RE: *Letter of Appreciation – Officer William Blue*

DATE: *September 29, 2014*

This letter is written with profound gratitude and heart felt appreciation to Officer William Blue. Although my complaint may seem insignificant on the surface , it is not. On Thursday, September 25, 2014, I phoned 911 non-emergency for assistance in relation to chickens running loose in my yard. The chickens came from a newly installed chicken coop next door to my home. My over-riding concern was for that of my dog. He has arthritis in both hind legs and chasing chickens could result in a whole lot of pain for him and a whole lot of pain for me in terms of medical bills from the Treasure Coast Animal Hospital. That painful scenario was avoided because of the outstanding work performed by Officer Blue upon his arrival at my home. He listened to my concerns and immediately took charge of the situation next door with such assertiveness and authority that the chicken coop was dismantled that very afternoon and all the chickens are gone. I am profoundly and forever grateful.

Jim Foley
