Subject Site

## HISTORY

- 1954 Structure was built.
- 1992 Structure was remodeled
- 1999 City Commission Designated the Downtown District as the Historic Downtown District.
- 2000 Structure was remodeled, including exterior improvements and alterations
- 2001 Downtown Historic District reauthorized, designating the structure as a non-contributing Structure
- 2010 Business tax license for the subject space was inactivated, rendering the storefront vacant.
- 2013 The HPB granted conditional COA approval of minor exterior alterations to the structure.
- 2014 Staff administratively approved stucco repair/resurfacing.

---

## STAFF ANALYSIS

The applicant is requesting to seal, stucco & paint the east wall of the subject structure, to match the remaining walls of the structure. The requested alterations would overlay an existing mural features on this elevation. The mural, painted in 1995, features a maritime scene which presents a paddle steamer executing a cargo delivery to what appears to be the old Fort Pierce marina. The mural was painting during a decade of preparation and downtown revitalization in conjunction with our City's Centennial Celebration. The mural contributes to the City of Fort Pierce's Art in Public Places mission and initiatives. The mural was present on the structure when the City Commission adopted resolution 99-95, Designating the Downtown District as the Historic Downtown District, and also at the time of reauthorization of the Downtown Historic District in 2001. The property was acquired by the current owner in 2010, inheriting the present artwork.

The owner presented this as their first attempt to seal this side of the building, in response to deterioration observed over the last two years. It is indicated that currently, moisture seeps through the staircase cracks rendering the inside of the wall prone to the accumulation of mold and mildew, while the rain further swells these cracks.

The permeation of moisture into the structure, if facilitated through the subject wall of the structure, should be addressed to alleviate the negative impacts to the structure. The elimination of the potential points of intrusion may be accomplished via alternatives to the overlay of the wall and mural with stucco. The application and maintenance of a clear sealant, polycrylic, or water-based archival varnish are the most appropriate actions to effectively eliminate the potential for further access by moisture. The overlay of stucco upon the mural would render a large expanse of wall without windows, architectural features, or creative detail, altering the character of this elevation of the structure.

### Secretary of Interior Standards for Consideration

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

### Staff Recommendation

Staff recommends that the Historic Preservation Board consider the historic significance of the existing mural pursuant to Secretary of Interior Standard 4. If the Board deems the mural to lack historical significance, Staff recommends approval of the requested alterations, based upon their compliance with the remaining Secretary of Interior Standards.

Existing Mural at Rear of 102 N 2nd Street— Painted 1995

Current Progress of Stucco Repair/Replacement on Southern Façade
