 Council Meeting:
1) Read Ordinance No. 2023-25 by title only for the first time
2) City Clerk reads Ordinance No. 2023-25 by title only (if approved above)

At the November 21, 2023 Council Meeting:
3) Read Ordinance No. 2023-25 by title only for the final time
4) City Clerk reads Ordinance No. 2023-25 by title only (if approved above)
5) Adopt Ordinance No. 2023-25

Executive Summary:

The proposed ordinance authorizes property acquisitions as contemplated by the Flagstaff City Charter, Article VII, section 5, which provides that acquisition of all public real property and property exchanges are to be authorized by ordinance.

The ordinance serves to approve acquisitions or dispositions of real property that already have occurred. The City regularly receives real property interests from private property owners during the development review process and per City Code. Typically these real property interests are acquired by dedication or donation. These acquisitions may be for drainage, utilities, the urban trails system, slopes, rights-of-way or other public purposes. Additionally, the City has also granted utility easements across City-owned property necessary for City projects.

The proposed ordinance also approves some acquisitions or dispositions of real property that have been previously authorized by Council for capital projects, property exchanges, development agreements, or other purposes. These transactions are included in the ordinance as some of the legal descriptions have changed slightly between original authorization and final design for capital projects, and because having a comprehensive list of transactions is useful for City audit purposes.

The proposed ordinance does not include a list of the real property interests dedicated to the City upon recordation of a final plat. The City Council approves all final plats.

Financial Impact:

Real property is considered a fixed asset in the City. Until City Council approves an ordinance accepting the acquisitions, the real property value is not recognized in an audit so while there is not an actual financial expenditure associated with these acquisitions, there is a fixed asset value the City receives through this action.

Policy Impact:

None

Connection to PBB Priorities/Objectives, Carbon Neutrality Plan & Regional Plan:

TRANSPORTATION AND OTHER PUBLIC INFRASTRUCTURE
Deliver quality community assets and continue to advocate and implement a highly performing multi-modal transportation system.

Has There Been Previous Council Decision on This:

Council has ratified other real property transactions and easements approved through the development review process. This ratification usually occurs on an annual basis. The Council adopted a similar Ordinance No.2020-03, February 4, 2020.

Options and Alternatives:

1. Adopt the Ordinance
Pros: Formally approving the real property interest transactions conforms with City practices.
Cons: None.
2. Do not adopt the Ordinance. In this case, transactions may be voided or there would be a further discussion as to appropriate action.
Pros: None identified.
Cons: This may result in loss of legal rights to use properties for utilities, trails, drainage, and other public purposes.

Background/History:

The City Charter requires the acquisition and disposition of real property by ordinance. The City generally applies this principle to lesser interests as well.

Key Considerations:

The real property interests received or transferred are necessary for the provision of services as the community grows and the liability assumed is consistent with these same real property rights throughout the community.

Community Benefits and Considerations:

The Flagstaff community will benefit from acquisition of real property interests that are used by and serve community needs

8. Compliance with All Laws
Each Party shall comply with all federal, state, and local laws, rules and regulations.

9. Execution Procedure
This Agreement will be executed in counterparts by the governing body of each Party.

10. Non-Discrimination
Each Party warrants that it complies with any state and federal laws, rules and regulations which mandate that all persons, regardless of race, color, creed, religion, sex, genetic information, age, national origin, disability, familial status or political affiliation, shall have equal access to employment opportunities, including but not limited to the Americans with Disabilities Act. Each Party shall take affirmative action to ensure that it will not participate either directly or indirectly in the discrimination prohibited by or pursuant to Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Section 109 of the Housing and Community Development Act of 1974, the Age Discrimination Act of 1975, Genetic Information

11. Legal Arizona Workers Act Compliance
Parties are required to comply with A.R.S. §41-4401, and hereby warrants that they will, at all times during the term of this Agreement, comply with all federal immigration laws applicable to the employment of their respective employees, the requirements of A.R.S. §41-4401, and with the e-verification requirements of A.R.S. §23-214(A) (together the "state and federal immigration laws"). 13. No Third Party Beneficiaries
The Parties acknowledge and agree that the terms, provisions, conditions, and obligations of this Agreement are for the sole benefit of, and may be enforceable solely by, the Parties, and none of the terms, provisions, conditions, and obligations of this Agreement are for the benefit of, or may be enforced by, any person or entity not a party to this Agreement.

14. Right to Enter into Additional Agreements

The PARTIES to this Agreement are not precluded from participating in additional or supplemental IGA's or contracts as deemed appropriate by the PARTIES. Nothing in this Agreement shall limit the ability of a PARTY to provide or collaborate with another jurisdiction, which is not a participant in this Agreement, for training; that is apart from the services provided by the Regional Training Coordinator, as set forth by this Agreement.

15. Waiver of Potential Conflict

The HIGHLANDS FIRE DISTRICT, the PINEWOOD FIRE DISTRICT, the PONDEROSA FIRE DISTRICT, and the SUMMIT FIRE & MEDICAL DISTRICT (these foregoing hereafter collectively referred to as the "jointly-represented parties") consent to the Coconino County Attorney's Office representing all of them jointly, and acknowledge that they have all been advised of the potential for conflicts of interest, including the specific advantages and risks involved with joint representation, and potential consequences that would be created by future conflicts, if any should arise. For instance, these jointly-represented parties were instructed that although joint representation could yield a cost savings on attorneys' fees and also result in easier coordination, no one party's interests could be advocated above that of the others by the attorney. It was explained to all of the jointly-represented parties that this could result in less favorable terms for either one or another of them, because negotiations could not be conducted in a partisan manner with the assistance of counsel as between and amongst the jointly-represented parties. It was further explained to the jointly-represented parties that as amongst them only, joint representation would result in the loss of confidentiality as to each other with regard to the subject matter of the joint representation. It was further explained that if the joint representation should result in an irreconcilable conflict in the future, which either required or resulted in one or more of their number filing a lawsuit against one or more of the others with respect to the subject matter of the joint representation, or else resulted from another non-waivable conflict, then the Coconino County Attorney's Office would be required to withdraw from representing all parties involved with the irreconcilable and non-waivable conflict, and all such parties involved therewith would have to incur the expense of retaining new replacement counsel. The jointly-represented parties additionally acknowledge that they have been advised and are aware that the Coconino County Attorney does represent several fire districts, including the undersigned. The jointly-represented parties additionally acknowledge that they have the right to have independent counsel review this Agreement and/or the Coconino County Attorney's Office's joint representation in this matter, and all of the jointly-represented parties hereby acknowledge that they have consulted such counsel or have waived the right to consult such counsel. The jointly-represented parties further acknowledge that they understand their rights, and notwithstanding this disclosure, do hereby confirm their waiver any conflict of interest that may arise by reason of the Coconino County Attorney's Office's representation of the undersigned in this matter, and consent to the joint representation of all of the jointly-represented parties by the Coconino County Attorney's Office.

CITY OF FLAGSTAFF

STAFF SUMMARY REPORT

To: The Honorable Mayor and Council

From: Stacey Brechler-Knaggs, Grants, Contracts & Emergency Management Director

Co-Submitter: Edward Schenk

Date: 10/30/2023

Meeting Date: 11/07/2023

TITLE:

Consideration and Adoption of Resolution No. 2023-53: A resolution authorizing an Intergovernmental Agreement (IGA) between the City of Flagstaff and the State of Arizona, acting by and through the Department of Transportation (ADOT) for US180 at Schultz Creek Drainage Maintenance.

