**SUBDIVISION APPLICATION INFORMATION****Section 18-10. Plat Specifications****(a). Preliminary Plat Specifications**

- (1) The preliminary plat shall represent the entire area which the sub divider contemplates developing, including possible unit divisions not scheduled for immediate development.
- (2) Thirteen (13) copies of the preliminary plat shall be submitted along with the application for preliminary plat approval. Folded and collated
- (3) The preliminary plat shall be prepared by a land survey or registered in the State of Florida and shall contain the following information:
  - a. Proposed name of subdivision
  - b. Name and address of owner on record
  - c. Name, address and telephone number of sub divider
  - d. Scale, north arrow, and date plat were drawn
  - e. Boundary lines of the tract indicated by a heavy line giving approximate dimensions.
  - f. Approximate number of lots and typical lot size
  - g. Divisions or state development, if any, proposed by the sub divider
  - h. Natural and manmade features within the proposed subdivision, including drainage, channels, bodies of water, or other significant features.
  - i. Contour lines, having a one-foot interval
  - j. Development features such as rights-of-ways and pavement widths, easements including their purpose and width, and other dedications, including their purpose.
  - k. Names of adjacent platted subdivisions
  - l. Names of adjacent unplatted property owners
  - m. Location and size of nearest water, sewer, and storm drainage lines that will serve the subdivision.
  - n. Certificate of Preliminary Plat preparation.
  - o. Vicinity sketch showing the relation of the proposed subdivision to adjoining property and the city.
  - p. Name and address of the engineer and/or surveyor who prepared the plat and design improvements be listed on the preliminary plat.
  - q. Certification from the developer's engineer whether federal, state, or local agencies have jurisdiction over the proposed project.
- (4) After the preliminary plat has been approved by city commission, and before submission of the final plat, the following detailed plans prepared by an engineer registered in the state, shall be submitted to the director of development for review and distribution to affected departments and/or agencies:
  - a. Two (2) sets of construction plans of the proposed streets, including storm sewer and sanitary sewer and will show the following:
    1. All lateral widths.
    2. Centerline profile grade relative to elevations of adjacent properties at the right-of-way line.
    3. Elevations at points of grade (tangent).
    4. Curve data for horizontal and vertical curves.
    5. Pipe size, grade, and location of manholes, and inlets.
    6. Stationing at intervals of one hundred (100) feet minimum and all of new construction.
  - b. Two (2) sets of construction plans of the proposed water system that will serve the subdivision showing the size and location of mains and services.
