

**Greater Observatory Mesa Trail Plan, April, 2023**

Instructions: Provide any comments you have to the questions below. You may also provide any additional comments below the pre-filled rows. Your feedback is greatly appreciated and will be reviewed prior to additional community engagement.

Organization: (Please Complete)

Page #	Companion map page #	Comment Requested	Your Response
20	20	Do you support the new trails identified on the map being constructed at 36" width to accommodate adaptive cycles?	
27	28	Do you support a portion of the trail (5.7) being moved to the road bed, or prefer the trail be exclusively singletrack (24"width)?	
27	28	connects proposed trail 5.7 with OMNA property at the southern boundary, using lower elevation slopes to connect to trail 5.3. Do you support the addition of this trail	
30	28	Do you support this road being adopted along with trail 5.1? Best efforts will be made during the design process to visually separate 5.1 from 4.34.	
34	33	Do you support the removal of trail 5.11 due to wildlife concerns?	
34	33	Do you support adopting trail 3.4 as a replacement for trail 5.11?	
53	20	There are limited opportunities in Flagstaff for formal e-bike use. If there is potential to allow e-bikes throughout the proposed Greater Observatory Mesa trail system, do you support allowing this use?	
		Do you support a directional trail intended for mountain biking south of FUTS Mars Hill near Thorpe Park?	<a href="#">MTB map for comments</a>
		Do support the adoption of trail 3.36 to provide an intentional experience?	<a href="#">MTB map for comments</a>
		Do you support adopting trail 3.37 for non-motorized multi-use on the east side of the FUTS Tunnel Springs? Trails 3.36 and 3.37 would replace proposed trail 5.2 east of FUTS Tunnel Springs.	<a href="#">MTB map for comments</a>