STAFF RECOMMENDED ACTION:

1. Read Resolution No. 2023-53 by title only
2. City Clerk reads Resolution No. 2023-53 by title only (if approved above)
3. Adopt Resolution No. 2023-53

Executive Summary:

City will be responsible to design, advertise, award, and administer construction of a new drainage system and appurtenances at US180 and Schultz Creek to alleviate post-fire flooding caused by the 2022 Pipeline Fire. The City will be required to obtain an encroachment permit from the State to complete the project and be responsible for actual costs, any new right of way and temporary construction easements, operations, and maintenance of the project. This IGA also provides for maintenance of the interim condition infrastructure including a restrictive plate that prevents a “bubbler” overflow situation near Northwood Apartments. The interim condition infrastructure will be removed, or bypassed, during the construction of the new drainage system.

Financial Impact:

Cost of permitting, design, construction, and future operations and maintenance of the project. The State will review the City's project design plans and provide an inspector for the potion of the City's project within the ADOT right of way at no additional cost to the city. City funding for the permitting, design, and construction is secured through a FY24 State appropriations, future operations and maintenance will be funded out of the City Stormwater Utility.

Policy Impact:

None

Connection to PBB Priorities/Objectives, Carbon Neutrality Plan & Regional Plan:

Priority Based Budget Key Community Priorities and Objectives

Sustainable Innovative Infrastructure - Deliver outstanding services to residents through healthy well maintained infrastructure system

Has There Been Previous Council Decision on This:

No, this is a distinct IGA between the State and the City for a singular stormwater conveyance structure at US180.

Options and Alternatives:

- Approve the IGA for the drainage maintenance
- Do not approve the IGA which could result in the project not proceeding and could cause future flooding risks.

Background/History:

In summer 2023 the State constructed improvements and repairs of the existing storm drainage system along US180 and added a new 48-inch line perpendicular to the US180 from the right of way to the Rio de Flag. These repairs were required due to ground subsidence and pipe failure during spring 2023. The repairs and improvements were intended as an interim condition until proper funding and design was brought forward to mitigate flood impacts from the upstream 2022 Pipeline Fire. As part of the interim improvement the State installed, at the City's request, a flow restriction plate within the box culvert at the entrance to the 48-inch existing line paralleling US180 to the south, this plate prevents a "bubbler" condition near the Northwood Apartments due to a further constriction in the pipe. The city will be responsible for any effects caused solely by the restrictive plate that are unanticipated, including but not limited to cleanup of any debris within the roadway. The city will remove the restrictor place, at the city's expense, upon mutual agreement of both parties, should the restrictor place cause unanticipated negative impacts. The future improvement will remove, or bypass, this section of stormwater infrastructure including the plate, making the previous sentences nullified.

Key Considerations:

City will submit an encroachment permit for related pre-construction activities as needed, and an encroachment permit application for routine maintenance and emergency work.

Community Benefits and Considerations:

The project will provide much needed mitigation from future flooding to downstream neighborhoods, conveying up to the 100 year post-fire flood in Schultz Creek. The interim conditions provide partial flood mitigation, approximately 200 CFS more capacity than pre-2023.

Dear Mr. Foley,

Attached to this letter is a proposed concept plan to provide temporary diversion of Schultz flows from the Hwy 180 culvert to the Rio de Flag channel to the west. The City of Flagstaff ("City") has successfully acquired rights of entry for all the parcels depicted on the plan to allow for construction to commence immediately.

With respect to the 48" CMP Replacement pipeline that parallels Hwy 180, ADOT is proceeding to replace this pipeline as it is in a state of disrepair. It is noted that the City initially requested that this pipeline be downsized to 36" to enable increased flow of stormwater into the temporary diversion infrastructure shown on the plan. In response, ADOT has agreed, as an alternative to downsizing the pipe, to install a flow restricting device to be constructed inside the box extension at the inlet to the existing 48" pipe.

The City agrees to accept all liability associated with this change, as the ultimate impacts of this modification are untested. The City agrees to remove the flow restriction device, if needed and agreed upon mutually between City and ADOT. Additionally, the City agrees to assume maintenance responsibility of both the temporary and future permanent infrastructure at this location. With respect to the permanent infrastructure, the City, having received $8.9 million in legislative appropriations in the 2024 budget, shall design and construct permanent improvements to accommodate the Schultz Creek drainages. Such improvements will be constructed within the ADOT Right of Way under an encroachment permit issued by the Northcentral District.

The City agrees to execute an IGA as soon as possible and preferably prior to City Council recess for the 2023 summer, which shall formalize the above agreements.

Yes, City Council placed Proposition 442 on the ballot for the November 2022 election with one of the funding items being “Incentivizing the Private Sector to Incorporate Affordable Rental Housing in New Developments.”
A Work session on the Rental Incentive Bond Program was held October 24, 2023

Background/History:

Housing Bond Background
Proposition 442 – authorizing the use $20 million dollars of general obligation bonds for “Creating Rental and Ownership Opportunities for Residents of Flagstaff” was approved by the voters in the November 2022 General Election. Proposition 442 identified four affordable housing spending categories, including incentivizing the private sector to incorporate affordable rental housing into new developments as one of the identified purposes. Provided below is language from both the ballot itself and the publicity pamphlet:

Ballot Language:
“To create rental and homeownership opportunities for residents of Flagstaff, shall the City of Flagstaff be authorized to issue and sell general obligation bonds in a principal amount up to $20,000,000 for the purpose of:
• redeveloping City owned housing to create additional affordable rental units;
• repurposing existing available buildings into rental units;
• **incentivizing the private sector to incorporate affordable rental housing into new developments;** and
• expanding the homebuyer assistance program? “

From the City of Flagstaff Information Pamphlet, below is the language specific to the program under consideration:
Incentivizing the Private Sector to Incorporate Affordable Rental Housing in New Developments (Approximately $5,000,000)
"Funding will be utilized to incentivize private developers, including non-profits, to incorporate affordable

rental units in market rate developments. This investment is anticipated to create an estimated 400-500 new rental units affordable to the residents of Flagstaff, in addition to the market rate units in the new developments.

The proceeds of the bonds may be used for any and all costs relating to such projects, including the costs of designing, engineering, acquiring, administering, improving, constructing, reconstructing, and equipping such projects and any and all appurtenances or land related thereto."

A working group of Housing Commission members and Housing staff developed the RIBP draft in summer 2023. The 13-member Housing Commission has membership reflective of specific professional categories. The working group membership was comprised of Commissioners representing the following professional categories: Realtor/Property Manager, Builder, Developer, Low-Income Housing Expert and Real Estate Professional.

The draft RIBP was reviewed by the Housing Commission at the September 28, 2023, meeting. After discussion and feedback, the Commission voted unanimously to forward the draft RIBP to City Council with a recommendation for approval, reflective of recommended changes and allowing for technical and conforming changes to be made by staff as needed. A t the October 24, 2023, work session Council discussed the draft Program and provided feedback for the final draft.

Program Overview

The RIBP will provide loans to eligible developers of rental housing choosing to provide a minimum of 10% affordable units in new rental developments in Flagstaff serving households at or below 80% area median income ($65,450 for a household of 3). One of the critical elements of the Program is to leverage bond funding to the greatest extent possible to assist in the creation of the largest number of rental units, including affordable.

The RIBP calls for a competitive application process through a Notice of Funding Availability (NOFA). Every effort has been made to make the application and award process as simple and expeditious as possible for developers and staff, while maintaining the necessary safeguards surrounding expenditure of public money.

The five-page document outlining the RIBP contains the following sections:

- Funding Background
- Program Creation and Administration
- Program Description
- Program Eligibility (including eligible applicants)
- Submittal Requirements
- Ranking Committee and Award Process
- Compliance

The attached RIBP document includes changes requested by Council at the October 24th work session including:

- **Clarifying language about the NOFA process being repeated if there are remaining or returned Program funds**
- **Moved 'acquisition' from Eligible Uses of Program Funds to Ineligible Uses**
- **Clarifying language about funds being made available after Council approval of contracts and recording of associated documents.**

Additionally, after consulting with city staff, the timeframe requirement for an awardee to obtain building permits was extended by 6 months, from 18 to 24 months. Providing this additional time for a project to progress through the development process will increase developers' opportunity for success in meeting Program requirements.

