# Twenty-Five Years

Trevor began working for the City in November 1999 in the Engineering group. He started as a Project Manager and in 2022 became the Capital Improvements Engineer. Trevor has been recognized for his commitment and hard work through a City Manager's Award and being recognized as the 2023 Leader of the Year. Recently he also received a Wonderful Outstanding Worker and Quality Step Increase. He and his team are part of monumental projects such as Spruce Wash, Rio de Flag, JW Powell, Lone Tree Overpass, and Beulah/University.

Trevor Henry  
Capital Improvement Engineer

The background is a bright, celebratory scene. It features several strings of gold streamers hanging across the top. The streamers are thin and have a slightly wavy, ribbon-like appearance. Scattered throughout the background are numerous small, gold, star-shaped confetti pieces. The overall color palette is warm and golden, creating a festive and joyful atmosphere.

*Congratulations*
