Timing of Submission and Completeness Review

The Heritage Preservation Commission meets to review applications monthly on the third Wednesday of the month. If you are submitting an application for a Historic Signs and Facades Grant, the Community Development counter must receive your application by the submittal deadline posted to the Heritage Preservation program website.

In order for your item to be added to an agenda, the Heritage Preservation Officer (HPO) must deem the application complete and the information in it correct within 5 working days. The HPO will contact applicants for additional information as necessary.

Historic Signs and Facades Grant are provided at the discretion of the Commission based on the criteria in the [grant guidelines](#) posted to the City's website. Grants are administered by the HPO and they are available for consultation through the process. Documentation of completed work and receipts must be provided within one year of approval by the Commission or an extension must be applied for in order to receive reimbursement.

Before submitting for a grant related to a sign, a permanent sign application must be submitted, and comments returned to the owner. If the application pertains to a historic sign that does not conform to current regulations of Permanent Signs (10-50.100) or meet the criteria for a non-conforming sign (10-20.60.110) then the Heritage Preservation Commission must first determine that the sign meets the criteria of an Individual Signs of Historic or Cultural Significance (10-30.30.040.E) and may require the sign be placed in a Landmark Overlay.

We encourage you to reach out early in designing your projects so that the HPO may assist you and your clients. HPO contact information: Phone: (928) 213-2633; Email: Mark.Reavis@flagstaffaz.gov

Summary Statement of Significance:

National Register of Historic Places documentation or a Cultural Resource Study can be submitted in lieu of completing this page to demonstrate significance (Attach additional pages as necessary).

The significance of a resource is generally based on its potential to contribute to our understanding of the past. An object, structure, site, place, or area is significant if:

- a. It is associated with events or persons in the architectural, engineering, archeological, scientific, technological, economic, agricultural, educational, social, political, military, or cultural annals of the City of Flagstaff, the State of Arizona, or the United States of America.
- b. It embodies distinctive characteristics of type, period, region, artistic values, or methods of construction, including being the oldest of its type or the best example of its type, or, if it represents the work of, or for, an important individual.
- c. A resource is generally not significant if it is less than fifty (50) years old, or, if the features, materials, patterns, and relationships that establish its significance are no longer present or no longer have integrity. The integrity of a resource is judged by how evident the general character of the significant period is, the degree to which the characteristics that define its significance are present, and the degree to which incompatible elements are reversible.