Key Considerations:

The overarching goal of this Program is to assist in the creation of 400 – 500 new affordable rental units. Progress toward this goal will be considered during the award process.

A NOFA process will ensure that bond funds are maximized and leveraged with other funding sources.

By staff's estimate, there are currently more than ten unbuilt affordable rental developments in various stages of pre-development that could be eligible for these funds.

Community Benefits and Considerations:

City Council has declared a Housing Emergency and this funding will be used to assist in the creation of new affordable rental units in Flagstaff. As documented in the 10-Year Housing Plan, the need for increased affordable housing options remains high. Nearly half (47%) of Flagstaff residents are low-income, earning no more than $55,350 annually. In Flagstaff's current housing market, 65% of households that fall within or below the moderate-income level could benefit from some form of subsidy to achieve housing that is considered affordable.

Community Involvement:

Proposition 442 was placed on the November 2022 ballot via a public process and was approved by voters. Additionally, the RIBP was created and recommended by the City of Flagstaff Housing Commission for approval by City Council.

Program Creation and Administration

The City of Flagstaff Housing Section assembled a working group of five members of the Housing Commission to develop the following program requirements. A draft of the Rental Incentive Bond Program was reviewed by the Housing Commission, and the Commission voted unanimously to forward the draft RIBP to City Council with a recommendation for approval on September 28, 2023. The final program was ~~reviewed and~~ approved by Flagstaff City Council on ~~October 17~~November 7, 2023, and adopted by Resolution No. 2023-51.

City of Flagstaff Housing Section staff is responsible for soliciting funding applications that will be reviewed and scored by a ranking committee (described below). It is the intent of this program to make the application and award process as simple and expeditious as possible for both the developer and staff, while maintaining the necessary safeguards surrounding expenditure of public money.

DRAFT

The Housing Commission provides oversight of any funds approved by the electorate for housing purposes (City Code Chapter 2-25-001-0005). Once the ranking committee's recommendations for funding are complete, they will be brought to Council for their consideration. Contracts for the bond funds will require Council approval. Please see Ranking Committee and Award Process section for additional details regarding timing. The long-term administration of the funding and program compliance will involve the City's Housing Section and Management Services Division staff.

Contracts will be completed and executed thereafter. Applicants shall not make substantive changes to the project once a contract is fully executed without the expressed written consent of the City. Applicants shall not pursue additional project funding that would reduce the number of affordable units as described in the fully executed contract.

Butler-Fourth Improvements Project - Design Alternatives Discussion

STAFF RECOMMENDED ACTION:

Discussion only. The Butler-Fourth Improvements Project Team will present an update on efforts to date, public outreach efforts, discuss design alternatives, and seek Council direction on the design alternatives.

EXECUTIVE SUMMARY:

The Butler-Fourth Improvements Project is a combined project formerly shown as the Butler Avenue Widening and Butler-4th Intersection Reconstruction projects. The project is in the vicinity of Butler Avenue and Fourth Street in Flagstaff, Arizona, and can be generally described as a roadway, stormwater, and utility improvements project.

The project consists of widening Butler Avenue from Little America to Sinagua Heights Subdivision and widening Fourth Street from Warm Springs Trail/Sparrow Avenue to the upcoming Canyon Del Rio development south of Butler Avenue. Several intersections, new and existing, will be impacted along Butler Avenue. The Herold Ranch Road intersection will be re-aligned and converted to a roundabout. The Butler Avenue and Fourth Street intersection will consider a roundabout vs signalized intersection and will be raised to reduce flooding impacts from Spruce Avenue Wash. The project will include ITS (Fiber Optic Conduit) facilities and enhanced bicycle and pedestrian treatments, including off-street bike lanes and sidewalks within project limits. Finally, this project will likely have several utility relocations, possible pipe upsizing, and significant stormwater infrastructure improvements. This project will be delivered through the Construction Manager At Risk (CMAR) project delivery process. Construction is programmed to begin in FY24.

1 Introduction

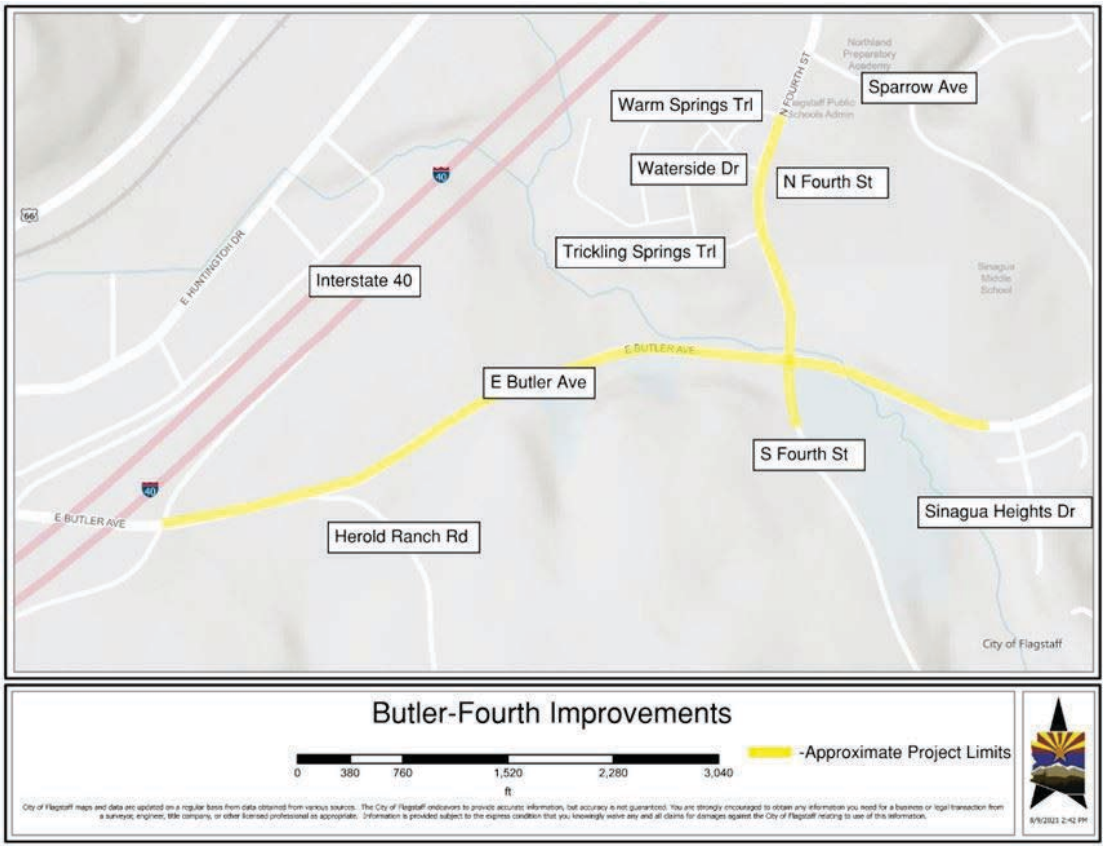
This report summarizes the results of a community survey conducted in support of the Butler-Fourth roadway project.

This project will widen Butler Avenue between the I-40 interchange and Sinagua Heights and Fourth St between Warm Springs Trail and Butler. Intersections along Butler Avenue will also be reconstructed as part of the project: a new roundabout is planned at Herold Ranch Rd, and several options are being considered for the intersection at Butler Ave and Fourth St, including conventional signalized intersections or a roundabout.

