Greetings,

As a Port St. Lucie Councilmember, it has been my intent to help keep our City and County a wonderful, quality place in which to live. I truly value this community I live in and serve and am proud of what we have provided for generations past, present and future.

In the coming year and beyond we have a very real opportunity to shine as a county and city to showcase our mutual appreciation and enthusiasm for arts and culture, which enhances our quality of life. To this end, I propose a project partnership between the City of Port St. Lucie, the City of Fort Pierce and St. Lucie County to provide our residents another culturally enriching exhibition that will enhance their lives and keep our county and its cities a shining example of quality life on the Treasure Coast.

Please consider a collaborative project; an eighteen month hosting of **Without Walls 4 (WOW4)** at The Port St. Lucie Botanical Gardens. This will advance the already proven record of past WOW projects. This time it would be located in the population center of our county attracting untold numbers of residents. This event would allow for many of the county-facilitated sculptures, which are currently in storage or undergoing renovation, to be displayed for all to see and appreciate for the duration of WOW4. I truly believe this partnership will advance the already statewide acclaimed WOW projects to another level for the benefit of our citizens of Port St. Lucie, St. Lucie County, the Treasure Coast and beyond.

Please consider collectively hosting **WOW4** at the Port St. Lucie Botanical Gardens and let's continue to make a lasting impact on the residents of our great city and county.

Respectfully Yours,

Michelle Lee Berger
Councilmember, District 2
Port St. Lucie, Florida.
