A complete Administrative Review packet is required upon application submittal.

To be completed by the City
Date Received _____ By _____
Fee: _____ Receipt# _____

All required application information must be provided at time of submittal.
Packets must be folded to 8 1/2 x 11 and collated.

APPLICATION REQUIREMENTS:

- a. Application fee
- b. Application submission shall include the following:
 - TRC (Initial Submission): One (1) original and (13) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.
 - Planning Board: One (1) original and (16) paper copies of the application and support documents and provide one (1) electronic copy of the application packet as described below.

DESIGN REVIEW APPLICATION CHECKLIST
(City Code of Ordinances 22-59)

1. Submittal for Administrative Review:

1. A survey (1"=30' minimum scale) of property lines, existing topography and the location of trees meeting the tree protection regulations of Sec. 22-194, location of bordering streets and, if applicable, wetlands and beaches.
2. A Site Analysis Study to include a discussion of specimen trees and other natural vegetation, access, significant topography, wetlands, buffers, setbacks, views, orientation, the surrounding built environment and other site features that may influence design elements.
3. A draft written narrative describing the design intent of the project, its goals and objectives and how it reflects the Site Analysis Study results.
4. Context photographs of neighboring uses and architectural styles.
5. Photographs and/or drawings of architectural buildings or objects that serve as a precedent for the proposed building design. Models should be taken from local exemplary buildings, either existing or demolished. Documentation of such buildings is available in the City's Planning Department.
6. Photographs of all existing structures located on the property. If existing structures on the property are more than fifty years of age, documentation of these structures with data from the Florida Master Site File form is also required.
7. Conceptual site plan (to scale) showing proposed location of all buildings, structures, parking areas, signs and landscaping.
8. Landscape plan, at the same scale as the site plan. The planning director or designee may request enlarged plans of detailed planting areas. Planting schedule with sizes of proposed plantings must be included.
9. Accurate color rendering of proposed signs showing dimensions, type of lettering, materials and actual color samples that demonstrates cohesiveness with the project design.
10. Exterior elevations showing architectural character, external architectural features and streetscape of the proposed development, including materials, colors, shadow lines and landscaping. The street elevation shall encompass the entire proposed project and generally identify the major elements of the adjacent two properties on either side of the site. If the adjacent properties are vacant or underutilized, a diagram shall be provided that identifies the mass and form that is allowable under current zoning. If the street elevation must be drawn at such a scale as to render architectural details of the building unreadable, drawings of individual buildings at a larger scale should be provided as well.

2. Submittal for Final Review:

1. A Written Narrative describing how the project conforms to Administrative Approval and Design Review Guidelines of this section.
2. A final site plan meeting the requirements of Section 22-58.
3. A final site lighting plan that meets the requirements of Section 22-58(d)(8).
4. A final landscape plan that meets the requirements of Article XII, Landscaping and Trees.
5. Final floor plans and elevation drawings (1/8"=1'-0" minimum scale), as detailed under Administrative Approval, showing exterior building materials and colors with architectural sections and details to adequately describe the project.
6. A color board (11"x17" maximum) containing actual color samples of all exterior finishes, keyed to the elevations, and indicating the manufacturer's name and color designation.