More information about the project is available at the project website: https://flagstaff.az.gov/4898/Butler-Fourth-Improvements-Project

The survey was open between October 15 and October 29, 2023, and hosted online on the Flagstaff Community Forum website: www.flagstaff.az.gov/fcf. A total of 179 surveys were completed.

The intent of this survey is to solicit community feedback on the proposed Butler-Fourth roadway project. Results from the survey will be considered in the process to select a final preferred intersection configuration and to generally guide design of the roadway corridor.



2 Respondents

The survey included several questions that were intended to gauge respondents' familiarity and use of the corridor.

- Just under half of respondents reported that they live in the vicinity - about a mile - of the project, while another 46 percent said they live in another neighborhood in Flagstaff.
- Most respondents (59.1 percent) use the corridor more than ten times per month.
- A total of 48 respondents attended the public meeting for the project at the Aquaplex on August 18, 2023. There were more than 100 attendees total at this meeting.

3 Project priorities

Respondents were asked to rate a number of general project considerations to indicate their priorities, or what is important to them, about the project. The rating use a scale of 1 to 5, where 1 was not-at-all important and 5 was very important.

- Of the nine project considerations, safety, or reducing the frequency and severity of crashes, was given the highest average score of 4.45.
- Pedestrian and bicycle facilities were ranked as close second, with an average score of 4.40. A total of 70.1 percent of respondents ranked pedestrian and bicycles as very important, which was highest among the nine considerations.
- Traffic flow and future traffic were ranked fifth and sixth, with average scores of 3.81 and 3.62 respectively.

4 Intersection preferences

In this section of the survey, respondents were asked to indicate their preference from among four configuration options for the Butler-Fourth intersections, which are depicted on the following page:

- 7x7 conventional signalized intersection
- 6x6 conventional signalized intersection
- 2x2 roundabout with right turn lanes
- No build (leave as is)

Respondents were also asked a series of follow-up questions about options for phasing the intersection.

- The 2x2 roundabout with right turn lanes was ranked as the first option by just under half of respondents (48.3 percent), and it had the highest average priority of the four options.
- The 6x6 conventional intersection was ranked a distant second, with 23.1 percent of respondents selecting it as their first option.
- Just about half of respondents (50.8 percent) indicated support for a smaller, 2x2 roundabout with no right turn lanes, and 44.7 percent said that would support a 5x5 conventional signalized intersection.
- A plurality of respondents (33.5 percent) indicated that five to ten years would be a reasonable length of time to wait after a smaller intersection is built before considering an expansion.

5 Pedestrian and bicycle priorities

Respondents were asked a rate the important of a series of pedestrian and bicycle facilities that are being considered as part of the project. Each type of facilities was ranked on a scale of 1 to 5, where 5 is very important and 1 is not important.

- Separated bike lanes were rated highest, with an average score of 4.40, followed by protected intersections with a score of 4.13. A total of 72.4 percent of respondents rated off-street, separated intersections as very important.

6 Other objectives and goals

Reduce traffic congestion first and foremost
Not creating another horrible intersection for cyclists and pedestrians. When will Flagstaff stop building for cars and trucks and start building for ALL users?
Why do you build these gigantic, semi-truck scale intersections and roads? These monstrous crossings are bad for pedestrians and cyclists. Please scrap all design proposals and start over!
I didn't vote for any design options because they're all horrible! I'd like city council to be required to ride a bike and walk across town and see how unpleasant and dangerous it is, even without these awful new designs. I would support smaller intersection options if you bothered to include any infrastructure at all for non-motorized users. Really? Was this plan created by Chevron or Chevrolet?
Connection to FUTS
I just want to see more roundabouts to help slow traffic down through out town.
If flagstaff wants to reach carbon neutrality people need good options that aren't cars so all decisions should be based about dicencentivising driving and incentivizing other transport
Speed limit and noise reduction for Sinagua Heights and safty at Fox Glenn Park
Access to the FUTS near Foxglenn from Fourth
Yes for roundabouts
Get ROW (exercise city authority city!) to maximize use for public interest and safety
Reducing semi truck traffic and congestion on Butler at Little America. Add a raised median on Butler in front of Little A to force the flow of traffic in one direction, and reduce the amount of truck traffic going back-and-forth.
Making this safe for pedestrians and bicycles
Monitoring speed limit
Preventing red light running
Daily school traffic for drop off and pick up
Truckers getting on and off at Little America
Project Timeline. I.E. How long will the interruption last.
Priority should be on access and safety of alternative transportations such as cycling, pedestrians, public transportation. Low speed for automobiles should be implemented on all non-highway streets.
Instead of thinking about future traffic from new development, think about progressive infrastructure for future increase in alternative transportation
Separated bike lanes and tunnels and bridges for cyclist/pedestrians should be used
Ped and bike safety and use
Carbon neutrality
Bus systems
Provide a roundabout @ Butler & 4th St intersection, not a signalized intersection
Drainage Control
Sidewalks and pedestrian movement, including overpass given the schools in the area.

Infrastructure that is designed to manage/limit/reduce kinetic energy at all intersections, following the principles associated with Vision Zero - reduce road fatalities to ZERO.
Rotaries are excellent to meet the above, single lane rotary design similar to Turqoise and Switzer will slow traffic and reduce fatalities, if they are two-lane rotaries, then speed bumps must be added in advance to slow vehicles and flashing red lights placed at the pedestrian intersetion crosswalks.
Convenience of motor vehicle drivers should never be a priority above the health and safety of other drivers, pedestrians or cyclists!
Impact of already crowded roads
Lids that ride and walk to three schools in the area
Speed
Equal treatment for all modes of transportation; not just bicyclists and pedestrians.
Roads for cars and other avenues for non-cars. Cars should be the priority of this project, not bikes.
Winter safety
Crosswalk at sinagua heights and buer
Egress out of Sinagua heights neighborhood - almost impossible now during school hours
A timeline for the project
ease of access to residential communities in the area
not making entering/exiting communities more difficult for the sake of aesthetics
Slowing the speed of traffic/reducing speed limits
Connect 4th street to JW Powell. And extend JW Powell across lake Mary road
Minimizing noise and air pollution
Child and student safety
Bicycle and pedestrian safety
I just think that a priority should be kept on bicycle and pedestrian safety so that we increase safe, non-automated movement! I love that this is already part of the project, but I just want to emphasize that it's very much in the interest of the community!! We want safe bike paths!
I ran out of space in the other comment section - I also wanted to add that street width is causally related to ability to speed, number of injuries/accidents that occur, and survival rates. I haven't been able to find standard road width here in AZ/Flag, so the proposed road widths might be smaller or larger than normal, but I want to make sure road width is not too large because that increases speeding and injury/accident occurrence.
Safety of pedestrians and cyclists - if we want to encourage more pedestrians and cyclists to use any of this infrastructure and reduce car traffic, we need it to be separated and safe from cars.
Accessibility for pedestrians, cyclists, and public transit - likewise, if we want to encourage less car usage in Flagstaff and become a more green, carbon-neutral, bike-friendly city, it starts with building infrastructure that allows people to choose to walk or bike or take public transit (and thus this area should consider what public transit might look like in the next 5-10 years)

