City of Flagstaff Beautification Grant Committee  
211 W Aspen Ave  
Flagstaff, AZ 86001

Subject: Letter of Support for Crystal Estrada's Beautification Project Proposal

Dear Beautification Grant Committee,

We are pleased to submit this letter of support for Crystal Estrada's Beautification Project Proposal, which requests funding to plant native plants at the base of McMillan Mesa's Segó Lily Trail along North Izabel Street.

In meeting with Ms. Estrada, she possesses the necessary knowledge, passion, and dedication to complete this project. She researched native and deer-resistant plants that would thrive in that environment, and those plants are well-suited for the McMillan Mesa Natural Area. Together with our Open Space Coordinator, a certified Master Gardener, I am confident that this project will be a success.

Ms. Estrada is also enthusiastic about working with Open Space to expand this project along N. Izabel Street. It has been our goal to stabilize and beautify the slope that descends from McMillan Mesa Natural Area onto N. Izabel Street with native plants, and so her project aligns well with that goal. We look forward to getting a start on this project, hopefully with Ms. Estrada's beautification proposal being approved and awarded.

This project aligns with the goals of the City of Flagstaff's Beautification and Public Art Program by enhancing an area that has been previously neglected with appropriate and thoughtful native plants. We wholeheartedly support this grant application and urge you to consider it favorably. Please do not hesitate to contact us should you require additional information or have any questions.

Sincerely,

Robert Wallace  
Open Space Supervisor