Connectivity of pedestrian/cyclist infrastructure (beyond Butler/4th Street) - a roundabout and pedestrian/cyclist separation in this area is a great first step, but it may also be helpful to consider how this new infrastructure will connect to the already existing infrastructure. Can bike paths be connected to other bike paths? Is there room for new apartment complexes and housing developments to connect sidewalks/pathways to this infrastructure safely? And will this infrastructure allow pedestrians/cyclists to access more of Flagstaff (beyond the project) safely?
I would lik no median to improve traffic flow
Cost to the City (staying within budget)
Long term maintenance - with green medians and areas between curb and bike lines, will those end up being ugly weeds? or do we have enough money to maintain? For trees in the middle, can we maintain water systems and what happens when cars run them over?
Snow plowing and clearing - is the design functional in winters? That area is very shady and the snow really builds up. is there enough room between curb and bike lanes?
Nothing
Decrease the traffic congestion! Improve intersection movement
Separated ped sidewalk
Project needs to concentrate on reducing future traffic congestion intersections improvements and pedestrian improvements.
Reducing access points along the little America property should be considered
Fluid traffic flow. Do not add flashing crossing area by Little America. They already have a traffic light at the 40
No pedestrians crossing at a roundabout. Seems confusing and dangerous
Getting in and out of the Butler gas station.We stop there on the way home headed East.
assure no tree shading on roads to prevent ice/snow buildup; shaded road is often icy and dangerous even after plows remove snow; this is particularly true for portions of road with steep incline/decline.
Reduced speed traffic flow, not hight traffic speed. Lower vehicular speed, more constant flow, narrower lanes, roundabout
Fewer total lanes, help this high density area feel like people own it not vehicles by narrowing to a single lane roundabout
Road surface material / winter treatment plan to reduce risks due to black ice on road, especially in shady areas on Butler Ave.
Adding a traffic light with crosswalk at Sinagua Heights Dr. across Butler to provide safe pedestrian crossing and turn assist when heavy traffic on Butler, school drop off / pick up times, as well as future increased traffic from ongoing developments nearby
No Round Abouts
Separated bike lanes
A one lane roundabout
Forest conservation/minimal road additions
Separate bikes and pedestrians from semi-trucks.
I would like to see a roundabout in that area
A separated bike lane would be safer

Better movement of cars and trucks on Butler near the I40 ramps
Managing development that will affect future traffic flow.
Making building developers responsible for adding improvements such as tunnels or overhead walkways that are staffed and maintained and ADA accessible as part of their bids to build new homes that will create these traffic flow problems
No roundabouts for trucks exiting Little America
Allow left turns from Little America and left turns into the Mobil station
Please address how the Sinagua Heights neighborhood will be negatively impacted.
reducing vehicle speeds through intersections
reducing overall vehicle speed
reducing distracted driving
Pave Harold Ranch Road through Ash Lane.
Provide an alternative route out of Forestdale community.
Fix the flooding problem at the Rio de Flag and Harold Ranch Road.
Smart budgeting
Disrupting wildlife as little as possible.
Plan ahead for the amount of people that are filling all the Ricky tacky new development.
No roundabout!
Soundscape
Dark skies
Protection for cyclists from traffic and for pedestrians from cyclists.
Slowing traffic, keeping vehicular speed down
Personal safety for pedestrians and cyclists.
Reducing the number of cars in Flagstaff
Promoting all other types of transportation
Prioritize people over automobiles
A bike lane that only takes people to Little America doesn't have a lot of utility, when most businesses are further west. Complete the lane so that residents in the Foxglenn area can use the bike lanes.
Mode shift to active transportation reducing congestion for vehicles (ATMP, Regional Plan, Climate Emergency, Council policy goals)
Children and elderly (8-80) comfort needs prioritized as other communities do
Design speed lowered to 30 or 25mph. This small change in speed might save lives
Slowing and lessening vehicular traffic
I've been waiting for decades to see Butler made bike/ped friendly as it's been rabidly hostile to these modes.
What happened to the Emergency Climate declaration of capping road capacity at 2019 levels? So much for that pledge. Shameful.

Bike facilities should be VERY safe and comfortable for ALL potential cyclists/peds. Lights set to prioritize those groups at every crossing.
Survey trucker and bus pedestrians as to where they need to cross otherwise they won't use it.
Impact on current businesses (Mobile Station)
All roads in Flagstaff should be designed to prioritize pedestrian and bicycle fafety
All roads in Flagstaff should be designed to prioritize pedestrian and bicyclist comfort
Secondarily, public transportation should be available in every part of town
Control control
schedule
increaseing vertical grade to minimize water runoff and drainage
Please consider the total distance a Pedestrian biker, biker or wheelchair-bound person will have to cross even just one side intersection.
Weather impacts, ie floods, snow, fires
Design to prevent snowplow buildup on ped/bike/transit facilities. Design so that the flow of snow from a snowplow on the street does not block ped/bike facilities.
Family-friendly ped/bike/transit facilities. Make it so that older children can safely navigate across this intersection an on/off transit here
Mitigate Flooding
safety for pedestrians crossing and along the streets/ prefer tunnel or overpass option versus a flashing crossing if possible
prefer a pedestrian overpass versus tunnel due to safety concerns/ drug use in tunnels; seems like an overpass could also be made to be handicapped accessible
if a pedestrian tunnel - since tunnels would be used by neighborhood kids, how would we would enhance safety (lights? cameras? emergency button like on campuses?)
Leaving as many ponderosa pine trees in the viewshed as possible.
noise mitigation ! walls or fences
to damper noise in the neighborhoods
affected .
See my extensive comments that I'll e-mail to Jeremy DeGeyter
Heightened education around transportation goals for flagstaff/ increasing mobility/mythbusting (latent demand for adding lanes, public approval rates increasing after roundabouts installed, etc)
plans for snow removal on pedestrian and bicycle paths (if separated bike lanes + snow removal are viable that's my preference)
a sheltered area for snow storms if possible

Traffic

I'm a biker and ped but I would hate to see another project de-railed by this very vocal small special interest group. We need more traffic capacity and 99% of our traffic is vehicles, let's use some common sense.

yes, expand what currently exists but don't over build, two lanes in each direction with the ability to add turn lanes, or if doing a roundabout, don't add the right turn lanes, undoes the point of a roundabout. Let the two lanes in each direction provide the capacity that they provide, don't worry about fulfilling all capacity needs at some point in the future with made-up background traffic. When this capacity fills, figure out options with other modes, don't overbuild for one mode, use $ that would have been for more lanes for other mode improvements, including transit frequencies.

We live in Forest Springs. It's very hard to make a left out of our neighborhood onto 4th. A roundabout would create a constant flow of traffic and make it next to impossible to leave our neighborhood during morning and after school times.

Be proactive by building bigger now instead of tearing up the intersection multiple times. We also need an answer to the congestion that the semi trucks cause at Little America.

Just do it right the first time so you dumdums aren't tearing it up again 3.5 years later for months past the projected completion time, inconveniencing thousands of people, multiple times a day like the Soliere disaster

This project is overdue. But building another 4th Street/Rte 66 is ridiculous. The project must accommodate multi-model transportation. This is both practical and symbolic. For too long Flagstaff has allowed traffic conditions to deteriorate on the presumption that developers would build the improvements one day. But the problems grow as background traffic grows, developers reject the projects, and the disagreements with the City about participation grow. The City must get ahead of development with infrastructure. And control growth that way by sending it in the direction it is planned to go.

We've experienced a lot of congestion over the past several months from the multiple projects going on now. Let's get his done right the first time so we only have to feel the pain once.

I think it is a very necessary and valuable project. We should not build the smaller intersection and expand later; it will likely cost a lot more than building the appropriate size now.

This project should be motor vehicle focused. Provide alternative areas for the minority, but vocal, special interest groups that look to force everyone to use some "alternative" transportation, specifically bikes. We need roads to carry motor vehicle traffic, not for the pleasure of the few. Flagstaff has few options for East-West travel, this expansion could become one, thereby taking stress off of Route 66.

I live at Woodshire on Butler and a high priority that needs to be considered is access to and from the community here. There needs to be proper lanes to be able to turn either left and right out of the community, and to be able to enter from either direction. A median in the middle of the road is fine only if it wouldn't make accessing the community where we live a one way street. This will be the same for several of the planned developments in the area, but as a resident currently living in a new development it's important to me that our access to our homes isn't limited by the new project.

Thank you for putting attention towards this area because I recently moved into Woodshire on Butler. It would be great to have more public meetings on this topic in the future. I do not agree with having so many pedestrian crosswalks along Butler. It's not that difficult to walk down the road to a crosswalk at a light to get across the street.

I prefer a slower speed limit on all of Butler, as well as Huntington & 66. 40 mph seems unsafe on such busy streets with many driveways and multiple user types.

quit will all of this feel good nonsense and build the dad-gum road! lone tree over pass too!

The proposed two lane roundabout is utterly incompatible with pedestrian and bicycle crossings, which is unacceptable given the housing and schools in the area. Cars using single lanes roundabouts don't even stop for people. The backup ultra-wide, Phoenix-style intersections are better but still bad for everyone but cars. The alternative 5x5 intersection is the only solution that comes close to conforming to Flagstaff's stated policy goals of encouraging other modes of transportation. It's presumably also significantly less expensive.

This project is a great project for the community and needs to move forward with 4 vehicular travel lanes and separated bike and ped improvements. Making the project any smaller will only cause future traffic congestion issues.

This project is needed as proposed with the dual lane roundabouts and separated ped and bike ways. This area serves a bunch of families that can't reasonably commute with bikes so reducing traffic congestion needs to be top priority. Please do not listen to untrained and uneducated people that believe they are traffic engineers or roadway designers.

This would be great. Hopefully it will help with winter driving as well to be smooth and not worry about hitting ice as you go up or down butler or 4th st. With all the new building going on, would make it safer and flow more smoothly in our commutes.

I'm not convinced that even a 2x2 roundabout is necessary to facilitate a reasonable flow of traffic through this intersection. Though I am in favor of roundabouts the protected intersections are complex and prone to degradation with snow removal. I would prefer to see a simplified single lane roundabout. Provide ample ability for pedestrians and cyclists to navigate and keep traffic speeds low. Congestion is okay it's not the enemy. High speeds and overly large roads disconnect people from their nearby environment.

A small group of people are making a big stink out of this project. It is a fantasy to think that more than a small group of people will ever use public transit.

Build smaller as allowed by TIA. School commuter traffic heavy in this area.

It's already difficult to get in and out of Sinagua Heights neighborhood during school drop off and pick up times. Without a signal at 4th and Butler to create gaps in the traffic it would be even more difficult.

It is very difficult now to make a left turn onto 4th Street from the Forest Springs subdivision (left turn heading north on 4th from Waterside, Warm Springs and Trickling Springs). That will only get worse once the new project on NE corner of 4th & Butler gets finished as it has direct access to 4th. If 4th gets widened, we will probably not be able to turn left on 4th out of Forest Springs. One of the 3 streets I mentioned will need a signal to permit a left turn on to 4th.

Again. Plan ahead! Our roadways are years behind and all this new construction demands proper and large roadways for safety and free flowing traffic.

I didn't choose a favorite from the 3 options listed for the larger intersection because I do not support any of them. I only support the smaller intersection concepts and appreciate you including those as possibilities. I believe it would make much more sense to start small and expand if it really becomes a problem.

I believe the plans for the monstrous intersection are being dictated by flawed models that cannot accurately predict the future. The model is also being falsely inflated by the number of parents driving kids to Knoles and Sinagua, both of which have bus service, but it's less than desirable due to FUSD staffing. Fix those problems, don't build an intersection we don't need.

Most cost effective to build the right intersection now then try to build small then make large. Infrasctrure is already outdated an will be emcummered by lack of support anytime in the future. Build is "right" now. Flagstaff need good examples of rounda about to grow and learn from in future developments.

Do it right now, as we should be looking towards the future expansion of JWPowell and connection with 4th Street.

I'm happy to see that something will be moving forward. Currently I go to great lengths to avoid using this part of Butler, be it driving out of my way during school and work hours, or riding my commuter bike out to the bike path along 66. I have also wondered what kind of traffic jam would occur if the Continental area needed to be evacuated due to fire. Hopefully the designs proposed take this into account.

I have lived on the east side of Flagstaff since 1986. I am very sad about the current developments on Butler Avenue, particularly the ugly houses going up on the south side and the lack of setbacks between the homes and the highway. There should be a tree barrier that obscures the development from view as one travels along Butler. Regarding the intersection of 4th and Butler, I deplore any development there. Just l/4 mile up the road is the Lone Tree intersection. Why build two roads right next to each other and destroy the forest in between? Make development at Butler/4th very small.

I live 2 blocks off Soliete - the combined noise of I 40 + the railroad+ Soliere traffic and 4th street is already disturbing. We need some noise mitigation,

Ped-bike

I'm just so tired of voicing my opinion for small, human-scale infrastructure, prioritizing greener, healthier transportation modes over the monsrous, unhealthy, and dangerous options that you propose. Why do you keep proposing the bad options?

This intersection is going to be heavily.trafficed agter JWP is built out. Putting all of that traffic on a roundabout is a bad idea. We need to build comfortable pedestrian crossings and a nice separated bike lane.

I am strongly opposed to this use of public funds. I would prefer that the city used this funding to create more robust cycling and pedestrian infrastructure to connect the new neighborhood south of Butler and the Country Club into the Butler corridor downtown, and the 4th Street commercial district. The city should NOT be conducting any road widening, particularly on the streets that are not under the jurisdiction of ADOT, and should instead be figuring out how to put our many city-controlled stroads on a ROAD DIET!!

I ride a bike and walk to get around a lot. I am having a hard time with changing the way the bike lanes and sidewalks are set up. I hate constantly seeing bike riders on sideWALKS. They are vehicles. The other thing is there isn't a sidewalk on butler over there. No one walks next to that road.

While roundabouts are good for traffic congestion they are not uniformly good for pedestrians and bicyclists. While slow speed single lane roundabouts can me okay for non-vehicular users large multi-lane roundabouts like the proposed one are much more unsafe. Roundabouts are also extremely unsafe for disabled people who need the designated opportunities to cross. Flagstaff wants to be carbon neutral and an important part of that is reducing vehicle traffic. To do this other transport needs to incentivized. Fully protected crossing at signaled intersections are valuable tools to do so.

Is an intersection this big really needed for this area? I support some development of the intersection to make it more accessible for pedestrians and bicyclists because there is no infrastructure right now.

It's very important to me to be able to walk/bike from fourth to butler without having to join the main traffic, especially with my dog.

sidewalks and safety need to be addressed immediately along Butler road. There are no sidewalks between little america past Fourth Street. Someone is going to get killed on that road, and the city will be responsible for not taking care of the problem - while being on notice of such an issue.

We need real options for pedestrians and bicycles. They should be priority over cars.

Traffic from Little America needs to be considered. Truckers crossing roadway and many people don't have the patience to let them in. A traffic pediatrician light would help letting them cross safely.

The proposed intersections are enormous and will be dangerous for cyclists. They are a poor investment for a community looking to increase alternative means of transportation. The smaller intersections are a better option, however I still don't see how cyclists are in a protected space moving through the intersections. Have tunnels been considered?

Please consider bike/ped safety and use as a priority.

This intersection feels like it is driven by someone who stands to make money from a larger design rather than the priorities and values that have been repeatedly stressed to City Council for a more liveable, bikeable, walkable community.

It is entirely possible to reduce travel speeds, provide good bike/ped options and still facilitate the efficient movement of vehicles. Giant intersections that dissuade walking and biking are not good transportation planning for anyone.

If we continue to accommodate more single-person automobiles with wider and wider streets, we only end up with more and more congestion - look to LA for this proof vs. Portland where other alternatives were implemented to get drivers of cars to try other options. People today in our town are asking for more alternatives and not just the same failed solutions of past generations. Mass transportation combined with safer pedestrian and cycling options are the future; folks are facing carbon holocaust and need options to avoid the dreadful fate of ongoing warming of the atmosphere!

I have lived in my house since 1995 in Foxglen. Traffic speed and congestion has been a problem but no one has ever looked at the safety of the children that attend the three schools in PA so I will middle school and knows that should be a priority, walking and biking.

I think the city really needs to consider making roads and intersections better for bikes and pedestrians. I think there are a lot of cities that do a better job, particularly in Europe, that Flagstaff could look to for better ideas.

The number of lanes in each of the proposed plans seems quite high, especially as obstacles to pedestrian and bikes trying to cross this intersection safely and conveniently. I most support the small round about intersection alternative among those provided. Carbon neutrality, and bike/pedestrian safety should be prioritized. I say this even as someone who drives 95% of the time. Building up and connecting safe alternate transportation routes is vital for the future of Flagstaff. Thank you for the chance to provide imput on this project.

We cannot build our way out of traffic. We need more space for bikes but I cannot travel through this intersection as planned safely as a bicyclist. I also don't know how individuals with access and functional needs will cross. .

By the time it is built the traffic needs will have exceeded what is built. I have seen elementary children cross 4th and or Butler at that intersection and am concerned that a roundabout would be extremely unsafe for them. Even having a flashing beacon or a "walk" sign may not be enough. I have seen adults not use the flashing beacon on 4th St north of Rte 66 to cross. Maybe cars drive more slowly in a roundabout when it is first installed, but I think over time, drivers get used to them and drive faster. Double lane roundabouts in Olympia, WA are downright scary.

I guess I just don't see the added safety benefit for bikes in a separated lane. Unless there are NO intersections or driveways for them to cross, its more unsafe. Because the driver doesn't expect a biker to be there and they don't stop/pause to look. Also, I don't think the separated lanes/sidewalk works will for snow removal and overall maint. Other streets in Flagstaff with planted trees or landscaping in medians deteriorate over time. Flagstaff is harsh environment and the City doesn't seem to have enough resources to properly maintain. Plus, trees near the road create ice patches.

The smaller intersection option does not include crosswalks. Why? The presenters said the preferred option is the roundabout. I'm not convinced pedestrian saftey is assured with a roundabout. I prefer knowing vehicles have to stop for pedestrians. There are 3 large schools in the immediate area plus children in the apartments on the NW corner of 4th Street and Butler. Pedestrian safety should be the top priority. Any option chosen is going to be obsolete prior to the full development of all current projects. Adding retail on the 4th St and Butler intersection will only make it more so.

given the very real concerns regarding pedestrians crossing Butler (even with raised ped crossing lanes with flashing light) and the fact that many children walk to and from school along this corridor, I suggest elevated pedestrian walkways - these are done in many cities across multiple lanes of traffic and can be designed artfully and attractively to fit the natural landscape of the area. Obviously and elevator would have to be added for those in wheelchairs or other mobility issues which would increase cost.

I am grateful that the city has prioritized this project. I am an avid bicyclist who lives at the top of Fourth Street. Since the recent development on both sides of Butler, I rarely ride my bike through this area anymore because I fear for my safety. I LOVE the idea of dedicated bike lines and signed crossings at the roundabouts. I do not think a phased approach is wise given the current development on both sides of Butler. This project needs to be built now. I do not support a tunnel because my experience with tunnels elsewhere in the city is that they fill with transients and trash.

I think this is an important moment to work towards making flagstaff a sustainable city, both environmentally, as well as financially. One of the best ways to do this is reducing the number of cars in the city. If we focus on cars for this intersection, we are only further supporting this unsustainable lifestyle. We need to be working towards a human walkable city instead of a city filled with building length roads throughout if we want to see more people walking and biking and using transit. We need density.

The area has not been that high of traffic to necessitate such a large intersection in my experience. Roundabouts control traffic flow very effectively and I would approve of a small roundabout if the intersection was to be changed. The bike lane changes and pedestrian crossing are my highest priority in this build.

A 6x6 or 7x7 intersection does not promote the sustainability and walkibility of Flagstaff residents and instead perpetuates car reliability, which sucks for people and the environment. Flagstaff has taken a good step forward in regards to public transportation, but this city is still highly dangerous for pedestrians and cyclists! Personally, I would love to feel safe and confident biking to work but that simply isn't a possibility right now.

I truly believe that if the city is going to allow for more and more building of residences in areas that is going to literally change the flow of traffic and necessitate these improvements, part of granting those permits should involve the developers having to foot the bill and put in the best possible upgrades such as tunnels or covered walkways for pedestrian and bicycle crossings so that we do not have to have these enormous intersections and safety concerns

This is only a small part of the project presented at the public meeting. Other very important issues were brought up that you are not asking about. Public input on the school crossings and on the other roundabout and crossings from Little America south need to be available in this survey.

Lots of pedestrians and schools in the area so that connection is a priority for safety.

pedestrian/bike safety should trump vehicle ease/congestion always.

Separated bike lanes would be amazing as would a tunnel similar to the FUTS crossing at Butler and Ponderosa.

I believe the proposed project is massively oversized and goes against Flagstaff's stated climate goals by treating pedestrians and cyclists as secondary consideration while at the same time inviting more car traffic.

Reduce speed of vehicles descending from the north, south and east. Protect both pedestrians and cyclists. Tunnels sometimes end up being latrines, venues for drug deals and panhandling, ie. little Country Club tunnel, the Loop Trail tunnel from Campbell Mesa, AZT at the I-40 underpass. Shared paths must be wide enough for pedestrians and commuting cyclists.

From a safety & time to cross bike/ped perspective this intersection is awful & intimidating, so I specifically avoid it. There are still times where I have to use it & I appreciate the bits of separated bike lane work done on the bridge. Overall, anything we do to make this intersection larger will further imped bikes/peds & we're still NOT focusing on getting cars out of cities. Use this money to make public transportation better & expand the FUTS out to Doney Park & Bellemont. It's better for the mental & physical health of everyone.

We need more infrastructure that protects multi-modal transportation. Roundabouts, separated bike lanes and ped bridges all make this town more safe for those us that choose not to spend all our time in our cars.

I live in the area and heavily utilize my bicycle. Bike lanes that connect to other FUTS trails need to be prioritized. I can't help but compare this area to others, such as coconino estates. The differences in bike safety and utilization are stark. I would like to see expanded, safe bike lanes appropriate for adults AND children prioritized here (there are two schools and a park!!). It is very dangerous to ride under the current design. My concern with a roundabout is that it will not provide a safe route for cyclers as drivers often don't know how to safely navigate roundabouts.

Our priority should be the Carbon Neutrality Plan, not helping to ensure car culture that can move singular individuals through town as quickly as possible. I don't travel much to this area because it does not have good bike/ped/transit infrastructure.

Please include separated bike lanes. The little white curbs that were installed on the west side of town on butler were not the same thing. There is currently no safe way to bicycle out of the Fox Glen neighborhood, so this would be a HUGE plus.

All three recommended options are way too big for 8-80 comfort levels. 94' & 120' crossing distances should be communicated to the public and to Council and seem to be left out. 4th & 66 is a very large intersection with 7 lanes and is likely smaller than 94'. Why are we looking to build larger intersections then one we already know is not friendly to those on foot or by bike? I'm grateful the City team is looking into a phased in approach since the Engineering code review is underway. I am hopeful a smaller intersection is built that truly puts the needs of bike/ped first. Thank you!

I am excited to see bike paths, but intersection options seem horrific. An under or overpass seems appropriate if we want to invite more folks to bike commute, AS WE MUST. Giving all bike/peds priority to go first at signals is imperative. This plan ignores the city's climate change goal of freezing car lanes at 2019 levels. Lame. Long term drivership must go down as gas prices go up & water shortages limit SW growth. I prefer either the 5x5 or slipfree roundabout options. Also consider allowing for on-street bike lanes as advanced riders may prefer this. Some shoulder required anyway.

Build the intersection type that data has shown to be the safest for bicycles in terms of the lowest numbers of accidents and the lowest intensity of accidents.

Lighted path for underground bicycles.

A smaller intersection, with ped/bike facilities is preferrable. Roundabouts are too confusing and not as user-friendly for peds/bikes.

Would support roundabout if raised crosswalks and careful consideration of peds and bikes was given a high priority. Details are important. At the Switzer Canyon roundabout, cars travel too fast and do not yield to peds when exiting roundabout. We need to do better this time for making it safe for children/families to be pedestrians and bicyclists in Flagstaff.

I strongly support and encourage any option or modification (including those not presented) that increase bicycle and pedestrian safety and encourage usage other than single passenger vehicles.

primary concern is still the safety of pedestrians. I live in Sinagua Heights. Our children either had to choose crossing Butler near us, or walking down to Fox Glenn light, to cross Butler to middle school & HS. We were told our development did not have enough children to warrant a cross walk (even with 2 schools right along Butler). Now that "zero deaths" is a priority for roadways perhaps this will give our children's safety the priority they always deserved. Also, education for drivers & pedestrians on proper/safe use of roundabouts & pedestrian crossings- even with the flashing lights.

I really urge the city and its engineers to follow through with the commitment made in the Carbon Neutrality Plan and the Big Shift and place the needs of bicyclists, pedestrians, and other micro-mobility transit users over vehicle drivers. The current plan for the roundabout absolutely does not do that; based on the engineers' own assessment, it is better for drivers than bicyclists or pedestrians. The right turn lanes in the roundabout are particularly dangerous, as is the number of lanes. I often have to cross Route 66 on Fourth Ave and it is incredibly hazardous. Don't build that again.

In view of Flagstaff's commitment to sustainability and the many schools and houses/apartments in the area, please prioritize bicycle and pedestrian movement and safety, as well as accessibility to mass transit.

I don't know the anticipated growth in traffic demands here over 5/10/20+ years overall; however, I do find goals for increased focus on equal access to mobility and bicycle/pedestrian centered transportation more important for a city that will stand up to long term growth, especially for road maintenance costs and population growth. im not aware of efforts to keep vehicle speeds low, or public transport plans in this area/ all of flag in the future, but those would be concerns. id like buses/public transport separate from vehicle traffic where possible. thank you!!

Roundabouts

Roundabout option preferred as long as bike/ped have a signal to stop traffic to cross , could move the bike/ ped crossings further away from intersection to allow more queueing in the roundabout. Build larger now (assuming that is supported by traffic projections) if the $18m can cover it, will just get more expensive in future.

The City needs to provide a public advertisement with purchased time on local television stations about how to use a round-a-bout. I have seen more people confused at Fort Tuthill and Switzer Canyon than I do at the I-40/Butler/Pondarosa Parkway intersection and that intersection is really confusing.

PLEASE don't put a roundabout here. Too many people don't know how to use them and it just backs traffic up at busy intersections. We need to be more forward-thinking than that. I like the idea of keeping a smaller intersection now with the understanding that it will likely need to be expanded in the future, once the development is complete and we see what traffic looks like.

I prefer the smaller roundabout and hope you'll value the safety of cyclists & pedestrians, especially with 3 schools in the vicinity of the intersection and the number of youth using those intersections.

If there is a roundabout, please no right turn/slip lanes. I live by turquoise circle and people fly through the circle but especially the slip lane and don't yield to other cars and definitely not to pedestrians and cyclist. Also prefer a traditional intersection as cars are never looking for pedestrians as they are leaving circle and crosswalk provides false sense of security when crossing roundabout and cars are only focused on cars in roundabout & not pedestrians as they exit roundabout. Also for kids a walk sign is very helpful as roundabout crossings are different and uncommon for them.

Hi! One thought I wanted to add/check that it's being considered as well - I'm very much in support of the roundabout option, I'm from Bend, Oregon (but I'm a senior here at NAU) and we have tons of roundabouts, but one critical element of bicycle and pedestrian safety in roundabouts is having a separate bike lane that doesn't interact with cars. I also highly support the separate bike lane option because it is much safer for bikers and would personally make me feel protected. My dad nearly died after being run over by a truck in the bike lane, this would save lives. Other concern listed Q1.

I'd prefer the 2x2 roundabout with no turn lanes because it is more common and easier to follow than a 2x2 lane with R-turn lanes (and may be safer for all to watch traffic). The project should consider expanding earlier rather than later, considering Flag is growing. But remember, induced demand will only increase road use and traffic. Also consider narrowing car lanes from 11 ft to 9.5-10.5, since wider lanes allow cars to speed and increases risk of crashing (I live next to a wide, busy road, and it doesn't feel safe to drive on). Finally, please consider traffic signals for peds/cyclists.

I support the use of roundabouts only if there are truly safe ways for pedestrians, wheelchair users, stroller users and cyclists to get across

I'm confused by the flashing pedestrian crossings in conjunction with the 4th St roundabout. How will drivers know which direction the pedestrian is coming / going? Will it pause traffic in every direction? What about a pedestrian overpass?

I say do the full build out now. We might not have the funds later. I think the roundabout is a great idea and I love the off the road bike lane. I wish that was standard.

I would really like to advocate for more roundabouts in Coconino County in general since they are more fuel efficient, making people leave less of a carbon footprint, and cost less to make.

The roundabouts will be hard for pedestrians to navigate. Please don't use them. Even one pedestrian death is too many to justify roundabouts for traffic convenience.

Any and All Roundabouts should be Voter Approved, not everyone is familiar with Roundabouts; the safety/ traffic accidents a major concern, nor do all drivers approve of Roundabouts. Just because the City Council likes Roundabouts mean that on the whole Flagstaff and surrounding areas near and in Flagstaff citizens do. Problems with autos and trucks just speeding through, not heeding that other autos have entered, about to enter- as safety pedestrians/young children who need to get to the other side. Even bikes have problems with Roundabouts.

Please consider smaller options. 2x2 roundabout with right lanes is way too big. It reduces the safety benefits of roundabout by having slip lanes.

Roundabouts are proven to increase flow of vehicles, but need to be constructed with pedestrian safety measures. 35mph max speed zones is also important for safety.

I have used roundabouts elsewhere, and two-lane roundabouts are very difficult to use -- hard to enter, hard to figure out if the car in the roundabout is going to change lanes and where they will exit. The speed limit on the streets that meet at the roundabout is very important - too high (and figure most people go 10 mph over the limit), and it is more difficult to enter and use the roundabout safely.

No roundabouts. There is too much traffic. It will be a mess and way too confusing.

Other

I'm also concerned about the flooding that happens at this intersection. There is often a lot of gravel and washout on the road. This should also fix that issue

I don't like being asked to rank several proposal that I disagree with.

Don't wait to build it. The money won't be there in the future.

I travel through this area from home to work
We have been told this was going to get done for years - it seems the city is constantly changing the project - the scope of it and they have waited too long. It was supposed to get done before the building out of the various apartments and homes.
Leave it as is
We appreciate work done on the planning of the project, including strategy to raise the intersection ~6-8 ft. to reduce the risk for future flooding, improve pedestrian / cyclist access on roads, and the communication / meetings with the public to share updates / incorporate citizen feedback on project design. However, please update project scope to fix long standing safety issues: 1) use proper road surface / road treatments to prevent black ice, not just cinders (possibly removing trees = no shaded roads) & 2) add traffic light / pedestrian crossing at Sinagua Heights Dr and Butler.
I appreciate all the options and the chance for the public input.
Don't line the Rio De Flag with concrete. Prevent additional downstream flooding by recharging the aquifer.

My response is 1,150 words, so I will e-mail it to Jeremy DeGeyter for inclusion with this submission. I hope that is possible.
